American Horror Film Steffen Hantke, 2010-09-30 Creatively spent and politically irrelevant the American horror film is a mere ghost of its former self or so goes the old saw from fans and scholars alike Taking on this undeserved reputation the contributors to this collection provide a comprehensive look at a decade of cinematic production covering a wide variety of material from the last ten years with a clear critical eye Individual essays profile the work of up and coming director Alexandre Aja and reassess William Malone's much maligned FearDotCom in the light of the torture debate at the end of President George W Bush's administration Other essays look at the economic social and formal aspects of the genre the globalization of the US film industry the alleged escalation of cinematic violence and the massive commercial popularity of the remake Some essays examine specific subgenres from the teenage horror flick to the serial killer film and the spiritual horror film as well as the continuing relevance of classic directors such as George A Romero David Cronenberg John Landis and Stuart Gordon Essays deliberate on the marketing of nostalgia and its concomitant aesthetic and on the curiously schizophrenic perspective of fans who happen to be scholars as well Taken together the contributors to this collection make a compelling case that American horror cinema is as vital creative and thought provoking as it ever was

Koven, 2006-10-02 With the exception of die hard aficionados of European or Italian horror cinema most people may not have heard of giallo cinema or have seen many films in this subgenre of horror Most academic film studies tend to ignore horror cinema in general and the giallo specifically Critics often deride these films which reveal more about the reviewers own prejudices than any problem with the works themselves As a counter to such biases Mikel J Koven argues for an alternative approach to studying these films by approaching them as vernacular cinema distinct from popular cinema According to Koven to look at a film from a vernacular perspective removes the assumptions about what constitutes a good film and how a particular film is in some way artistic In *La Dolce Morte Vernacular Cinema and the Italian Giallo Film* Koven explores the history and evolution of this aspect of cinema and places these films within the context of Italian popular filmmaking He addresses various themes motifs and tropes in these films their use of space the murders the role of the detective the identity of the killer issues of belief excess and the set piece In addition to being the first academic study of the giallo film in English this book surveys more than fifty films of this subgenre In addition to filmmakers like Mario Bava and Dario Argento Koven also looks at the films of Lucio Fulci Sergio Martino Pupi Avati Umberto Lenzi and others In all the works of twenty five different filmmakers are considered in this book Also explored are the inter relationships between these films how one influences others how certain filmmakers take ideas and build off of them and how those ideas are further transformed by other filmmakers Koven also explores the impact of the giallo on the later North American slasher genre

**Life Lessons from Slasher Films** Jessica Robinson, 2012-06-07 Horror and slasher films are often dismissed for their apparent lack of sophistication and dearth of redeemable values However despite criticism from film snobs who turn up their noses and moralists who look down upon the genre slasher films are more than just movies filled with gory mayhem Such films can actually serve a purpose and offer their audiences something more than split skulls and severed heads In *Life*

Lessons from Slasher Films Jessica Robinson looks at representative works that have been scaring audiences for decades from Alfred Hitchcock's seminal shocker *Psycho* to the cult classic *Black Christmas* and iconic thrillers like *The Texas Chainsaw Massacre*, *Halloween*, *Friday the 13th* and *Scream*. In this book Robinson examines common themes that have emerged in these films, their various sequels and countless imitators: a maniacal and seemingly indestructible executioner, sexual encounters that invariably lead to death, increasingly gruesome ways to slaughter helpless victims, and a lone female survivor who finds a way to vanquish the killer. Robinson also looks beyond such tropes for what these films can teach us about life. From practical advice (listen to your elders) to moral platitudes (teens never learn), each chapter considers a different lesson that these films teach. Robinson discusses how the events portrayed in slasher films can resonate with viewers and perhaps offer constructive advice on how to conduct our lives. A fun read for fans and scholars alike, *Life Lessons from Slasher Films* offers an entertaining and persuasive look at how life can imitate art and what art can say about life.
