Cheng, 1997      **The Other Hong Kong Report 1998** Larry Chuen-ho Chow, Yiu-Kwan Fan, 1998-12-31 Published annually since 1989 The Other Hong Kong Report is a review of the various aspects of development in Hong Kong in the past year by scholars and experts who are not government officials and is intended to offer an alternative view to that portrayed in government publications      **The Final Years of British Hong Kong** J. Flowerdew, 1998-02-12 This book critically reviews the British experience in Hong Kong with special emphasis on the tenure of the last governor Chris Patten and the discourse he used in guiding the transfer of sovereignty to China While the People's Republic of China proclaimed the recovery of Hong Kong to be just retribution for a century and a half of national shame under British rule Patten as the spokesperson for the British was concerned that Britain's exit from its last significant colony should be an honourable one

**Hong Kong's Reunion with China: The Global Dimensions** Gerard A. Postiglione, James Tuck-Hong Tang, 2016-07-01 The issues surrounding Hong Kong's global position and international links grow increasingly complex by the day as the process of Hong Kong's transformation from a British colony to a Chinese Special Administration Region unfolds This volume addresses a number of questions relating to this process How international is Hong Kong What are its global and international dimensions How important are these dimensions to its continued success How will these dimensions change especially beyond the sphere of economics Is Hong Kong's internationalization defined in terms of its willingness to embrace international values and its capacity to maintain its international presence at risk These questions are presented as they pertain to the changing situation relations between mainland China Taiwan and Hong Kong the positions of Australia Canada and the United States on Hong Kong internalization of international legal values Americanization vs Asianization linkages to the world through Guangdong strategies to emigrate overseas cultural internationalization media internationalization and universities within the global economy      **The Other Hong Kong Report 1995** Anthony Lawrence, 1995-11-01 Like the cracking of the genetic code and the creation of the atomic bomb the discovery of how the brain's neurons work is one of the fundamental scientific developments of the twentieth century The discovery of neurotransmitters revolutionized the way we think about the brain and what it means to be human yet few people know how they were discovered the scientists involved or the fierce controversy about whether they even existed The War of the Soups and the Sparks tells the saga of the dispute between the pharmacologists who had uncovered the first evidence that nerves communicate by releasing chemicals and the neurophysiologists experts on the nervous system who dismissed the evidence and remained committed to electrical explanations The protagonists of this story are Otto Loewi and Henry Dale who received Nobel Prizes for their work and Walter Cannon who would have shared the prize with them if he had not been persuaded to adopt a controversial theory how that happened is an important part of this history Valenstein sets his story of scientific discovery against the backdrop of two

world wars and examines the fascinating lives of several scientists whose work was affected by the social and political events of their time He recounts such stories as Loewi s arrest by Nazi storm troopers and Dale s efforts at helping key scientists escape Germany The War of the Soups and the Sparks reveals how science and scientists work Valenstein describes the observations and experiments that led to the discovery of neurotransmitters and sheds light on what determines whether a novel concept will gain acceptance among the scientific community His work also explains the immense importance of Loewi Dale and Cannon s achievements in our understanding of the human brain and the way mental illnesses are conceptualized and treated
