 Cleburne County and Its People is a historical account of Cleburne County and the men and women who made it what it is today. These men and women were as diverse as the Ozark Mountain's rock-laden landscapes. The pioneers who settled Cleburne County were as strong as the land of hardy pioneer stock and bold in thought and action. They were shrewd, strong-willed individuals who brought staunch beliefs and strong disciplines with them and settled in an untamed wilderness which became Cleburne County. Cleburne County and Its People has drawn from the past and the present, chronicling the lives of settlers facing hardships and tragedies, discovering profound beauty, mastering vast natural resources, and formulating democratic ideals. The stories in this book are honest interpretations of the human experience intertwined with the old and the new, and adding exciting dimensions to the county and Cleburne and the state of Arkansas. The objective of Carl J. Barger, the compiler of Cleburne County and Its People, is to preserve a history of the county of his birth for students, historians, and all of the citizens of Cleburne County. Carl J. Barger is the author of *Swords and Plowshares*, a Civil War love story, and *Mamie an Ozark Mountain Girl of Courage*, a story of the Ozark Mountain People set in Cleburne and Van Buren Counties. **The Baptismal Font Canopy of St. Peter Mancroft, Norwich** ,2023-10-16
 The early 16th century baptismal font canopy of the church of St. Peter Mancroft, Norwich, is one of only three such structures to survive anywhere in the British Isles. This study, inspired by the recent rediscovery of four attributable panels at the Philadelphia Museum of Art, offers a trans-temporal account of the canopy's initial creation and subsequent use, mutilation, and modification. Written by a team of scholars in art, architectural history, art conservation, heritage documentation, literary studies, and museum curation, it explores the installation's multiple artistic, ritual, and cultural contexts from late medieval and early modern Europe to modern-day North America. Contributors are Benjamin Baaske, Sarah Blick, Kate Duffy, Brent R. Fortenberry, Amy Gillette, Jack Hinton, Lesley Milner, Peggy Olley, Ellen K. Rentz, Behrooz Salimnejad, Zachary Stewart, Achim Timmermann, Charles Tracy, Kim Woods, and Lucy Wrapson. Researching Trust and Health Julie Brownlie, Alexandra Greene, Alexandra Howson,2008-05-16
 There is currently a lively debate ongoing in society about the nature of trust and the conditions necessary to establish and sustain it. Given the role of trust in bridging uncertainty, it is perhaps not surprising that as our consciousness of risk has increased, the role and nature of trust in social practices has come under growing scrutiny. These developments are particularly relevant to health because participation in health practices is arguably based on and engendered through trust. There is thus a need for empirically based research which intelligently unravels this complexity to support all stakeholders in the health arena. This multidisciplinary volume of work addresses this gap by contributing substantively to the exploration of trust in the experience, practice, and organization of health. It offers an overview of recent scholarship based on empirical research which explores the significance of trust in relation to key health-related issues. At the same time, this text examines conceptual themes in relation to trust more generally, including the relationship between trust and auditing, consent, expert knowledges,

and social capital **The Myth and Mystery of UFOs** Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune's website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don't such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard's wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard's study is a sky watcher's guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth
