Macleod** Norman Macleod, 1865 **Time's Telescope**, 1826 *Silk*, 1924 *Report of Vegetable Breeding in the Southern United States, Hawaii and Puerto Rico* Vegetable Breeding Laboratory (Charleston, S.C.), 1954 **A History of English Georgic Writing** Paddy Bullard, 2022-12-15 The interconnected themes of land and labour were a common recourse for English literary writers between the sixteenth and twentieth centuries and in the twenty first they have become pressing again in the work of nature writers environmentalists poets novelists and dramatists Written by a team of sixteen subject specialists this volume surveys the literature of rural working lives and landscapes written in English between 1500 and the present day offering a range of scholarly perspectives on the georgic tradition with insights from literary criticism historical scholarship classics post colonial studies rural studies and ecocriticism Providing an overview of the current scholarship in georgic literature and criticism this collection argues that the work of people and animals in farming communities and the land as it is understood through that work has provided writers in English with one of their most complex and enduring themes

The Sound of the English Picturesque Stephen Groves, 2023-12-04 Revealing the connections between the veneration of national landscape and eighteenth century English vocal music this study restores English music's relationship with the picturesque In the eighteenth century the emerging taste for the picturesque was central to British aesthetics as poets and painters gained popularity by glorifying the local landscape in works concurrent with the emergence of native countryside tourism Yet English music was seldom discussed as a medium for conveying national scenic beauty Stephen Groves explores this gap and shows how secular song the glee and national theatre music expressed a uniquely English engagement with landscape Using an interdisciplinary approach Groves addresses the apparent silence of the English picturesque The book draws on analysis of the visualisations present in the texts of English vocal music and their musical treatment to demonstrate

how local composers incorporated celebrations of landscape into their works The final chapter shows that the English picturesque was a crucial influence on Joseph Haydn s oratorio The Seasons Suitable for anyone with an interest in eighteenth century music aesthetics and the natural environment this book will appeal to a wide range of specialists and non specialists alike Bradstreet's Weekly ,1906 **Boot and Shoe Recorder** ,1906 **Edinburgh New Philosophical Journal** ,1854 **"The" Edinburgh New Philosophical Journal** Naturforschende Gesellschaft in Zürich,1854 **The Edinburgh Philosophical Journal** ,1854 **The Edinburgh New Philosophical Journal** ,1854
