**People's Reformation** Lucy Moffat Kaufman, 2023-04-15 The Elizabethan settlement and the Church of England that emerged from it made way for a theological reformation an institutional reformation and a high political reformation It was a reformation that changed history birthed an Anglican communion and would eventually launch new wars new language and even a new national identity A People's Reformation offers a fundamental reinterpretation of the English Reformation and the roots of the Church of England Drawing on archival material from across the United States and Britain Lucy Kaufman examines the growing influence of state authority and the slow building of a robust state church from the bottom up in post Reformation England Situating the people of England at the heart of this story the book argues that while the Reformation shaped everyday lives it was also profoundly shaped by them in turn England became a Protestant nation not in spite of its people but through their active social political and religious participation in creating a new church in England A People's Reformation explores this world from the pews reimagining the lived experience and fierce negotiation of church and state in the parishes of Elizabethan England It places ordinary people at the centre of the local cultural and political history of the Reformation and its remarkable transformative effect on the world      **Princes of the Church** David Rollason, 2017-06-14 Princes of the Church brings together the latest research exploring the importance of bishops palaces for social and political history landscape history architectural history and archaeology It is the first book length study of such sites since Michael Thompson's Medieval Bishops Houses 1998 and the first work ever to adopt such a wide ranging approach to them in terms

of themes and geographical and chronological range Including contributions from the late Antique period through to the eighteenth and nineteenth centuries it deals with bishops residences in England Scotland Wales the Byzantine Empire France and Italy It is structured in three sections design and function which considers how bishops palaces and houses differed from the palaces and houses of secular magnates in their layout design furnishings and functions landscape and urban context which considers the relationship between bishops palaces and houses and their political and cultural context the landscapes and towns or cities in which they were set and the parks forests and towns that were planned and designed around them and architectural form which considers the extent of shared features between bishops palaces and houses and their relationship to the houses of other Church potentates and to the houses of secular magnates **The Companion**
