Jearl's creativity, his communication skills and his ability to make physics interesting. Jearl Walker, Ph.D., professor of physics at Cleveland State University and the man who frequently walked on hot coals and lay on beds of nails all in the name of science is the first recipient of the Outstanding Teaching Award from Cleveland State's College of Science. The College's Faculty Affairs Committee selected Dr. Walker as the first honoree based on his impressive contributions to science teaching over the last 30 years. In fact, the award in future years will be named the Jearl Walker Outstanding Teaching Award in recognition of his many achievements. Jearl Walker received his B.S. in physics from MIT in 1967 and his Ph.D. in physics from the University of Maryland in 1973. His popular book *The Flying Circus of Physics* has been translated into at least 10 languages and is still being sold worldwide. For 16 years he toured his fun-filled Flying Circus lecture throughout the U.S. and Canada, introducing countless teachers to such physics phenomena as molecular adhesion by hanging spoons from his face and Leidenfrost's phenomenon by dipping his wet hand in molten lead without getting hurt. These lectures led to his national PBS television show *Kinetic Carnival* which ran for several years and won him a local Emmy Award. During his 13 years as a columnist with *Scientific American* magazine, Dr. Walker wrote 152 articles for The Amateur Scientist section which were translated into at least 9 languages worldwide. His topics ranged from the physics of judo to the physics of béarnaise sauce and lemon meringue pie. In 1990 he took over the textbook *Fundamentals of Physics* from David Halliday and Robert Resnick and has now published the seventh edition of the book. He has appeared countless times on television and radio and in newspapers and magazines.

Latrommi End Of Tears Andrew Adkins, 2013-03-18 In an ancient civilization trapped inside a mystic barrier and kept from the modern day world, a father and his two friends are sent on a path that will send their time into the jaws of demise. With betrayal, love, lies and truth, a son steps up to the plate to save a selected people. If he fails, not only will everything that they know perish, but the very existence of all life beyond the barrier will be casted into war that will leave nothing but ashes behind.

Polishing the Petoskey Stone Luci Shaw, 2003 Luci Shaw is someone who knows the world, the oldest definition of a poet. Her animating intelligence descends into the concrete facts of our existence to discover the divine force that shapes the world and maintains its being. Her poetry recapitulates that intimate naming by which man defines himself, the first role God assigned to the human creature. Harold Fickett, author of *The Holy Fool*. Longtime readers of these poems will renew old acquaintances and pick up a sheaf of new friends; besides, new readers will welcome her gifts of Word-crafted icons by which we behold the Glory, see the Holy. Eugene H. Peterson. *Polishing the Petoskey Stone* is a wonderful compilation of many of the richest of Luci Shaw's poems, both old and new. It's wonderful to see growth in her understanding of the joys and tragedies of life as they can be expressed in poetry. I sense a new and perhaps harsher view of reality which is always redeemed by the never-failing love of God. Madeleine L. Engle, author of *A Wrinkle in Time*. Luci Shaw is the author of many books, including *God in the Dark*, *Listen to the Green*, and *Writing the River*. A speaker, teacher, poet, editor, and writer, she
