The Opening Of The Field:

The Opening of the Field Robert Duncan, 1969 **The Open Field System and Beyond** Carl J. Dahlman, 1980-05-15 In this book Professor Dahlman applies modern economic methodology to an old historical problem. He demonstrates how the quaint institutions of the ancient English open field system of agriculture can be understood as an intelligent and rational adaptation to a particular problem of production and to certain historical circumstances. He argues that the two major characteristics of this type of agriculture—scattered strips owned by individual peasants and extensive areas of common land—both fulfilled vital economic functions. This overturns the traditional view of the open field system as inefficient and rigidly bound by tradition and throws light on the behaviour of medieval peasants. Professor Dahlman also offers some generalisations about the economic theory of institutions and institutional change, refuting the idea that an economic analysis of institutions must necessarily be deterministic. As a challenge to some of the fundamental criticisms of the application of economic theory to historical problems, the book will be of great interest to agrarian historians and to economic historians generally, as well as to specialists in the medieval period.

Across the Open Field Laurie Olin, 2012-09-07 Twenty eight years ago I went to England for a three month visit and rest. What I found changed my life. So begins this memoir by one of America's best known landscape architects. Laurie Olin, raised in a frontier town in Alaska, trained in Seattle and New York. Olin found himself dissatisfied with his job as an urban architect and accepted an invitation to England to take a respite from work. What he found in abundance was the serendipity of a human environment built over time to respond to the land's own character and to the people who lived and worked there. For Olin, the English countryside was a palimpsest of the most eloquent and moving sort, yet whose manifestation was of ordinary buildings meant to shelter their inhabitants and further their work. With evocative language and exquisite line drawings, the author takes us back to his introduction to the scenes of English country towns, their ancient universities, meandering waterways, and dramatic cloudscape racing in from the Atlantic. He limns the geologic histories found within the rock, the near forgotten histories of place names, and the recent histories of train lines and auto routes. Comparing the growth of building in the English countryside, Olin draws some sobering conclusions about our modern lifestyle and its increasing separation from the landscape. As much a plea for saving the modern American landscape as it is a passionate exploration of what makes the English landscape so characteristically English. *Across the Open Field* is an affectionate ramble through real places of lasting worth.

Toward the Open Field Melissa Kwasny, 2004-06-24 The historical writings that helped shape our current understandings of poetry. *Toward the Open Field* brings together many of the great prose pieces—essays, letters, declarations, defenses, manifestos, and apologies—by the most influential European and American poets from the Romantics to the Symbolists, Surrealists, and Moderns. Hitherto uncollected and all in English, the work in this anthology follows the changing notions of what a poem is, what a poet is, and why we read a poem, tracing the development of stylistic and ideological strategies that have spawned our current conflicting

understandings of verse The book begins with Wordsworth s 1802 Preface to the Lyrical Ballads and proceeds through 150 years of English language tradition including the European poetries which greatly influenced it These prose works allow the reader to share one of the great extended conversations by poets about poetry during a dynamic period of literary experimentation Includes work by Charles Baudelaire Andr Breton Aim C saire Samuel Taylor Coleridge Emily Dickinson T S Eliot Ralph Waldo Emerson Gerard Manley Hopkins Langston Hughes John Keats Federico Garcia Lorca Mina Loy St phane Mallarm Marianne Moore Charles Olson Ezra Pound Arthur Rimbaud Percy Bysshe Shelley Gertrude Stein Wallace Stevens Paul Val ry Walt Whitman William Carlos Williams William Wordsworth and Louis Zukofsky *Connections in the Open Field* Ruth-Ann Thompson,2010-03 Just like every child Cecil LaCede has fears about his first day of school but he ll soon find comfort in meeting a variety of new friends acorns nuts fruits vegetables and even beans all first time students too Ruth Ann J Thompson shows children how easy it is to make **Connections in the Open Field**
