Studies in Public Opinion Willem E. Saris, Paul M. Sniderman, 2004 Building on and reaching beyond themes in the work of Philip Converse one of the pioneers in the study of public opinion *Studies in Public Opinion* brings together a group of leading American and European social scientists to explore a number of new factors with a particular emphasis on the structure of political choices In twelve chapters that reflect different perspectives on how people form political opinions and how these opinions are manipulated this book offers an unparalleled view of the state of the art research on these important questions as it has developed on two continents

International Law, Human Rights and Public Opinion Heping Dang, 2017-03-16 This book explores situations in which public opinion presents itself as an obstacle to the protection and promotion of human rights Taking an international law perspective it primarily deals with two questions first whether international law requires States to take an independent stance on human rights issues second whether international law encourages States to inform and mobilise public opinion with regard to core human rights standards The discussion is mainly organised within the framework of the UN system The work is particularly relevant to situations in which public opinion appears as discriminatory attitudes based on race gender age health sexual orientation and other factors It is also pertinent to circumstances in which public opinion is responsible for the existence of certain harmful customs and practices such as female genital mutilation and capital punishment Noting that the death penalty is increasingly recognised as an infringement of human rights this study further challenges States argument that capital punishment cannot be abolished because of public opinion The book also discusses the role that education bears under international law in moulding favourable attitudes towards human rights Finally the book challenges States acceptance that public opinion cannot be confronted in this respect
