Studies In Formal Historical Linguistics:

Studies in Descriptive and Historical Linguistics Paul J. Hopper, 1977-01-01 This volume of articles was prepared in honor of Winfred P Lehmann on the occasion of his 60th birthday The papers are presented in two sections I Studies in Descriptive Linguistics and II Studies in Historical Linguistics The volume contains contributions by R M W Dixon Ralph M Goodman Maurice Gross Einar Haugen David G Hays Archibald A Hill Mohammad Ali Jazayery E F K Koerner D Terence Langendoen Don L F Nilsen Arthur L Palacas Sol Saporta Sanford A Schane Jacob Mey Anders Ahlqvist Simon C Dik Robert T Harms Saul Levin Yakov Malkiel D Gary Miller William G Moulton Edgar C Polom Gary D Prideaux Luigi Romeo Maria Tsiapera Krystyna Wachowicz Mridula Adenwala Durbin Paul J Hopper Aaron Bar Adon

Studies in Formal Historical Linguistics H.M. Hoenigswald, 2011-10-13 These separate but related essays owe their existence to a combined concern for the workings of text criticism and historical linguistics and for the history of scholarship in these fields On earlier occasions I have suggested certain views on the development of the so called comparative method Few things are more rewarding than to bring implicit preconceptions of the past and present out into the open as I aimed to do then and as I aim to do now This time existing tradition is treated as a body without I hope being seriously distorting and one small portion of its working assumptions is examined My thanks go to the colleagues and students with whom I have had fruitful discussion but especially to Zellig S Harris and to Henry Hiz who expended much more than just his excellent editorial care on these efforts I only hope that I have learned as much from him as he has patiently tried to teach me Lloyd W Daly has kindly read parts of an earlier version and has contributed valuable suggestions

Vol.3. Studies in formal historical linguistics H.M. Hoenigswald, 1973

Historical Linguistics Charles Jones, 2014-02-04 The contributors to this volume cover the international range of scholarship in the field of Historical Linguistics as well as some of its major themes The work and ideas they discuss are relevant not only to other aspects of Historical Linguistics but also to more general developments in linguistic theory Along with Professor Jones Introduction their comments provide a major overview of Historical Linguistics that will be the reference point for its development for many years to come and form an important contribution to general theories of linguistic behaviour

Studies in Historical Linguistics and Language Change. Grammaticalization, Refunctionalization and Beyond Dorien Nieuwenhuijsen, Mar Garachana, 2019-10-23 The present volume examines the usefulness of a particular set of concepts and processes of change studying their applicability to a range of linguistic changes in Spanish and Latin that cannot be easily or can only be partially accounted for within the framework of grammaticalization Rather than challenging the insights of grammaticalization theory the different contributions to this monograph demonstrate that exaptation capitalization refunctionalization and adfunctionalization as well as changes motivated by rhetorical guidelines constitute interesting and valuable notions that allow for a better understanding of specific language changes in Spanish and by extension of language change in general

Perspectives on Historical Linguistics Winfred P.

Lehmann, Yakov Malkiel, 1982-01-01 This volume presents seven extensive essays by specialists in their respective fields of historical linguistics The first essay after the Introduction states the principles presented in *Directions for Historical Linguistics* 1968 and assesses the progress made since then towards constructing a general theory of language change Like the following essays on phonology and morphology it poses new questions that have arisen in the increasingly ambitious research Historical attention to discourse the topic of the next essay is virtually new though it too finds predecessors among philologists who devoted themselves to texts Finally two essays treat etymology one concentrating on the rigorously investigated Romance field the other on Indo European especially on new insights prompted by attention to Hittite

Principles of Historical Linguistics Hans Henrich Hock, 2021-10-25 Historical linguistic theory and practice consist of a large number of chronological layers that have been accepted in the course of time and have acquired a permanence of their own These range from neogrammarian conceptualizations of sound change analogy and borrowing to prosodic lexical morphological and syntactic change and to present day views on rule change and the effects of language contact To get a full grasp of the principles of historical linguistics it is therefore necessary to understand the nature of each of these layers This book is a major revision and reorganization of the earlier editions and adds entirely new chapters on morphological change and lexical change as well as a detailed discussion of linguistic palaeontology and ideological responses to the findings of historical linguistics to this landmark publication *Studies in formal historical linguistics* Henry M. Hoenigswald, 1973
