and communities are not the norm they can be established Even so positive relationships usually emerge from long processes from the development of trust on both sides and with great contribution from international agreements on the matter Additionally the document recommends that companies consider local Indigenous communities as partners rather than beneficiaries and align their mission with greater knowledge and understanding of Indigenous Peoples States are recommended to ensure compliance with international regulations and strengthen their capacity in this regard The recommendation for Indigenous Peoples is to include among their assets the impact and interaction with the non Indigenous world and finally it is recommended that international organizations move towards the binding nature of international agreements on the matter among other recommendations
