Get the Picture: Visual Literacy in Content-Area Instruction Marva Cappello, Nancy T. Walker, 2019-07-01 Visual sources are increasingly prevalent in today's society. This cross-curricular resource by Marva Cappello and Nancy T. Walker provides teachers with new and engaging strategies to help students closely read visual texts. Teachers will learn to evaluate the complexity of visual texts and match them to their students. Students will learn to analyze visual sources, understand both explicit and implicit messages, interpret underlying meaning, and engage in meaningful discussion. Based on practical research, this approach offers students engagement in the full suite of Language Arts as defined by the International Literacy Association and National Council of Teachers of English: reading, writing, listening, speaking, viewing, and visually representing. The strategies are divided by purpose: receptive and productive strategies, and arranged by content area to support all teachers. Sample lessons for grades K-1 and 2-3 are provided for each strategy. With concrete tools and techniques and a wide range of suggested visual texts to use in the classroom, teachers can prepare students for interaction with primary sources, digital media, and the visual-heavy world of 21st-century learning. Digital downloads of visual texts and student pages are included.

Sandy's Picture Stories Sandra Price-Hosie, 2016-04-08 Sandy's Picture Stories is designed for busy teachers of Beginner ESL. Each Unit is based on a topic useful for new immigrants, like The Noisy Neighbor or The Burglar. Every Unit begins with a series of pictures meant to be copied on to light card stock and cut into card sets. This is followed by a randomized card set of key words and another of sentences. Students are meant to sequence the pictures and invent the story, then match key words to pictures and revise their story. More advanced students can match the pictures with the sentence cards and to read the story to a partner. This is followed by a correct sentence sequence so students can read it silently and orally and adjust their picture stories if needed. Next, we have a word scramble to reinforce vocabulary learning and scrambled sentences to build grammar and syntax awareness. The unit concludes with a listening exercise to further reinforce learning. The total two-hour lesson is quick and easy to prepare yet is engaging and involving so students participate eagerly. This is a handy book that all teachers of Beginner ESL will want to have.
