Studies in Pharisaism and the Gospels I. Abrahams, 2014-07-24 Originally published in 1917 this book applies Jewish approaches to Scripture to New Testament texts in order to balance the teaching of Jesus with that of Pharasaic Judaism Abrahams heavily references C G Montefiore s two volume commentary on the Synoptic Gospels and delves deeply into the historical background to many of the key stories and events of the Gospels such as ancient divorce and the importance of fasting This book will be of value to anyone with an interest in the Jewish context of the Gospels *Studies in Aramaic Poetry (c. 100 B.C.E.-c. 600 C.E.)* Rodrigues Pereira, 2018-07-17 The paucity of material which has limited the study of Aramaic for too long is gradually being alleviated An ever growing body of well edited texts is being made available to the scholarly world These publications have provoked a number of important and penetrating linguistical and grammatical studies Generally however corresponding literary studies of these texts are still lacking The present work is an attempt to add a literary approach to the earlier analyses The study deals with Aramaic poetry of the period between c 100 B C E and c 600 C E The discussion of the textual material is organized in a number of levels one superimposed upon the other The basis is formed by a close exegetical and literary reading of the poems to elucidate essential elements of content style and form Particular attention is paid to structure and composition as a function of the content of the poems and to the use made by the poets of stylistic devices as structural elements Studies in Isaiah XL-LXVI William Oscar Emil Oesterley, 1916
