Stuff of Sleep and Dreams Leon Edel, 1982 Literature, Psychoanalysis and the New Sciences of Mind Leonard Jackson, 2014-09-11 At a time when psychoanalysis is attacked by biologists psychologists and literary critics alike this book offers a radical defence Literature Psychoanalysis and the New Sciences of Mind gives a clear introduction to the theories of Freud and Jung the strange linguistic rewriting of Freud by Jacques Lacan It explores the extraordinary variety of ways in which these writings have been applied to literature and literary theory But for the first time they are put in the context of recent biological theories of mind and sexuality **Air-bird in the Water** Mildred Davis Harding, 1996 In this book author Mildred Davis Harding rescues from undeserved neglect Pearl Craigie the American born English author John Oliver Hobbes 1867 1906 and her works **Walden's Shore** Robert M. Thorson, 2014-01-06 Walden s Shore explores Thoreau s understanding of the living rock on which life s complexity depends not as metaphor but as physical science Robert Thorson s subject is Thoreau the rock and mineral collector interpreter of landscapes and field scientist whose compass and measuring stick were as important to him as his plant press Edith Wharton Alfred Bendixen, Annette Zilversmit, 2016-08-05 First published in 1992 this volume of essays celebrates the revival of Edith Wharton s critical reputation It offers a variety of approaches to the work of Wharton and examines largely neglected texts It differs from many other collections of Wharton criticism in its insistence that the entire body of Wharton s work deserves attention This book will be of interest in those studying nineteenth century and American literature **The Boilerplate Rhino** David Quammen, 2012-10-23 From one of the most fascinating and thought provoking writers of natural history The Seattle Times a collection of enduring essays that form a bestiary of wondrous creatures and a gallery of the human faces that peer at them The Boilerplate Rhino brings together twenty six of David Quammen s most thoughtful and engaging essays from his column for Outside magazine gifting readers with an irrepressible assortment of ideas to explore conundrums to contemplate and wondrous creatures to behold In lucid penetrating and often quirkily idiosyncratic prose David Quammen takes his readers with him as he explores the world His travels lead him to rattlesnake handlers in Texas a lizard specialist in Baja the dinosaur museum in Jordan Montana and halfway across Indonesia in search of the perfect Durian fruit He ponders the history of nutmeg in the southern Moluccas meditates on bioluminescent beetles while soaking in the waters of the Amazon and delivers The Dope on Eggs from a chicken ranch near his hometown in Montana Quammen s travels are always jumping off points to explore the rich and sometimes horrifying tension between humankind and the natural world in all its complexity and ambivalence The result is another irrepressible assortment of ideas to explore conundrums to contemplate and wondrous creatures to behold

Mapping American Culture Wayne Franklin, Michael C. Steiner, 1992 *Provocations* Cathryn McConaghy, 2006 Textbook **The Writer's Book of Hope** Ralph Keyes, 2003-10-01 In 1889 the editor of the San Francisco Examiner having accepted an article from Rudyard Kipling informed the author that he should not bother to submit any more This isn t a

kindergarten for amateur writers the editor wrote I m sorry Mr Kipling but you just don t know how to use the English language A century later John Grisham was turned down by sixteen agents before he found representation and it was only after Hollywood showed an interest in The Firm that publishers began to take him seriously The anxiety of rejection is an inevitable part of any writer s development In this book Ralph Keyes turns his attention from the difficulty of putting pen to paper the subject of his acclaimed The Courage to Write to the frustration of getting the product to the public Inspiration isn t nearly as important to the successful writer he argues as tenacity and he offers concrete ways to manage the struggle to publish Drawing on his long experience as a writer and teacher of writing Keyes provides new insight into the mind set of publishers the value of an agent and the importance of encouragement and hope to the act of authorial creation

Nature Writing Don Scheese, 2013-10-28 In this comprehensive study of the genre Don Scheese traces its evolution from the pastoralism evident in the natural history observations of Aristotle and the poetry of Virgil to current American writers He documents the emergence of the modern form of nature writing as a reaction to industrialization Scheese s personal observations of natural settings sharpen the reader s understanding of the dynamics between author and locale His study is further informed by ample use of illustrations and close readings core writers such as Thoreau John Muir and Mary Austin showing how each writer s work exemplifies the pastoral tradition and celebrate a spirit of place in the United States
