Slave Trade Today Sasha Gregory Lewis,1979      **The Hispanics In The United States** L. H. Gann,Peter Duignan,L H Gann,2019-07-11 Hispanic peoples are the fastest growing minority in the United States yet the literature on Hispanics as a group is very sparse This is the first large scale survey to cover the history politics and culture of all major Hispanic groups including Cubans Mexicans Puerto Ricans and Chicanos in the United States The authors begin by examining the Spanish legacy of the Southwest the beginnings of large scale Mexican immigration into the borderlands after the turn of the century socioeconomic changes brought about by World War I and changes in the demographic composition of the nation as a result of later immigration They next discuss in detail the national debate over immigration asking for example whether immigrants compete for jobs and social services whether the Immigration and Naturalization Service is capable of handling the flow of immigrants and whether employer sanctions are just They also describe the immigrants themselves their educational levels occupational backgrounds and experiences in adapting to life in the United States stressing the difference between the various groups in these areas Finally Drs Gann and Duignan look at Hispanic culture including politics education sports and social problems This pioneering study argues that immigration is a positive experience for both the newcomers and the local communities into which they settle

*Slave Trade Today* Sasha Gregory Lewis,1979      *Slavery in the Twentieth Century* Suzanne Miers,2003-06-11 In her new book well known Africanist Suzanne Miers places modern slavery in its historical context tracing the phenomenal development of the international anti slavery movement over the last hundred years She demonstrates how the problems of eradication seem greater and more intractable today than they had ever been showing how slavery has expanded to include newer forms from 1919 to 2000 some of them crueller than the chattel slavery so familiar to the public mind Miers describes the targets of ongoing anti slavery campaigns including forced labor forced prostitution forced marriage the exploitation of child labor and of migrant and contract labor She centers her story on Great Britain s efforts to suppress the slave trade since the late eighteenth century and draws upon her extensive work in Africa where slavery has attracted the greatest humanitarian and international attention This book is a valuable resource for those interested in world history slavery race and ethnic history international human rights and labor in the world economy

**Poverty in America** Catherine Reef,2007 Presents an overview of the history of poverty in America and includes excerpts from primary source documents short biographies of influential people and more      **Clandestine Crossings** David Spener,2011-01-15 *Clandestine Crossings* delivers an in depth description and analysis of the experiences of working class Mexican migrants at the beginning of the twenty first century as they enter the United States surreptitiously with the help of paid guides known as coyotes Drawing on ethnographic observations of crossing conditions in the borderlands of South Texas as well as interviews with migrants coyotes and border officials Spener details how migrants and coyotes work together to evade apprehension by U S law enforcement authorities as they cross the border In so doing he seeks to dispel

many of the myths that misinform public debate about undocumented immigration to the United States The hiring of a coyote Spener argues is one of the principal strategies that Mexican migrants have developed in response to intensified U S border enforcement Although this strategy is typically portrayed in the press as a sinister organized crime phenomenon Spener argues that it is better understood as the resistance of working class Mexicans to an economic model and set of immigration policies in North America that increasingly resemble an apartheid system In the absence of adequate employment opportunities in Mexico and legal mechanisms for them to work in the United States migrants and coyotes draw on their social connections and cultural knowledge to stage successful border crossings in spite of the ever greater dangers placed in their path by government authorities

*Maid in the USA* Mary Romero,2016-05-13 This is a classic work in the fields of Women s Studies and Sociology On its 10th Anniversary it is still a vital and moving study of the lives of immigrant domestic workers and is constantly cited in the research Romero s new introduction will offer a fresh look at the material including more recent events proving that the issues discussed in the book are still very relevant to today s world

*Still the Golden Door* David M. Reimers,1992 This work updates an established American textbook on immigration and ethnic history demonstrating the post war shift from European to Third World immigrants Extensive revisions include a discussion of undocumented immigration and the Simpson Rodino Bill All the important events of the last five years especially the 1990 Immigration Act are presented The author examines the changes in refugee status and highlights the new wave of East European and Soviet immigrants to the USA

Dying to Live Joseph Nevins,2013-12-15 A compelling account of U S immigration and border enforcement told through the journey of one man who perished in California s Imperial Valley while trying to reunite with his wife and child in Los Angeles At a time when Republicans and Democrats alike embrace increasingly militaristic border enforcement policies under the guise of security and local governments around the country are taking matters into their own hands Dying to Live offers a timely confrontation to such prescriptions and puts a human face on the rapidly growing crisis Moreover it provides a valuable perspective on the historical geography of U S Mexico relations and immigration and boundary enforcement illustrating its profound impact on people s lives and deaths In the end the author offers a provocative human rights based vision of what must be done to stop the fatalities and injustices endured by migrants and their loved ones Praise for Dying To Live In Dying to Live Joseph Nevins

and Mizue Aizeki have produced an important and visually moving book that adds to our knowledge of the border and its place in history Nevins painstaking research documents the development of the Imperial Valley its industrial agriculture its divided cities and the chasms between rich and poor Mexican and anglo that have marred its growth Through the valley runs the border and Nevins accounts of the growth of border enforcement on the U S side and the racism of its legal justifications will be a strong weapon for human rights activists Mizue Aizeki takes her camera and tells the story of Julio Cesar Gallegos who died in the desert trying to make it across Her images of the stacked bodies of border crossers held in refrigerator trucks and the barrenness of the ocotillo cactus on the flat hardpan are eloquent testimony to the terrible risks and human costs imposed on migrants Her beautifully composed portraits of Gallegos family make a direct appeal to the heart in a way that words cannot And her documentation of border protests and immigrant rights demonstrations including the rows of jugs of water put out in the desert to save lives are all compelling evidence that there is a struggle going on to halt the human rights crisis she and Nevins document David Bacon author of *Communities Without Borders* Images and Voices from the World of Migration Joseph Nevins blows the cover off the scapegoating of illegal immigrants by meticulously and grippingly compiling the history of why so many try to come to the U S and tragically why so many die This book strikes at our very moral core Deepa Fernandes author of *Targeted Homeland Security and the Business of Immigration* A fierce and courageous denunciation of the foul politics of immigration and the two thousand mile tragedy of the Mexican border snaking its way between two worlds two nations separated at birth but forever joined at the hip Starting from one man s blackened corpse the tale wends its way across the desert of racial amnesia to reveal the sources of America s reactionary and futile attempt at closure of a porous frontier Deftly stitching together disparate times and places from the Imperial Valley to Zacatecas to Mexicali and back to East L A Nevins and Aizeki weave a memorial quilt to the hundreds of innocents in unmarked graves Richard Walker professor of geography UC Berkeley and author of *The Conquest of Bread and The Country in the City* Dying to Live is a compelling perceptive and invaluable book for our times Our new apartheid as explored here is as bleak and hostile as the landscapes in which people lose their lives trying merely to survive Those lives delineated here are unforgettable Susan Straight author of *A Million Nightingales* and *Highwire Moon* Invisible in life like most exploited immigrants Julio Cesar Gallegos now judges us from the hour of his terrible death He reminds us thanks to the passionate investigations of Nevins and Aizeki that the eyeless corpses in the Imperial Valley are murder victims abandoned to heat thirst and anonymous graves by a border politics compounded of historical ignorance and contempt for human rights Mike Davis author of *Planet of Slums* and *In Praise of Barbarians*
