Aimed at scholars and language teachers as well as students of language pedagogy, these perspectives are drawn from diverse teaching contexts although the findings they share can be applied across different levels and target languages. This volume also includes reflection on implementing these ideas during and after the remote learning necessitated by the COVID 19 pandemic. This volume will be especially valuable in the coming years as educators and researchers work to understand the experiences of teachers and learners during the pandemic and as the remote teaching precipitated by recent events increases interest in online learning. As online language course offerings continue to grow and develop, this volume will be a rich resource for researchers, instructors, and students interested in better understanding the diverse practices and methods that can be employed in online language teaching.

**Why Ethics?** Robert Gibbs, 2012-01-06 Robert Gibbs presents here an ambitious new theory of ethics. Drawing on a striking combination of intellectual traditions including Jewish thought, continental philosophy, and American pragmatism, Gibbs argues that ethics is primarily concerned with responsibility and is not, as philosophers have often assumed, principally a matter of thinking about the right thing to do and acting in accordance with the abstract dictates of reason or will. More specifically, ethics is concerned with attending to others' questions and bearing responsibility for what

they do Gibbs builds this innovative case by exploring the implicit responsibilities in a broad range of human interactions paying especially close attention to the signs that people give and receive as they relate to each other Why Ethics starts by examining the simple actions of listening and speaking reading and writing and by focusing on the different responsibilities that each action entails The author discusses what he describes as the mutual responsibilities implicit in the actions of reasoning mediating and judging He assesses the relationships among ethics pragmatics and Jewish philosophy The book concludes by looking at the relation of memory and the immemorial emphasizing the need to respond for past actions by confessing seeking forgiveness and making reconciliations In format Gibbs adopts a Talmudic approach interweaving brief citations from primary texts with his commentary He draws these texts from diverse thinkers and sources including Levinas Derrida Habermas Rosenzweig Luhmann Peirce James Royce Benjamin Maimonides the Bible and the Talmud Ranging over philosophy literary theory social theory and historiography this is an ambitious and provocative work that holds profound lessons for how we think about ethics and how we seek to live responsibly
