Verbal Inspiration of the Bible and Its Scientific Accuracy John R. Rice,1943 Those who believe the Bible to be literally and infallibly the Word of God reliable and exactly true in every detail are in good company They agree with the great saints of God throughout the ages Those who have foolish theories about mistakes and inaccuracies in the Bible deny the very Word of God itself Either the Bible is what it claims to be the eternal and infallible and perfect Word of God or it is an imposture p 5

The Abyss in Revelation Edward Gudeman,2021-09-07

It is generally accepted that Revelation s heavenly scenes were intended to demonstrate that God continued to exercise his

control even when the audience's experience might suggest otherwise In *The Abyss in Revelation* Edward Gudeman argues that even though the scenes of the underworld and its inhabitants are describing reality from the opposite perspective they declare God's sovereignty and power in an equally powerful way Examining the motif and imagery of the abyss and the sea in Old Testament New Testament Greco Roman and Second Temple Jewish writings Gudeman identifies traditions that John appropriates in Revelation in order to create his unique vision of the abyss Gudeman shows that the abyss and related concepts in Revelation are variously envisioned as the abode of evil creatures the place from which they exit and a prison that holds them captive In all of this John consistently demonstrates that God is in control of the activity of Satan and demonic beings and that their destruction is both planned and certain Original and convincing this volume sheds light on Revelation's message about how God responds to evil and advances our understanding of several interpretive problems related to the abyss and its inhabitants Biblical scholars especially will benefit from Gudeman's research

The Bible and Science Eddie D. Leach, 2014-10-02 The author has been a Christian since his youth Upon discovering a love for science in grade school he pursued that interest throughout his entire life Sadly he found disagreement and conflict between the Christian only and Science only viewpoints Since he was both a Christian and a scientist he had to resolve in his mind these

differences for his own spiritual and scientific well being For more than sixty years he has carefully formulated the words and concepts in this book that he hopes and prays will help others reach an understanding that both the Bible and the discoveries in science are true and reconcilable God does not lie to us or mislead us God is responsible for both His Bible and His Creation Thus any conflicts we find in the study of these two revelations from God result from our inability to interpret and understand properly either one or the other or some of each To more fully understand God one must study both Gods words the Bible and the scientific discoveries of the footprints and fingerprints He left during the creation process that we are now able to find and interpret We must correlate His words and His works to more fully understand Him We must always be aware that our first impressions may not be entirely correct and that we must always continue to compare all our findings and interpretations with each other in an effort to seek and achieve the greater truth
