challenges confronting democracy today are debt the war on terror the rise of China and climate change If democracy is to survive them it must figure out a way to break the confidence trap **How to Trade with Confidence and Zero Fear** Richard Rond, Trading is challenging for most people because they simply don t have the information tools or confidence to become successful This book is important for beginners because it tells it like it is and gives an inside look at trading the financial markets giving you the reality on what the live market is really like the way they are really run and tells you who runs them and what you need to do as a self directed beginner to survive in them Let's face it it's a well known fact that 97% of brand new self directed investors and traders fail and lose all of their money why does this happen It happens because brand new self directed traders enter into this business with a bunch of misguided grandiose ideas of making a million dollars from trading and while you can surely make millions of dollars from trading you would need to be using hundreds of millions of dollars of capital to do so no joke As a brand new self directed trader you have no idea of the brutality and volatility that goes on in the live markets on a daily basis and that there are people in the live markets who will walk over dead bodies to get paid so make no mistake as a beginner and think you can go in the live market and beat them you can t What you can do though is properly prepare yourself to trade with confidence and zero fear going up against the best traders in the world and be paid right along with them instead of paying them Once you have completed reading this entire book you will have a chance at competing with the best professional traders on the planet The information in this book will put you on the fast track to being able to make an unlimited income for yourself and becoming consistently profitable enough from trading the financial markets to perhaps even making a living from doing it isn t that the type of business you would like to be in The Confidence Factor Annie Ashdown, 2013-09-18 If you don't have confidence within yourself why would anyone else have confidence in you A lack of self confidence can affect anybody whether you re the director of a company or a student at university you can be taken advantage of passed over for promotion without achieving your potential When you have self esteem assertiveness and confidence you stand up for yourself you know what you want and go for it You are the best you can be Annie Ashdown Harley Street Master Hypnotherapist and Confidence Coach had no confidence for many years but gradually developed the 7 secrets to self confidence which transformed her life Packed with insightful advice top tricks and tips from successful people and practical techniques font color FDD017The Confidence Factor reveals the secrets for gaining confidence explains what is confidence and how to be confident discover Accessible advice and practical tips on gaining self confidence Straightforward techniques that have immediate effect The confidence tricks high profile successful people use The seven traits of self confident people The Confidence Factor will explain the 7 simple steps to getting confident and mastering your emotions so you can feel strong whatever life throws at you City Planning, 1926
