**Theory and Reality in Financial Economics** George M. Frankfurter, 2007 The current literature on financial economics is dominated by neoclassical dogma and supposedly the notion of value neutrality However the failure of neoclassical economics to deal with real financial phenomena suggests that this might be too simplistic of an approach This book consists of a collection of essays dealing with

financial markets imperfections and the inability of neoclassical economics to deal with such imperfections Its central argument is that financial economics as based on the tenets of neoclassical economics cannot answer or solve the real life problems that people face It also shows the direct relationship between economics and politics OCo something that is usually denied in academic models given that science is supposed to be value neutral In this thought provoking and avant garde book the author not only exposes what has gone wrong but also suggests reforms to both the academic and the political economic systems that might help make markets fair rather than efficient Drawing on interdisciplinary fields this book will appeal to readers who are interested in finance economics business the political economy and philosophy Sample Chapter s Foreword 37 KB Chapter 1 Method and Methodology 146 KB Contents Method and Methodology What is All Efficiency Still Autistic Finance The Young Finance Faculty s Guide to Publishing Prolific Authors in Finance For Profit Education An Idea That Should be Put to Rest Weep Not for Microsoft Monopoly s Fatal Exception The Socio Economics of Scandals Desperately Seeking Toto And Now for Something Entirely Different After the Ball Capitalism or Industrial Fiefdom The Theory of Fair Markets TFM Toward a New Finance Paradigm Readership Graduate students of finance students of economics economic methodology and philosophy of science [Stone City](#) Mitchell Smith,2012-07-10 A thrilling and gripping page turner that serves as both a sociological study of prison life and a metaphor for contemporary America In a prison of youthful hardcore criminals a college professor convicted of killing a young girl while driving drunk teaches other inmates reading skills A series of killings prompts officials to coerce Bauman to track down the killer His quest takes readers into the web of corruption that is inherent in a big state prison

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a masterful and suspenseful novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
