Studies In Medieval Renaissance H Volume 5:

The Penn Commentary on Piers Plowman, Volume 5, C Passūs 20-22 ; B Passūs 18-20 Stephen A. Barney, 2006

Beyond Charity Carter Lindberg, 1993-07-01 The common stereotype is that the Reformers separated public and private morality and were indifferent to the ethical import of social structures and institutions Beyond Charity calls this understanding into question by providing an analysis of the historical situation and translations of primary documents The medieval point of view formed by piety of achievement idealized poverty either as voluntary renunciation or as almsgiving In either case the material effects on actual poverty were slight and the religious endorsement of poverty precluded urban efforts to address this growing problem The Reformers impelled by their theology developed and passed new legislative structures for addressing social welfare needs The key to their undertakings was the conviction that social ethics is the continuation of community worship In the first half this book sets forth the medieval context details Luther's critique of the profit economy of his day and analyzes the actual social welfare programs that issued from his theology The second half provides translations of selected legislative programs from the church orders of the Reformation **The Penn**

Commentary on Piers Plowman, Volume 5 Stephen A. Barney, 2011-06-07 The first full commentary on Piers Plowman since the late nineteenth century is inaugurated with the publication of the first two of its five projected volumes The detailed and wide ranging Penn Commentary places the allegorical dream vision of Piers Plowman within the literary historical social and intellectual contexts of late medieval England and within the long history of critical interpretation of the poem assessing past scholarship while offering original materials and insights throughout The authors line by line section by section and passus by passus commentary on all three versions of the poem and on the stages of its multiple revisions reveals new aspects of the poem's meaning while assessing and summarizing a complex and often divisive scholarly tradition The volumes offer an up to date original and open ended guide to a poem whose engagement in its social world is unrivaled in English literature and whose literary religious and intellectual accomplishments are uniquely powerful The Penn Commentary is designed to be equally useful to readers of the A B or C texts of the poem It is geared to readers eager to have detailed experience of Piers Plowman and other medieval literature possessing some basic knowledge of Middle English language and literature and interested in pondering further the particularly difficult relationships to both that this poem possesses Others with interest in poetry of all periods will find the extended and detailed commentary useful precisely because it does not seek to avoid the poem's challenges but seeks instead to provoke thought about its intricacy and poetic achievements Andrew Galloway's Volume 1 treats the poem's first vision from the Prologue through Passus 4 in all three versions accepting the C text as the poet's final word but excavating downward through the earlier B and A texts Stephen Barney's volume completes the framework for the commentary dealing with the final three passus of the poem extant only in the B and C versions Subsequent volumes will be the work of Ralph Hanna Traugott Lawler and Anne Middleton Overall The Penn Commentary on

Piers Plowman marks a new stage of concentrated yet wide ranging attention to a text whose repeated revisions and literary and intellectual complexity make it both an elusive object of inquiry and a literary work whose richness has long deserved the capacious and minutely detailed treatment that only a full commentary can allow Perhaps no poem in English appeals more than Piers Plowman to those readers who understand Yeats's fascination with things difficult yet The Penn Commentary will enable generations of readers to share in the pleasures and challenges of experiencing engaging with and trying to elucidate the difficulties of one of the towering achievements of English literature

Sacred Communities Dean Phillip

Bell, 2021-10-01 We all live in a community and it was no different for the Jews and Christians of medieval Germany or was it This book draws together disparate threads of Christian and Jewish communal development in an effort to give a deeper understanding to the complex tapestry of Jewish and Christian interaction In the broad examination presented herein it is possible to compare the general transformations that affected Jews and Christians both as residents of a shared German society and as residents of their own separate communities Jews and Christians interacted in a variety of ways in numerous settings and at a multitude of levels that defy simple categorization To label late medieval Germany a period of crisis is too simplistic the Reformation should not categorically be viewed as the central development in the shift between medieval and early modern times This book seeks to recontextualize the world of Jewish and Christian relations by bringing together divergent sources not often taken together but equally important to inform one another and offer a fuller picture of Jewish and Christian notions of each other and themselves than has been possible up to this point

Imaginings of Time in Lydgate and Hoccleve's Verse Dr Karen Elaine

Smyth, 2013-05-28 Using empirical research to explore medieval writers' imaginings of time this study presents a new morphology by which to study narratives of time in fifteenth century literary culture focusing on poems of John Lydgate and Thomas Hoccleve Karen Smyth begins with an overview of medieval time keeping devices and considers collective and individual attitudes and perceptions of time She then examines a range of Middle English authors' appropriations and innovations in relation to such perceptions identifying competitions of tradition and innovation allowing for an interrogation of commonly accepted medieval theories of time An empirically based morphology emerges and is used to examine narratives of time in Lydgate and Hoccleve's work Through a series of close readings of selected short poems and Lydgate's Troy Book Fall of Princes and Siege of Thebes and of Hoccleve's Regiments of Princes and Series Karen Smyth looks at expressions of time and examples of the authors' negotiation of time consciousness illustrating how both poets manipulate a range of

cultural narratives of time in order to create multiple and sometimes competing temporalities within a single poem Smyth simultaneously draws attention to Lydgate's and Hoccleve's underestimated artistic skills and lays out a means to re-evaluate medieval cultural attitudes towards time

The Rise of European Music, 1380-1500 Reinhard Strohm, 2005-02-17 This is a detailed and comprehensive survey of music in the late middle ages and early Renaissance By limiting its scope to the 120 years which witnessed perhaps the most dramatic expansion of our musical heritage the book responds in the 1990s to the tremendous increase in specialised research and public awareness of that period Three of the four main Parts I II IV describe the development of polyphony and its cultural contexts in many European countries from the successors of Machaut d 1377 to the achievements of Josquin des Prez and his contemporaries working in Renaissance Italy around 1500 Part III by contrast illustrates the musical life of the institutions and musical practices outside the realm of composed polyphony that were traditional and common all over Europe The book proposes fresh views in each chapter discussing dozens of musical examples adducing well known and hitherto unknown documents and referring to and evaluating the most recent scholarship in the field

Poverty in the Theology of John Calvin Bonnie L. Pattison, 2006-11-01 It is the thesis of this study that in Calvin's theology poverty and affliction not splendor and glory mark and manifest the kingdom of God on earth Poverty makes the kingdom visible to the eyes and therefore recognizable as divine Poverty acts to reveal or disclose that which is spiritual or that which is of God in the Christian faith This does not mean that Calvin sees the condition of physical poverty as revelatory in and of itself Rather poverty and affliction function as agents of divine revelation They are a condition or a chosen instrument God uses to disclose to humanity the nature of true spirituality godliness and poverty of spirit How this is demonstrated in Calvin's thought depends upon the specific doctrine under examination This study explores three particular areas in Calvin's theology where his theological understanding of spiritual poverty and physical poverty or affliction intersect his Christology his doctrine of the Christian life and his ecclesiology
