Hutchison,1990-11-30 During the first six decades of this century the so called mainline Protestant denominations in America were compelled to accommodate to the growing influences of diverse religions and growing secularization In this book twelve historians examine the nature of the American Protestant establishment and its response to the growing pluralism of the times The goals of the establishment are first examined from the inside as they were voiced from the pulpit expressed in education and through the media and applied in ecumenical and social reforming ventures The establishment is then viewed through the eyes of outsiders Jews and Catholics and those at the periphery of the establishment s core and women The authors conclude that the period surveyed forms a distinct epoch in the evolution of American Protestantism The days when Protestant cultural authority could be taken for granted were certainly over but a new era in which religious pluralism would be widely accepted had not yet arrived N. decades Christian youth work has emerged as a response to further youth decline within churches Many youth workers engage with young people s self perceived needs by delivering open access youth provision in their local communities alongside more specifically Christian activities Tensions emerge over whether the youth worker s role is to serve community or church needs with churches often emphasising the desire to see young people in services Drawing together historical and contemporary research *Young People and Church Since 1900* identifies patterns and change in young people s engagement with organised Christianity across time Through this it provides a unique analysis of the engagement and exclusion of young people in three key time periods 1900 1910 1955 1972 and the present day Whilst much commentary on religious decline has focused on changes external to churches this text draws out the internal decisions and processes that have affected the longevity of Christianity in England This book will be of interest to researchers and scholars of young people and Christianity in the twentieth century and today as well as youth ministry students and practitioners and those interested in youth decline in churches more widely
