The Expert of Subtle Revisions Kirsten Menger-Anderson, 2025-03-18 A thrilling historical mystery about a young woman searching for her father a young man trying to solve an impossible problem and the quest for the power to transcend time From Vienna to San Francisco I was swept away by this fascinating search for family and for answers Janet Skeslien Charles New York Times bestselling author of The Paris Library and Miss Morgan's Book Brigade In Half Moon Bay California 2016 a young woman waits for her father's sailboat to arrive at port They have agreed to meet on this day and time Yet he never shows He has told her this event might

come And if it did she was ready Go to the library in Berkeley find a certain book follow the instructions But what if the instructions lead to more questions than answers In 1933 a young man arrives in Vienna to begin a new post as a professor of mathematics at the university There he finds himself part of the Engelhardt Circle a group of intellectuals that have recently been targeted by a growing anti academic mob The circle includes the preeminent minds of their time and a cast of characters desperate to get invited into their midst many of whom will stop at nothing to get there As fascism rises and polarization increases moderate voices are drowned out There are whispers of a machine a music box which can transport someone through time But no one can confirm if it s a rumor or true And the only people who know firsthand are not talking Between the young woman who lives off the grid and spends her free time editing Wikipedia entries and picking fights with people online and the circle of intellectuals debating space and time in Vienna on the eve of World War II lie years of history that might easily be erased unless old secrets are unraveled Kirsten Menger Anderson s beautiful meditation on time love and obsession shows us how we never truly know what happened in the past and often how the past eerily mirrors the future
