Boggs Lawrence Weschler, 2000-11-15 Boggs A Comedy of Values teases out these transactions and their sometimes dramatic legal consequences following Boggs on a larkish though at the same time disconcertingly profound economic philosophic chase For in a madcap Socratic fashion Boggs is raising all sorts of truly fundamental questions what is it that we value in art or for that matter in money Indeed how do we place a value on anything at all And in particular why do we why should we how can we place such trust in anything as confoundingly insubstantial as paper money

Collecting the Now Michael Maizels, 2022-08-09 Collecting the Now offers a new in depth look at the economic forces and institutional actors that have shaped the outlines of postwar art history with a particular focus on American art 1960 1990 Working through four case studies Michael Maizels illuminates how a set of dealers and patrons conditioned the iconic developments of this period the profusions of pop art the quixotic impossibility of land art the dissemination of new media and the speculation fueled neo expressionist painting of the 1980s This book

addresses a question of pivotal importance to a swath of art history that has already received substantial scholarly investigation We now have a clear nuanced understanding of why certain evolutions took place why pop artists exploded the delimited parameters of aesthetic modernism why land artists further strove against the object form itself and why artists returned to neo traditional painting in the 1980s But remarkably elided by extant scholarship has been the question of how How did conditions coalesce around pop so that its artists entered into museum collections and scholarly analyses at pace unprecedented in the prior history of art How when seeking to transcend the delimited gallery object were land artists able to create monumental and by extension monumentally expensive interventions in the extreme wilds of the Western deserts And how did the esoteric objects of media art come eventually to scholarly attention in the sustained absence of academic interest or a private market The answers to these questions lie in an exploration of the financial conditions and funding mechanisms through which these works were created advertised distributed and preserved **Pedigree and Panache**

Shireen Huda,2008-04-01 Art auctions have long captured the public imagination They regularly make news headlines and have become synonymous with glamour money and social distinction The marketing of auction houses and the works they sell has resulted in firms attaining authoritative positions and the ability both to influence and reflect collecting tastes **Pedigree and panache** is the first comprehensive history of the art auction in Australia In this fascinating work Shireen Huda investigates the construction of the glamorous reputation of art auctions and art auction houses Featuring absorbing case studies of key art auctions and major art auction houses in Australia including Christies Sothebys and Deutscher Menzies the work provides an overview of the origin and international development of art auctions The development of the Australian marketplace is then explored detailing colonial inception and continuing until Christies withdrawal of its saleroom presence in 2006 Provided by publisher **The Magazine**

Octavian Esanu,2021-11-23 The postsocialist contemporary joins a growing body of scholarship debating the definition and nature of contemporary art It comes to these debates from a historicist perspective taking as its point of departure one particular art programme initiated in Eastern Europe by the Hungarian American billionaire George Soros First implemented in Hungary the Soros Center for Contemporary Art SCCA expanded to another eighteen ex socialist countries throughout the 1990s Its mission was to build a western open society by means of art This book discusses how network managers and artists participated in the construction

of this new social order by studying the programme's rise, evolution, impact and broader ideological and political consequences. Rather than recounting a history, it engages critically with contemporary art as the aesthetic paradigm of late capitalist market democracy.
