Allis,2001-12-28 Bible critics argued that the first five books

of Scripture were not written by Moses but were a later compilation from various conflicting sources by unknown authors and editors Here Dr Allis closely reexamines that critical theory and places before the reader the evidence for the unity and harmony of the five books of Moses **Many Infallible Proofs (Henry Morris Signature Collection)** Dr. Henry M. Morris, Henry M. Morris III, 1974-08-01 Christians today especially in America are woefully ignorant about the Bible and what impact it can have on a world of darkness This despite the words of 1 Peter 3 15 But in your hearts set apart Christ as Lord Always be prepared to give an answer to everyone who asks you to give the reason for the hope that you have Thankfully scholars like Henry Morris have seen fit to provide us with good answers for questions posed by Bible critics and by multitudes of Christians for Christ himself has provided us with many infallible proofs Acts 1 2 3 Christians will be strengthened with these topics Problems in verbal inspiration Fulfillment of prophecy The structure of Scripture Alleged Bible contradictions The Bible and science The Bible and ancient history The unique birth of Christ **In Defense of Miracles** R. Douglas Geivett, Gary R. Habermas, 2025-10-16 Rumors of deception have surrounded claims of Jesus resurrection ever since the soldiers appointed to guard his tomb made their report to the Jewish authorities But no one has led the philosophic charge against miracles quite as influentially as David Hume with his 1748 essay Of Miracles Refined revised restated his arguments still affect philosophic discussions of miracles today During the twentieth century strong arguments have been raised by Antony Flew professor emeritus at Keele University in England Flew has contributed a fresh statement of his objections to the idea of God s acting in history just for this volume which also includes Hume s classic critique as a part of the case against miracles In response Douglas Geivett and Gary Habermas have assembled a distinguished team of scholars to rebut the objections and set forth the positive case for God s action in history Richard Purtill clarifies the word miracle while Norman Geisler critiques Hume s case against miracles Francis Beckwith and Winfried Corduan assess how we would recognize miracles in the past and in the present Ronald Nash examines naturalism s exclusion of miracles and shows its self referential incoherence J P Moreland discusses whether science properly rules out the possibility of miracles God s existence and action in history are probed by David Beck and Stephen Davis while Douglas Geivett argues that within a theistic framework it is reasonable to expect miracles as confirmation of claims to special revelation David Clark examines miracles within the context of various world religions Robert Newman John Feinberg William Lane Craig and Gary Habermas conclude by investigating fulfilled prophecy the virgin birth and incarnation of Jesus the empty tomb and the resurrection appearances In Defense of Miracles is a comprehensive up to date discussion that should not be overlooked by anyone concerned with the current debate over miracles
