Smoking Spirits:

Smoke Sander L. Gilman, Xun Zhou, 2004 People have always smoked and they probably always will Every culture in recorded history has smoked something whether for pleasure or relief whether as part of an elaborate religious ritual or merely to strike a pose This is the first truly comprehensive history of smoking describing all of its forms practices paraphernalia and materials in cultures locations and times throughout the world **Spirits, Shamans, and Stars** David L. Browman, Ronald A. Schwarz, 2011-07-22 No detailed description available for Spirits Shamans and Stars **How to Pleasurably Stop Smoking** Jim Andrews, 2016-03-23 While you read we're going to get rid of your urge to smoke It wouldn't be hard to stop if you had no urge to smoke You're going to get to that point by the time you finish the book And you will learn how to maintain your disinterest in smoking So that it's permanent That's the program in a nutshell This approach turns stopping smoking from a torturous ordeal into a liberating experience of self discovery You won't need to bravely resist doing something you desperately want to do The amount of willpower is like what's required to resist jumping off a tall building We'll deal with your physical addiction to nicotine But we'll also dismantle your psychological dependence That a book can cure you of smoking is a testament to the transformative possibilities of reading and reflection It also highlights that addiction to smoking depends crucially on illusions that a book can effectively remove Your perspective on smoking and stopping smoking will change dramatically Tobacco and Shamanism in South America Johannes Wilbert, 1987-01-01 An ethnography of magic religious medicinal and recreational tobacco use among nearly 300 native South American societies Wilbert found that South American Indians use tobacco in many ways and that a close functional relation exists between tobacco and shamanism **Cash Crop to Cash Cow: The History of Tobacco and Smoking in America** Mary Meinking, 2014-10-21 There's no doubt about it Tobacco has played an important role in the history of the United States It supported early colonies and helped create a nation Tobacco Use by Native North Americans Joseph C. Winter, 2000 Recently identified as a killer tobacco has been the focus of health warnings lawsuits and political controversy Yet many Native Americans continue to view tobacco when used properly as a life affirming and sacramental substance that plays a significant role in Native creation myths and religious ceremonies This definitive work presents the origins history and contemporary use and misuse of tobacco by Native Americans It describes wild and domesticated tobacco species and how their cultivation and use may have led to the domestication of corn potatoes beans and other food plants It also analyzes many North American Indian practices and beliefs including the concept that Tobacco is so powerful and sacred that the spirits themselves are addicted to it The book presents medical data revealing the increasing rates of commercial tobacco use by Native youth and the rising rates of death among Native American elders from lung cancer heart disease and other tobacco related illnesses Finally this volume argues for the preservation of traditional tobacco use in a limited sacramental manner while criticizing the use of commercial tobacco Contributors are Mary J Adair Karen R Adams Carol B Brandt Linda

 Garnet Jonathan M Samet and Gail E Wagner **Learning to Smoke** Jason Hughes, 2003-02-15 Why do people smoke
 Taking a unique approach to this question Jason Hughes moves beyond the usual focus on biological addiction that dominates
 news coverage and public health studies and invites us to reconsider how social and personal understandings of smoking
 crucially affect the way people experience it Learning to Smoke examines the diverse sociological and cultural processes that
 have compelled people to smoke since the practice was first introduced to the West during the sixteenth century Hughes
 traces the transformations of tobacco and its use over time from its role as a hallucinogen in Native American shamanistic
 ritual to its use as a prophylactic against the plague and a cure for cancer by early Europeans and finally to the current view
 of smoking as a global pandemic He then analyzes tobacco from the perspective of the individual user exploring how its
 consumption relates to issues of identity and life changes Comparing sociocultural and personal experiences Hughes
 ultimately asks what the patterns of tobacco use mean for the clinical treatment of smokers and for public policy on smoking
 Pointing the way then to a more learned and sophisticated understanding of tobacco use this study will prove to be essential
 reading for anyone interested in the history of smoking and the sociology of addiction **The Master Plant** Andrew
 Russell, Elizabeth Rahman, 2020-06-03 Described as a master plant by many indigenous groups in lowland South America
 tobacco is an essential part of shamanic ritual as well as a source of everyday health wellbeing and community In sharp
 contrast to the condemnation of the tobacco industry and its place in contemporary public health discourse the book
 considers tobacco in a more nuanced light as an agent both of enlightenment and destruction Exploring the role of tobacco in
 the lives of indigenous peoples The Master Plant offers an important and unique contribution to this field of study through its
 focus on lowland South America the historical source region of this controversial plant yet rarely discussed in recent
 scholarship The ten chapters in this collection bring together ethnographic accounts key developments in anthropological
 theory and emergent public health responses to indigenous tobacco use Moving from a historical study of tobacco usage
 covering the initial domestication of wild varieties and its value as a commodity in colonial times to an examination of the
 transcendent properties of tobacco and the magic symbolism and healing properties associated with it the authors present
 wide ranging perspectives on the history and cultural significance of this important plant The final part of the book examines
 the changing landscape of tobacco use in these communities today set against the backdrop of the increasing power of the
 national and transnational tobacco industry The first critical overview of tobacco and its uses across lowland South America
 this book encourages new ways of thinking about the problems of commercially exploited tobacco both within and beyond
 this source region **An Anthropological Study of Spirits** Christine S. VanPool, Todd L. VanPool, 2023-05-28 This book
 discusses the cultural importance of spirits what spirits want and how humans interact with them using examples from

around the world and through time Examples range from the vengeful spirits of the Zulu that cast lightning bolts from clear skies to punish wrongdoers to the benevolent Puebloan Kachina that encourage prosperity safety and rain in the arid American Southwest The case studies illustrate how humans seek to cooperate or counteract spirits to heal the physical and spiritual ailments of their people to divine the truth or to gain resources Building from their cross cultural analyses the authors further discuss how our physiology and psychology impact our interaction with the spirits Readers will come away with an appreciation of the beauty and power of the spirits that continue to shape the lives of people around the world
