Milestones and Future Challenges Karin Anna Hummel, Helmut Hlavacs, Wilfried Gansterer, 2011-12-15 This Festschrift volume is published in honor of G nter Haring on the occasion of his emerital celebration and contains invited papers by key researchers in the field of performance evaluation presented at the workshop Performance Evaluation of Computer and Communication Systems Milestones and Future Challenges PERFORM 2010 held in Vienna Austria in October 2010 G nter Haring has dedicated most of his scientific professional life to performance evaluation and the design of distributed systems contributing in particular to the field of workload characterization In addition to his own contributions and leadership in international research projects he is and has been an excellent mentor of young researchers demonstrated by their own brilliant scientific careers The 20 thoroughly refereed papers range from visionary to in depth research papers and are organized in the following topical sections milestones and evolutions trends green ICT and virtual machines modeling mobility and mobile networks communication and computer networks and load balancing analysis and management *On The Move to Meaningful Internet Systems 2003: OTM 2003 Workshops* Zahir Tari, 2003-10-25 missions in fact also treat an envisaged mutual impact among them As for the 2002 edition in Irvine the organizers wanted to stimulate this cross pollination with a program of shared famous keynote speakers this year we got Sycara ble Soley and Mylopoulos and encouraged multiple attendance by providing authors with free access to another conference or workshop of their choice We received an even larger number of submissions than last year for the three conferences 360 in total and the workshops 170 in total Not only can we therefore again claim a measurable success in attracting a representative volume of scienti c papers but such a harvest allowed the program committees of course to compose a high quality cross section of worldwide research in the areas covered In spite of the increased number of submissions the Program Chairs of the three main conferences decided to accept only approximately the same number of papers for presentation and publication as in 2002 i e around 1 paper out of every 4 5 submitted For the workshops the acceptance rate was about 1 in 2 Also for this reason we decided to separate the proceedings into two volumes with their own titles and we are grateful to Springer Verlag for their collaboration in producing these two books The reviewing process by the respective program committees was very professional and each paper in the main conferences was reviewed by at least three referees **On The Move to Meaningful Internet Systems 2003: OTM 2003 Workshops** R.
