1635-1848 Bernard Moitt,2001-11-14 Women and Slavery in the French Antilles 1635 1848 Bernard Moitt Examines the reaction of black women to slavery In Women and Slavery in the French Antilles 1635 1848 Bernard Moitt argues that gender had a profound effect on the slave plantation system in the French Antilles He details and analyzes the social condition of enslaved black women in the plantation societies of Martinique Guadeloupe Saint Domingue now Haiti and French Guiana from 1635 to the abolition of slavery in the French colonial empire in 1848 Moitt examines the lives of black women in bondage evaluates the impact that the slave experience had on them and assesses the ways in which women reacted to and coped with slavery in the French Caribbean for over two centuries As males outnumbered females for most of the slavery period and monopolized virtually all of the specialized tasks the disregard for gender in task allocation meant that females did proportionately more hard labor than did males In addition to hard work in the fields women were engaged in gender specific labor and performed a host of other tasks Women resisted slavery in the same ways that men did as well as in ways that gender and allocation of tasks made possible Moitt casts slave women in dynamic roles previously ignored by historians thus bringing them out of the shadows of the plantation world into full view where they belong Bernard Moitt is Assistant Professor in the History Department at Virginia Commonwealth University in Richmond Previously he taught at the University of Toronto and at Utica College of Syracuse University Educated in Antigua where he was born Canada and the United States he has written on aspects of francophone African and Caribbean history with particular emphasis on gender and slavery Blacks in the Diaspora Darlene Clark Hine John McCluskey Jr David Barry Gaspar general editors June 2001256 pages 6 1 8 x 9 1 4 index append cloth 0 253 33913 8 44 95 L 34 00paper 0 253 21452 1 19 95 s 15 50 **Slave Culture**

Forret,Christine E. Sears,2015-11-16 In this landmark essay collection twelve contributors chart the contours of current scholarship in the field of slavery studies highlighting three of the discipline s major themes commodification community and comparison and indicating paths for future inquiry New Directions in Slavery Studies addresses the various ways in which the institution of slavery reduced human beings to a form of property From the coastwise domestic slave trade in international context to the practice of slave mortgaging to the issuing of insurance policies on slaves several essays reveal how southern whites treated slaves as a form of capital to be transferred or protected An additional piece in this section contemplates the historian s role in translating the fraught history of slavery into film Other essays examine the idea of the slave community an increasingly embattled concept born of revisionist scholarship in the 1970s This section s contributors examine the process of community formation for black foreigners the crucial role of violence in the negotiation of slaves

sense of community and the effect of the Civil War on slave society A final essay asks readers to reassess the long standing revisionist emphasis on slave agency and the ideological burdens it carries with it Essays in the final section discuss scholarship on comparative slavery contrasting American slavery with similar less restrictive practices in Brazil and North Africa One essay negotiates a complicated tripartite comparison of secession in the United States Brazil and Cuba while another uncovers subtle differences in slavery in separate regions of the American South demonstrating that comparative slavery studies need not be transnational New Directions in Slavery Studies provides new examinations of the lives and histories of enslaved people in the United States American Indians and State Law Deborah A. Rosen, 2007-01-01

American Indians and State Law examines the history of state and territorial policies laws and judicial decisions pertaining to Native Americans from 1790 to 1880 Belying the common assumption that Indian policy and regulation in the United States were exclusively within the federal government's domain the book reveals how states and territories extended their legislative and judicial authority over American Indians during this period Deborah A Rosen uses discussions of nationwide patterns complemented by case studies focusing on New York Georgia New Mexico Michigan Minnesota Louisiana and Massachusetts to demonstrate the decentralized nature of much of early American Indian policy This study details how state and territorial governments regulated American Indians and brought them into local criminal courts as well as how Indians contested the actions of states and asserted tribal sovereignty Assessing the racial conditions of incorporation into the American civic community Rosen examines the ways in which state legislatures treated Indians as a distinct racial group explores racial issues arising in state courts and analyzes shifts in the rhetoric of race culture and political status during state constitutional conventions She also describes the politics of Indian citizenship rights in the states and territories Rosen concludes that state and territorial governments played an important role in extending direct rule over Indians and in defining the limits and the meaning of citizenship
