The Congressman. His Work as He Sees it Charles L. CLAPP, 1964      **Laws, Men and Machines (Routledge Revivals)** Michael Foley, 2014-02-04 First published in 1990 *Laws Men and Machines* is an original interpretation of the lasting influence that Newtonian mechanics has had on the design and operation of the American political system The author argues that it is this mechanistic tradition that now instinctively shapes the way we conceive of analyse and evaluate American politics and that the Newtonian conception of the world still finds expression in the checks and balances of the American system      Casework by Members of Congress Walter Kravitz, 1972      A Chill in the House Lewis G. Irwin, 2002-01-01 Examines the growth of obstacles to legislative success since the 1960s in the U S House of Representatives      *Hearings* United States. Congress. Joint Committee ..., 1966      *Turf Wars* David C. King, 1997-09-02 For most bills in American legislatures the issue of turf or which committee has jurisdiction over a bill can make all the difference Turf governs the flow and fate of all legislation In this innovative study David C King explains how jurisdictional areas for committees are created and changed in Congress Political scientists have long maintained that jurisdictions are relatively static changing only at times of dramatic reforms Not so says King Combining quantitative evidence with interviews and case studies he shows how on going turf wars make jurisdictions fluid According to King jurisdictional change stems both from legislators seeking electoral advantage and from nonpartisan House parliamentarians referring ambiguous bills to committees with the expertise to handle the issues King brilliantly dissects the politics of turf grabbing and at the same time shows how parliamentarians have become institutional guardians of the legislative process Original and insightful *Turf Wars* will be valuable to those interested in congressional studies and American politics more generally      *Weekly Compilation of Presidential Documents*, 1973      Congressional Record United States. Congress, 1997      *Committees and the Decline of Lawmaking in Congress* Jonathan Lewallen, 2020-08-14 The public journalists and legislators themselves have often lamented a decline in congressional lawmaking in recent years often blaming party politics for the lack of legislative output In *Committees and the Decline of Lawmaking in Congress* Jonathan Lewallen examines the decline in lawmaking from a new committee centered perspective Lewallen tests his theory against other explanations such as partisanship and an increased demand for oversight with multiple empirical tests and traces shifts in policy activity by policy area using the Policy Agendas Project coding scheme He finds that because party leaders have more control over the legislative agenda committees have spent more of their time conducting oversight instead Partisanship alone does not explain this trend changes in institutional rules and practices that empowered party leaders have created more uncertainty for committees and contributed to a shift in their policy activities The shift toward oversight at the committee level combined with party leader control over the voting agenda means that many members of Congress are effectively cut out of many of the institution s policy decisions At a time when many including Congress itself are considering changes to modernize the institution and keep up with a stronger executive

branch the findings here suggest that strengthening Congress will require more than running different candidates or providing additional resources

The Transformation in American Politics United States. Advisory Commission on Intergovernmental Relations,1986

*The Potential for Congressional Use of Emergent Telecommunications* Frederick Bruce Wood,1974

*The Politics of Shared Power* Louis Fisher,1998

As Congress and the president battle out the federal deficit foreign involvements health care and other policies of grave national import the underlying constitutional issue is always the separation of powers doctrine

In *The Politics of Shared Power* a classic text in the field of executive legislative relations Louis Fisher explains clearly and perceptively the points at which congressional and presidential interests converge and diverge the institutional patterns that persist from one administration and one Congress to another and the partisan dimensions resulting from the two party system

Fisher also discusses the role of the courts in reviewing cases brought to them by members of Congress the president agency heads and political activists illustrating how court decisions affect the allocation of federal funds and the development and implementation of public policy

He examines how the president participates as legislator and how Congress intervenes in administrative matters

Separate chapters on the bureaucracy the independent regulatory commissions and the budgetary process probe these questions from different angles

The new fourth edition addresses the line item veto and its tortuous history and prospects

A chapter on war powers and foreign affairs studies executive legislative disputes that affect global relations including the Iran Contra affair the Persian Gulf War in 1991 and American presence in conflicts such as Haiti and Bosnia

An important new discussion focuses on interbranch collisions and gridlock as they have developed since 1992
