copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc The A to Z of Fantasy Literature Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites Ensouling Language Stephen Harrod Buhner, 2010-08-23 The first comprehensive work on nonfiction as an art form Shows how nonfiction especially how to and self help can take on the same power and luminosity as great fiction Develops processes to reliably induce the dreaming state from which all writing comes Teaches the skill of analogical thinking that is the core perceptual tool for writers Explores the subtle techniques of powerful writing from inducing associational dreaming in the reader to language symmetry sound patterning foreshadowing feeling flow and more Approaching writing as a sacred art Stephen Buhner explores the core of the craft the communication of deep meaning that feeds not just the mind but also the soul of the reader Tapping into the powerful archetypes within language he shows how to enrich your writing by following golden threads of inspiration while understanding the crucial invisibles essential to the art of both fiction and nonfiction how to craft language with feeling and vision employ altered states of mind to access the writing trance clear your work by recognizing the powerful sway of cliché thinking and hidden baggage and intentionally generate duende that physical emotional response to art that gives you chills opens up unrecognized aspects of reality or simply resonates in your soul Covering some very practical aspects of writing such as layering and word symmetry the author also explores the inner world of publishing what you really will encounter when you become a writer He then shows how to develop a powerful and engaging book proposal based on understanding the proposal as a work of fiction the map is never the territory nor is the proposal the book that it will become This book written using all the techniques discussed within it offers a powerful experiential journey into the heart of writing It does for nonfiction what John Gardner's books on writing

did for fiction It is one of the most significant works on writing published in our time *The People of the Pit and Other Stories* Abraham Merritt, 2016-11-28 *The People of the Pit and Other Stories* is a collection of Abraham Merritt's short stories and contains seven stories and two fragments These short stories span the entire career of the man who has been called America's foremost adventure fantasist of the 1920s and 30s Several of the tales boast the lush purple prose of Merritt's early period as seen especially in his first two novels *The Moon Pool* and *The Metal Monster* but all seven are finely written little gems They run the gamut from full blown fantasy to lost world adventure to outright science fiction and abundantly demonstrate that Merritt was a master of the concise short form as well as the full length novel *7 best short stories by Abraham Merritt* Abraham Merritt, August Nemo, 2020-05-14 Welcome to the 7 Best Short Stories book series where we present to you the best works of remarkable authors This edition is dedicated to A Merritt A Merritt was an American fantasist science fiction writer and journalist Most of his novels remained in print in both hardcover and paperback and in 1959 one of his publishers estimated that his books had at that time sold over four million copies In 1999 he was honored with a place in the Science Fiction Hall of Fame for his contribution to science fiction and fantasy This selection specially chosen by the literary critic August Nemo contains the following stories *The Pool Of The Stone God The Last Poet And The Robots The Fox Woman The People Of The Pit The Drone Through The Dragon Glass Three Lines Of Old French* If you appreciate good literature be sure to check out the other Tacet Books titles *Big Book of Best Short Stories: Volume 3* Robert Louis Stevenson, Robert E.
