Creating Capacity and Capability: Embracing Advanced Technologies and Innovations for Sustainable Future in Building Education and Practice Mostafa Babaeian Jelodar, Ruggiero Lovreglio, Zhenan Feng, Daniel Paes, Vishal Kumar, Chandana

Siriwardana, 2025-08-02 This three volume book is the proceeding of the 46th Australasian Universities Building Education Association AUBEA 2023 Conference which brings together papers on construction and built environment education and practice This particular conference theme Creating Capacity and Capability Embracing Advanced Technologies and Innovations for Sustainable Future in Building Education and Practice is closely related to a flagship national research programme funded by the Government of New Zealand known as the CanConstructNZ research programme aiming to balance the capacity and capability in the construction industry and the national pipeline of construction projects The capacity and capability of our construction industry in fulfilling the construction needs of the whole nation are reflected in the national pipeline of construction projects and have long been recognised as one of the main challenges facing the construction sector The practices and education of building and construction play an important role in determining the capacity and capability of the construction industry Within the context of achieving sustainable future and embracing advanced technologies to create capacity and capability in the construction sector various concepts research and innovative development have emerged and taken place This particular conference theme has facilitated more in depth discourses and

discussions on the latest ideas and innovation within the building and construction education and practice not only from the Australasian region but also from the wider international community including the USA the UK Brazil South Africa Nigeria China and Sri Lanka The contents of this book will be of interest to academic researchers industry professionals and policy makers alike **Policies, Programs and People that Shape Innovation in Housing** Andrew P. McCoy, Andrew R. Sanderford, 2015-06-01 Businesses consumers industry groups and governments understand the importance of innovation and the innovation process for continued economic success and improvements in quality of life However innovation remains an opaque topic A paradox exists in housing at large using innovation is vital yet accounting for the value to individual organizations remains a challenge This paradox is supported by a landscape that includes a sizeable graveyard of failed attempts at innovation on grand and small scales This book seeks to decrease the opacity of innovation processes in residential construction and housing Along with the next book in the collection this book addresses key questions pertinent to the potential for widespread diffusion of green buildings and for improvements in community sustainability The overarching purpose of this book is to provide context and foundation for later books in the collection and to assist readers in peeling back the complex layers of innovation in housing and residential construction **Summary of Federal Construction,**
