*Buildings, Faith, and Worship* Nigel Yates, 2000 This is the first major study for over forty years of the liturgical arrangement of Anglican churches in the period between the Reformation and the Oxford Movement The study is based both on surviving buildings and on a wide range of archival sources such as seating plans which are used to document internal changes and to suggest reasons behind them In the course of the book Nigel Yates challenges many widely held assumptions about the liturgical outlook of the Pre Tractarian period and about the impact of ecclesiology on the Church of England In particular he emphasizes the existence hitherto disregarded of a Church of England movement for liturgical renewal between 1780 and 1840 which to a degree anticipated some of the ideas previously attributed solely to the ecclesiologists The discussion is firmly set within the context of European Protestantism and comparisons are drawn with the liturgical practices both of Calvinists and Lutherans

**Redundancy, Community and Heritage in the Modern Church of England, 1945-2000** Denise Bonnette, 2023-02-28 This book is a reappraisal of Anglican Church redundancy from a cultural perspective It challenges long held perceptions about the rationale for church redundancy particularly secularisation It argues that redundancy brought to the surface far reaching social and cultural tensions that remain unresolved to this day and which the pandemic closure of buildings has reignited

**Liturgical Space** Nigel Yates, 2008 This is the first comprehensive and up to date account of the internal arrangement of church buildings in Western Europe between 1500 and 2000 showing how these arrangements have met the liturgical needs of their respective

denominations Catholic and Protestant over this period In addition to a chapter looking at the general impact of the Reformation on church buildings there are separate chapters on the churches of the Lutheran Reformed Anglican and Roman Catholic traditions between the mid sixteenth and mid nineteenth centuries and on the ecclesiological movement of the nineteenth century and the liturgical movement of the twentieth century both of which have impacted on all the churches of Western Europe over the past 150 years The book is extensively illustrated with figures in the text and a series of plates and also contains comprehensive guides to both further reading and buildings to visit throughout Western Europe
