Sunak asks stores to cap basic food prices

No 10 in discussions with supermarkets over French-style approach to cost of living crisis

By Edward Maleski and Will Russell

Prime Minister Rishi Sunak is planning to ask supermarkets to cap the prices of basic food items, a move that would be a significant departure from the free market. The government is considering a French-style approach to the cost of living crisis, which has seen food prices rise sharply in recent months. Sunak is expected to announce the plan in the coming weeks, as the government seeks to ease the financial burden on households. The move would involve setting maximum prices for a range of essential food items, including bread, milk, and meat. This approach has been used in France and other European countries to protect consumers from price gouging. However, it has also been criticized by some economists who argue that it could lead to shortages and reduced quality of goods. The government is currently in discussions with major supermarket chains to see if they are willing to participate in the scheme. If successful, it could be a landmark moment in the fight against inflation.

...in public companies this week, but the government is not yet ready to announce a plan to do so. The government is also considering a range of other measures to support households, including increasing the minimum wage and providing more financial support for those on low incomes. The cost of living crisis has become a major political issue, with voters demanding action from the government. Sunak's plan to cap food prices is seen as a key part of the government's response to the crisis. It is hoped that the move will help to stabilize food prices and ease the financial strain on households. However, it remains to be seen if the plan will be successful in the long term.

Labour vows to get tough on migrant job visas

By Will Russell, Edward Maleski and Will Russell

Labour has vowed to get tough on migrant job visas, a move that would be a significant departure from the current policy. The party has promised to introduce a new system of visas for migrants, which would require them to prove that they have a job offer in the UK before they can enter the country. This move is seen as a key part of Labour's plan to reduce the number of migrants in the UK and to protect the jobs of British citizens. The current system of visas is seen as too lenient, with many migrants entering the country without a job offer. Labour's new system would be a more stringent one, requiring migrants to have a job offer from a UK employer before they can enter the country. This move is expected to be a major talking point in the upcoming general election.

Trans lobby group helped NHS plan treatment of children

A Trans lobby group has been accused of helping the NHS plan the treatment of children. The group, which is known as the Gender Identity Development Service (GIDS), has been accused of providing the NHS with information about the treatment of children. This information has been used by the NHS to plan the treatment of children, which has led to controversy. The group has claimed that it is simply providing information about the treatment of children, but critics argue that it is actively involved in the planning process. This has led to concerns about the safety and effectiveness of the treatment. The NHS has defended its approach, claiming that it is based on the best available evidence. However, the controversy has led to calls for a review of the treatment of children.

...the NHS has a duty to provide the best possible care for its patients. The treatment of children is a complex issue, and it is important that the NHS is able to provide the best possible care for its patients. The creation of the Ministry of Justice Great Britain: Parliament: House of Commons: Constitutional Affairs Committee, 2007-07-26 The creation of the Ministry of Justice made significant changes to the Lord Chancellor's responsibilities which may affect in practice or public perception the core responsibility of being the guardian of judicial independence This report looks at the way these changes were made and finds the Government underestimated the significance of the changes it announced The lack of sufficient consultation led to a public conflict between the senior judiciary and the previous Lord Chancellor which could have been avoided if the lessons from the way changes to the Lord Chancellor's office were announced and effected between 2003 and 2005 had been learnt **War Plan Iraq** Milan Rai, Noam Chomsky, 2002-11-17 Examining the United States hidden role in the collapse of the U N weapons inspection agency UNSCOM this book demonstrates that a war with Iraq would be in violation of international law and could precipitate

a world recession with dire consequences for the world's poor Media, Sustainability and Everyday Life Geoffrey Craig, 2019-04-04 This book analyses representations of sustainable everyday life across advertising, eco reality television, newspapers, magazines and social media. It foregrounds the discursive and networked basis of sustainability and demonstrates how such media representations connect the home and local community to broader political, social and economic contexts. The book shows how green lifestyle media negotiate issues of sustainability in varying ways, reproducing the logic of existing consumer society while also sometimes providing projections of a more environmentally friendly existence. In this way, the book argues that everyday lifestyles are not an irredeemable problem for environmentalism but an important site of environmental politics.

The Hybrid Media System Andrew Chadwick, 2017 New communication technologies have reshaped media and politics. But who are the new power players? The Hybrid Media System shows how the interactions among older and newer media technologies, genres, norms, behaviors and organizational forms now shape power relations among political actors, media and publics.

Sexism in the City James Taylor, 2025-02-20 Sexism in the City is the first book to trace the history of women stockbrokers in the United Kingdom from the late nineteenth to the late twentieth centuries. Forgotten pioneers: these businesswomen fought against the odds to establish successful brokerages across the country and in the process challenged society's beliefs about women and money. The book also tells the story of how the nation's stock exchanges denied them membership for generations, mobilizing increasingly desperate arguments to try to justify their exclusion until women finally won the right to join the London Stock Exchange in 1973. Though historians have recently reassessed women's role in the development of capitalism, highlighting their roles as investors and entrepreneurs, they have assumed that because women were not members of stock exchanges, they were not active as financial intermediaries until modern times. By spotlighting the lives and careers of women who worked as stockbrokers outside male monopolized institutions, this book reframes the historical development of finance in several ways. It highlights the extent to which the seemingly gender-neutral institutions and practices of finance were in fact based on gendered ideologies and exclusions. It argues that focusing on institutions only reveals part of the financial ecosystem, meaning that we miss what was happening outside the formal market. And it challenges London-centric interpretations of financial history, asking questions about the financial cultures existing outside the metropolis. If we look

beyond the official exchanges and beyond London a more diverse financial environment comes into view The history uncovered in Sexism in the City also helps to address problems with financial culture in the twenty first century Current reform initiatives are unlikely to succeed unless they acknowledge that for hundreds of years professional identities and institutional structures in finance have been based on the denigration and marginalization of women Acknowledging the efforts of those female stockbrokers who challenged misogynistic beliefs and defied men s monopoly of high finance by forging their own careers is the first step towards imagining a different kind of market
