Studies in Twentieth Century Russian Literature Christopher J. Barnes, 1976

Reference Guide to Russian

Literature Neil Cornwell, 2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public *Library of Congress Catalogs* Library of Congress, 1980 *The Silver Mask* Olga Yu Soboleva, 2008 A highly significant movement within the Silver Age harlequinade did not surface in Russian high culture until the turn of the twentieth century when it suddenly began to attract the close attention of symbolist authors In the present work an attempt is made to show that the proliferation of the new cultural idiom was indicative of the fundamental concerns of the time and intimately related to the development of artistic thought Although the theme is considered in its cultural totality visual arts literature and drama the work is focused on symbolist poetry It provides a close analysis of the harlequinade verse of Blok and Belyi two leading figures of the movement in whose writings the symbolist theory found its maturity and perfection The poems in question are conceptually centred on the dialectical unity of self and other one of the key notes in the new symbolist outlook This is traced at various levels of poetic representation in the imagery system and the principles of text construction in linguistic features and poetic devices employed by the authors Special attention is given to the sound organization of the poems which heightens considerably the semantic potential of the text **Subject Catalog, 1978** Library of Congress, 1978 *Subject Catalog* Library of Congress, 1978 **On the Dark Side of Russian Literature, 1709-1910** Constantin V. Ponomareff, 1987 The book examines two centuries of Russian literary development and studies in major writers of the time the consequences of the clash between two irreconcilable cultures the politically despotic Russian and the humanistic European The author holds that the spiritual and creative results of this inner rift led from moral ambivalence to despair and ultimately to a nihilist vision of reality **Twentieth-century Literary Movements Dictionary** Helene Henderson, Jay P. Pederson, 2000 A reference for students in late high school and early college who are examining literature from the perspective of literary movements Entries are international in scope and describe some 500 major and less well known literary movements schools genres techniques and terms of the 20th century as well as major 19th century movements which have exerted tremendous influence on 20th century literature Each entry describes writers identified with the movement representative works literary techniques and philosophical and artistic tenets and historical and cultural context **Subject Catalog, 1976** Library of Congress, 1976 *Nightmare: From Literary Experiments to Cultural Project* Dina Khapaeva, 2012-11-13 What is a nightmare as a psychological experience a literary experiment and a cultural project Why has experiencing a nightmare under the guise of reading a novel watching a film or playing a video game become a persistent requirement of contemporary mass culture By answering these questions which have not been addressed by literary criticism and cultural studies we can interpret anew the texts of classic authors Charles Maturin

Nikolai Gogol Fyodor Dostoevsky Thomas Mann Howard Philips Lovecraft and Victor Pelevin carry out bold experiments on their heroes and readers as they seek to investigate the nature of nightmare in their works This book examines their prose to reveal the unstudied features of the nightmare as a mental state and traces the mosaic of coincidences leading from literary experiments to today s culture of nightmare consumption

Immerse yourself in heartwarming tales of love and emotion with Explore Love with is touching creation, **Studies In Twentieth Century Russian Literature Five Essays** .
