Studies In Arabic Syntax And Semantics:

Studies in Arabic Syntax and Semantics Ariel A. Bloch, 1991 In view of the great upsurge of interest in syntax in recent years it is remarkable that there are so few studies of Arabic syntax and the works of a diachronic orientation are virtually nonexistent The main portion of this book is historical dealing with fundamental mechanisms of syntactic and semantic change Here Bloch has made a substantial contribution to the historical syntax of Arabic Throughout the book the phenomena are viewed from a broad perspective that takes into account evidence not only from all periods and genres of Arabic Ancient Poetic Koranic Classical Middle Modern Literary and Colloquial but also from other Semitic and occasionally non Semitic In the second printing are almost exclusively corrections of misprints and other minor alterations made

Sentence Types and Word-Order Patterns in Written Arabic Yishai Peled, 2008-11-30 Sentence types and word order patterns in Arabic have been a matter of debate and controversy for a long period of time They were hotly discussed by the medieval Arab grammarians and continue to be a major topic of discussion among modern scholars This book describes the development of the medieval grammarians theory of sentence types a development from the theory of *amal* which lies at the heart of medieval Arabic grammatical tradition Each major topic is discussed with a view to explore the basic principles underlying the medieval grammarians arguments Special attention is given to conceptual problems arising from conflicts with the theory of *amal* This is followed by an assessment of the contributions made by modern scholars to the analysis and description of the constructions involved Modern Arabists and linguists are shown to have concentrated on word order patterns rather than on sentence types placing special emphasis on the functional aspects of word order variations in Arabic

Modern Arabic Clive Holes, 2004 The revised and updated edition of Modern Arabic takes this authoritative concise linguistic description of the structure and use of modern Arabic to an invaluable new level Clive Holes traces the development of the Arabic language from Classical Arabic the written language used in the 7th century for the Qur'an and poetry through the increasingly symbiotic use of Modern Standard Arabic or MSA the language of writing and formal speech and dialectal Arabic the language of normal conversation He shows how Arabic has been shaped over the centuries by migration urbanization and education giving us a balanced dispassionate and accurate picture of the structures functions and varieties of the contemporary Arabic language Holes explains the structural characteristics phonology morphology syntax semantics and lexical and stylistic developments that the majority of the dialects share as distinguished from Modern Standard Arabic He also shows how native speakers use both types of Arabic for different purposes with MSA being the language of power and control as used on television and in political speeches and the dialects serving as the language of intimacy and domesticity He further shows how MSA and spoken dialects are not as compartmentalized as one might be led to believe Modern Arabic illustrates the use of the Arabic language in real life whether in conversation news bulletins and newspaper articles serious literature or song This new edition takes into account research published in several areas of Arabic linguistics since the first edition was published in 1995 It includes more extensive comment on the North African Arabic vocabulary of Modern Standard Arabic more information about mixed varieties of written Arabic that are not in MSA especially in Egypt updated references explanations and many new examples All Arabic is transcribed except for an appendix presenting the Arabic alphabet and script Students of the Arabic language will find Modern Arabic without peer as will those general linguists who are interested in discovering how Arabic compares structurally and sociolinguistically with European languages
