Global Justice and the Bulwarks of Localism: Human Rights in Context Christopher Eisgruber, 2005-09-01 The rise of international human rights during the last half of the twentieth century has transformed traditional notions of sovereignty No longer is international law concerned almost exclusively with external relations among states and their representatives Now it imposes substantial restrictions on the domestic affairs of states and protects ordinary persons against mistreatment by their own government The change came about in response to the Holocaust and the century's other great tragedies Few doubt its value Nevertheless power exercised in the name of human rights can be misused or abused As human rights institutions matured and as international organizations intervened more vigorously on a global scale human rights advocates and their critics worried about whether quests to vindicate supposedly universal human rights might sometimes impose western first world norms on cultures that did not want them In this volume internationally noted scholars collaborate to address issues about human rights and local culture from philosophical legal anthropological and sociological perspectives Their essays focus on topics including self determination religion truth reconciliation commissions and sexual mores

Slavoj Žižek and Christianity Sotiris Mitralaxis,Dionysios Skliris,2018-07-18 Slavoj i ek s critical engagement with Christian theology goes much further than his seminal *The Fragile Absolute* 2000 or his *The Puppet and the Dwarf* 2003 or even his discussion with noted theologian John Milbank in *The Monstrosity of Christ* 2009 His reading of Christianity utilising his signature elements of Lacanian psychoanalysis and Hegelian philosophy with modern philosophical currents can be seen as a genuinely original contribution to the philosophy of religion This book focuses on these aspects of i ek s thought with either philosophy and cultural theory or Christian theology serving as starting points of enquiry Written by a panel of international contributors each chapter teases out various strands of i ek s thought concerning Christianity and religion and brings them into a wider conversation about the nature of faith These essays show that far from being an outright rejection of Christian thought and intellectual heritage i ek s work could be seen as a perverse affirmation thereof Thus what he has to say should be of direct interest to Christian theology itself Touching on thinkers such as Badiou Lacan Chesterton and Schelling this collection is a dynamic reading and re reading of i ek s relationship to Christianity As such scholars of theology the philosophy of religion and i ek more generally will all find this book to be of great interest
