The Flying Porcupine:

Short Sunderland Andrew Hendrie, 2012 First published in Great Britain in 1994 by Airline Publishing Ltd Title page perso *The Flying Porcupine* Richard Haligon, 1980 Why the Porcupine is Not a Bird Gregory Forth, 2016-01-01 Why the Porcupine Is Not a Bird is a comprehensive analysis of knowledge of animals among the Nage people of central Flores in Indonesia Gregory Forth sheds light on the ongoing anthropological debate surrounding the categorization of animals in small scale non Western societies Forth s detailed discussion of how the Nage people conceptualize their relationship to the animal world covers the naming and classification of animals their symbolic and practical use and the ecology of central Flores and its change over the years His study reveals the empirical basis of Nage classifications which align surprisingly well with the taxonomies of modern biologists It also shows how the Nage employ systems of symbolic and utilitarian classification distinct from their general taxonomy A tremendous source of ethnographic detail Why the Porcupine Is Not a Bird is an important contribution to the fields of ethnobiology and cognitive anthropology **Porcupine's Works** William Cobbett, 1801 **U-Boats at War in 100 Objects, 1939-1945** Gordon Williamson, 2019-10-30 The only thing that ever really frightened me during the war was the U boat peril wrote Winston Churchill in his history of the Second World War I was even more anxious about this battle than I had been about the glorious air fight called the Battle of Britain In reality the Kriegsmarine had been woefully unprepared for the war into which it was thrown The Command in Chief of submarines Karl D nitz himself a veteran U boat captain from the First World War felt that he could bring Britain to its knees with a fleet of 300 U Boats But when war broke out he had just twenty four available for operational use Despite this the U Boat arm scored some incredible successes in the early part of the war raising the status of the submarine commanders and crews to that of national heroes in the eyes of the German people The Grey Wolves had become super stars Small wonder then that the U Boat war has fascinated students of military history ever since This book using a carefully selected range of both wartime images and colour images of surviving U boat memorabilia from private collections describes 100 iconic elements of the U Boat service and its campaigns The array of objects include important individuals and the major U Boat types through to the uniforms and insignias the men wore The weapons equipment and technology used are explored as are the conditions in which the U boat crews served from cooking facilities and general hygiene down to the crude toilet facilities Importantly the enemy that they faced is also covered examining the ship borne and airborne anti submarine weaponry utilised against the U boats The U Boats began the war though small in number more than a match for the Allies and created carnage amongst merchant shipping as well as sinking several major warships The pace of technological development however failed to match that of Allied anti submarine warfare weaponry and the U Bootwaffe was ultimately doomed to defeat but not before at one point coming close to bringing Britain to its knees *The Royal Air Force: Re-Armament 1930 to 1939* Ian M. Philpott, 2006-07-20 Volume II of this mammoth reference work covers the years in which the League of Nations failed

because of the emerging dictatorships in Germany and Italy and the expansionist policies adopted by Japan Britain was still reeling from the consequences of World War I and the RAF was sadly far behind the other major world powers in aircraft design still relying on bi planes that were direct descendants of World War I thinking It gradually became apparent that despite UK government dithering the RAF needed to develop new aircraft engines and increase production to confront the bully boy tactics of the Axis powers As the turn of the decade approached extraordinary measures were taken to enable RAF to defend Britain s skies and this her freedom As with Volume 1 this book covers every conceivable part of the RAF s history through these pre War days It looks at the development and invention of new equipment such as radar monoplane fighters metal construction and the heavy bomber This was an era when science in aviation was rushing ahead and fortunately for Britain s freedom it laid the foundations of victory in 1 943 The Loves of Natalie Greenbaum Book III K.J.

McElrath,2018-05-09 Now a war widow with a daughter to raise Natalie Greenbaum and her daughter Peggy return to Port Lewis and her family Over the next several months Natalie does her best to adapt to life on the Home Front Reunions with old friends and a fond lover are bittersweet and brief as the war changes the courses of people s lives even on the Home Front Attacks on American soil that place her life and those of her loved ones in jeopardy motivate Natalie to enlist However she is classified 4F and rejected by both the WACS and the WAVES Natalie eventually signs up with the USO as an entertainer After a short reunion with her former lover Esther in New York Natalie and her accompanist Pops are sent overseas They spend several months in England touring military bases and entertaining military personnel While staying in an English village near an Army Air Force base where her brother is serving she meets up once again with her lover the aviatrix Bonnie For several months they resume their affair off and on as they are able They after a few idyllic weeks together during the autumn of 1944 in a newly liberated Paris Natalie and Bonnie part yet again Natalie and Pops then leave for the Foxhole Circuit taking their show to the troops in the combat zones Natalie finds that while Hitler s Germany may be on the run it is not finished It isn t over by a long shot and for part of her soul the war may never end *The Death of Prince*

George, Duke of Kent, 1942 M S Morgan,2024-12-31 To the fifteen passengers and crew onboard the lumbering Short Sunderland flying boat everything appeared normal and routine as it lifted off from the seaplane base at RAF Invergordon on Sunday 25 August 1942 Its destination was Iceland where one of the passengers Air Commodore HRH Prince George The Duke of Kent supported by his entourage was to undertake an inspection of various RAF bases in Iceland in his role as a senior RAF Welfare Officer It was about thirty minutes later that disaster struck At 13 42 hours the Sunderland ploughed into a hillside on the remote headland known as Eagle s Rock near Dunbeath in Caithness Apart from the rear gunner everyone on board including Prince George was instantly killed There was a Court of Inquiry which opened on 28 August and completed on 1 September This resulted in a disagreement between two senior officers in relation to its conclusion The funeral of the Duke surprisingly took place on the 29th during the Court of Inquiry There was also a rapid and thorough

wreckage clearance of the scene by 16 September and the apparent disjointed recording of the various men's deaths with the registrar Pilot error was the official cause for the crash allegedly signed off by the Chief Inspector of Accidents but hard evidence has been difficult to find since 1942 In fact the Court of Inquiry report could not be sourced in the UK and had to be obtained from the Australian archives Witness statements and any possible technical assessments have also disappeared and are not even contained in the Australian file So where are they and why have the documents for the second worst fatal air crash up to that period of time gone missing In addition where is the Duke of Kent's diary and personal papers for this period Where any plans drawn of the site and the position of the casualties Where post mortems carried out and by whom Over the years a variety of researchers historians and authors have sought to identify whether the cause of the crash was pilot error or something else Others have sought to explain it with a number of possible conspiracy theories including murder a Nazi plot a plot linked to Rudolf Hess and a peace initiative The author a former police senior investigating officer who was a member of the first Murder Review in London in the late 1990s has sought to gather all the available evidence from a wide variety of resources He looks at the history of the main characters and any possible reasons or motives they may have been targeted or involved in a plot He seeks to find further evidence even allowing after more than 80 years for hearsay evidence in his review He also examines the investigation and what it perhaps should have done in 1942 While other books newspapers and magazine articles have sought to establish the cause and or a conspiracy behind the fatal crash this author covers all bases and asks what evidence is missing and why

World War II , **Coastal Command** Anonymous, 2016-08-09 Written by

the Air Ministry and first published in 1942 this account provides a vivid description of the RAF Coastal Command operations during World War II A must read of intrinsic historical value and importance for all avid readers of British Military History

Into the Inferno Bill Ibelle,2025-06-15 Into the Inferno is more than just another war story It s an intriguing tale of best friends one fighting at 25 000 feet above German flak guns and the other in the steaming jungles of the Pacific and of the unforgettable girl they left behind A page turner to the very end Travis L Ayres author of The Bomber Boys The temperature was 40 degrees below zero when fighter planes screamed out of the clouds puncturing the fuselage with a spray of machinegun fire and sending the bomber beside them into a death spin This was followed by intense flak as a hundred cannons on the ground tried to blow them out of the sky When they finally made it back to the base another enemy awaited them homesickness crushing boredom relentless cold and more mud than they could imagine Bert Ibelle was a 19 year old freshman at Dartmouth College when he enlisted in the Army Air Corps to fly dozens of bomber missions over Nazi occupied Europe and win the Purple Heart His buddy Fran Brighenti served as an infantry marksman on the opposite side of the globe slogging through the steaming jungles of the Philippine and the fiery hell of Okinawa Their wars couldn t have been more different nor could their approach to life While the ever exuberant Fran was a ladies man Bert only had eyes for Red the girl back home who was in love with another young man This is their story one that combines terror humor friendship and a son s search for his elusive father [Military Aircraft, 1919-1945](#) Justin D. Murphy,Matthew A. McNiece,2008-12-08 An in depth history of the time when airpower became the great equalizer changing military strategy forever and bringing once safe targets in reach Military Aircraft 1919 1945 An Illustrated History of Their Impact covers a crucial era in modern warfare technology Ranging from the development of airpower doctrines in the aftermath of World War I to the aircraft and missions that put those doctrines into action during World War II it provides an expert summing up of the decades when the use of aircraft in battle came of age In chapters covering both the history of air power and specific types of aircraft fighters bombers reconnaissance and auxiliary planes Military Aircraft 1919 1945 introduces key theorists and designers describes important changes in technology and production and recreates spectacular episodes from Pearl Harbor to the London Blitz to the Enola Gay Readers will see the dramatic impact of the first generation of modern military aircraft on land and sea They will also see how the expansion of war to the skies brought economic opportunity to some home fronts and looming terror and devastation to others **The Diary** Arthur L. Lindsay,2010-10-29 BECAUSE IT WAS A TRAGEDY THAT CAME AT THE END OF WORLD WAR TWO the infamous Black March conducted by the German regime against Prisoners of War has been largely ignored by history Nonetheless during 87 torturous days in the blizzard like frozen days of winter 1945 beginning from Stalag IV in western Poland 8 000 American and British airmen were forced to march as much as 40 miles a day across northern Germany They were not supplied with proper clothing sanitation water or food Night after weary night they slept on the frozen ground in open fields or crowded into ramshackle barns Those who died along the way were left behind on the side

of the road never with the dignity of a burial Sergeant James B Lindsay of Kokomo Indiana was one of the survivors Under the very noses of the German guards he maintained a daily diary of his experience More than that his miraculous fall from the sky when his 9 other crewmates perished in a mid air collision is breathtakingly exciting Then to have survived that tragedy only to be betrayed by Italian farmers and sold into the hands of the Germans was the start of his thousand mile journey to incarceration in Poland

These Names Make Victories ,1946 **Cinderella Boys** Leo McKinstry,2023-06-08 Masterful David Price McKinstry has done a fine job in rescuing Coastal Command from long neglect Richard Overy The remarkable story of the unsung RAF wing who made Allied victory possible In 1943 Britain was engaged in an epic struggle for survival as deadly wolf packs of German U boats roamed the Atlantic In desperation Churchill turned to an overlooked underfunded force known as The Cinderella Service Armed with long range planes depth charges rocket projectiles and radar equipment the Cinderella boys provided vital air defence The German hunters became the hunted and in a stunning defeat fully retreated by the summer The transformation of Coastal Command from a ramshackle outfit into a formidable organisation served as one of the turning points of the war But they never received the credit they deserved Based on a wealth of new sources Leo McKinstry shines a light on the courageous pilots ingenious scientists and political risktakers who defended the freezing Atlantic from Nazi rule Engrossing Brendan Simms *Bulletins from Britain* ,1940 *The Desert Air War 1939* □ 1945 Richard Bickers,1991-07-01 In the face of the massive publicity accorded to General Montgomery and his adversary General Erwin Rommel and bearing in mind the endless controversy that has raged over the dismissal by Mr Churchill of Generals Wavell and Auchinleck it is easy to forget that the war in North Africa would have run a very different course had it not been for the part played by the Royal Air Force During those long months when the men on the ground went back and forth across the desert in a dizzying succession of triumphs and reverses the men of the Royal Air Force often woefully under equipped struggled valiantly to deep possession of the skies under which the troops were fighting Richard Bickers author of several books on the history of the aerial warfare saw the war in North Africa and Italy from both the ground and the air and uses his own experiences interwoven with the recollections of numerous contemporaries to create a vivid picture of what it was like to fly to fight and to control operations over the desert at that time He also gives the usually ignored ground crews the full measure of the recognition due to them ground gunners armourers motor transport drivers and others

The Many Not The Few Richard North,2013-03-05 Immortalized in Churchill s often quoted assertion that never before was so much owed by so few the top down narrative of the Battle of Britain has been firmly established in British legend Britain was saved from German invasion by the gallant band of Fighter Command Pilots in their Spitfires and Hurricanes and the public owed them their freedom Richard North s radical re evaluation of the Battle of Britain dismantles this mythical retelling of events Taking a wider perspective than the much discussed air war North takes a fresh look at the conflict as a whole to show that the civilian experience far from being separate and distinct was integral to the Battle This

recovery of the people's stolen history demonstrates that Hitler's aim was not the military conquest of England and that his unattained target was the hearts and minds of British people **Storm of Eagles** John Dibbs, Kent Ramsey, Robert "Cricket" Renner, 2017-06-29 Soaring high above the fields and cities of Europe and Asia as well as the vast expanse of the Pacific Allied and Axis pilots engaged in a deadly battle for control of the skies in World War II Whoever won the skies would win the war Published in association with the National Museum of World War II Aviation Storm of Eagles is a fully illustrated coffee table book that brings together classic as well as never before seen wartime images Compiled by one of the world's premier aviation photographers and historians this remarkable volume is a must have for anyone interested in World War II aviation
