Studies In The History Of Linguistics:

Women in the History of Linguistics Wendy Ayres-Bennett,Helena Sanson,2020 This volume offers a ground breaking investigation into women s contribution to the description analysis and codification of languages across a wide range of linguistic and cultural traditions The chapters explore a variety of spheres of activity from the production of dictionaries and grammars to language teaching methods and language policy **Studies in the History of Linguistics: Traditions and Paradigms** Dell H. Hymes,1974 The Oxford Handbook of the History of Linguistics Keith Allan,2013-03-28 Leading scholars examine the history of linguistics from ancient origins to the present They consider every aspect of the field from language origins to neurolinguistics explore the linguistic traditions in different parts of the world examine how work in linguistics has influenced other fields and look at how it has been practically applied Studies in the History of the English Language VII Don Chapman,Colette Moore,Miranda Wilcox,2016 This book looks at how historical linguists accommodate the written records used for evidence The limitations of the written record restrict our view of the past and the conclusions that we can draw about its language However the same limitations force us to be aware of the particularities of language This collection blends the philological with the linguistic combining questions of the particular with generalizations about language change Language and History, Linguistics and Historiography Nils Langer,Steffan Davies,Wim Vandenbussche,2011 What are the points of contact between the study of language and the study of history What are the possibilities for collaboration between linguists and historians and what prevents it This volume the proceedings of an international conference held at the University of Bristol in April 2009 presents twenty two articles by linguists and historians exploring the relationship between the fields theoretically conceptually and in practice Contributions focus on a variety of European and American languages in historical periods from the Middle Ages to the present day Key themes at the intersection of these two disciplines are the standardization and classification of languages the social and demographic history of medieval and early modern Europe the study of language and history from below and the function of language in modern politics The value of interdisciplinary collaboration is demonstrated in a wide ranging set of case studies on topics including language contact in Northern and Central Europe the relationship between peninsular and transatlantic Spanish and new approaches to the recent histories of Nicaragua Luxembourg and Bulgaria The volume seeks out the interdependencies between the two fields and asks why exchanges between linguists and historians remain the exception rather than the rule **Studies in the History of the English Language IV** Susan M. Fitzmaurice,Donka Minkova,2008-11-06 Empirical and Analytical Advances in the Study of English Language Change continues the project of initiating and energizing the conversations among historians of the English language fostered by the series of conferences on studying the history of the English language SHEL begun in 2000 at UCLA It follows in the footsteps of three high profile SHEL based collections of peer reviewed research papers and point counterpoint commentaries In the current volume the

editors invited contributors to reflect upon their approaches and practices in undertaking historical studies focusing particularly on the methods deployed in selecting and analyzing data The essays in this volume represent interests in the study of linguistic change in English that range across different periods genres and aspects of the language and show different approaches and use of evidence to deal with the subject They also represent the current state of research in the field and the nature of the debates in which scholars and historians engage as regards the nature of the evidence adduced in the explanation of change and the robustness of heuristics The editors share a strong interest in examining the evidence that informs and grounds research in their fields at the same time as interrogating the heuristics employed by their colleagues for the histories they present The contributions to the volume give expression to these interests Contributors are Richard Hogg to whose memory the volume is dedicated William Labov Elizabeth Traugott Rob Fulk Thomas Cable Jennifer Tran Smith Charles Li Christina Fitzgerald David Denison Christopher Palmer Don Chapman Graeme Trousdale Joan Beal Connie Eble Stefan Dollinger and Raymond Hickey The volume is of interest to scholars and postgraduate and research students in the history of English English philology and English historical linguistics Studies in Linguistic Psychology Robert James Kellogg,1912 **Studies in the History of the English Language VIII** Peter Grund,Megan Hartman,2020-11-09 This volume collects essays that approach notions of creating maintaining and crossing boundaries in the history of the English language The concept of boundaries is variously defined within linguistics depending on the theoretical framework from formal and theoretical perspectives to specific fields and more empirical physical and perceptual angles The contributions to this volume do not take one particular theoretical or methodological approach but instead explore how examining various types of boundaries linguistic conceptual analytical generic physical helps us illuminate and account for historical use variation and change in English In their exploration of various topics in the history of English contributions ask a range of questions what does it mean to set up boundaries between time periods When do language varieties have distinct boundaries and when do they overlap Where do language users draw up clausal constructional semantic phonetic phonological boundaries Thus the chapters explore not only how boundaries illustrate synchronic and diachronic features in the history of the English language but also what we can discover by questioning perceived or actual boundaries **Foreign Social Science Bibliographies** ,1965 **Bibliography of Social Science Periodicals and Monograph Series** United States. Bureau of the Census,1965
