The Fragile Entente The 1978 Japan China Peace Treaty In A Global Context:

The Fragile Entente Robert E Bedeski, 2020-01-17 Between early 1978 and late 1980 power relationships in the Pacific region underwent historic transformation Deng Xiaoping re emerging as a key leader in the People's Republic of China demonstrated pragmatism in domestic and foreign policy Beijing negotiated a Peace and Friendship Treaty with Japan apparently opening an era of Sino Japanese economic cooperation Moscow viewed this development with alarm fearing it would lead to a three way alliance including the United States Meanwhile Japan foreswore any military significance in closer links with the PRC but by succumbing to the Chinese demand for inclusion of a treaty clause denouncing Soviet hegemony became an involuntary participant in the Sino Soviet conflict In this environment the Sino Japanese treaty which might have been an innocuous footnote to postwar history became an event marking a new phase in East Asian affairs Dr Bedeski draws on Chinese Soviet and Japanese sources to clarify the relationships among the wide range of events ensuing from the treaty and points to its relevance to a new era of Sino Soviet relations The irony of the Peace and Friendship Treaty he concludes is that_it probably was a catalyst of insecurity and hostility in the region and that it became an important event leading to the participation of non Communist actors Japan the U S and NATO in the Sino Soviet conflict

The Golden Age of the U.S.-China-Japan Triangle, 1972-1989 Ezra F. Vogel, Ming Yuan, Akihiko Tanaka, 2020-03-23 A collaborative effort by scholars from the United States China and Japan this volume focuses on the period 1972 1989 during which all three countries brought together by a shared geopolitical strategy established mutual relations with one another despite differences in their histories values and perceptions of their own national interest Although each initially conceived of its political and security relations with the others in bilateral terms the three in fact came to form an economic and political triangle during the 1970s and 1980s But this triangle is a strange one whose dynamics are constantly changing Its corners the three countries and its sides the three bilateral relationships are unequal while its overall nature the capacity of the three to work together has varied considerably as the economic and strategic positions of the three have changed and post Cold War tensions and uncertainties have emerged

Politics in Japan's Relations with China Yew Meng Lai, 2013-08-22 Despite flourishing economic interactions and deepening interdependence the current political and diplomatic relationship between Japan and China remains lukewarm at best Indeed bilateral relations reached an unprecedented nadir during the spring of 2005 and again more recently in autumn 2012 as massive anti Japanese demonstrations across Chinese cities elicited corresponding incidents of popular anti Chinese reprisal in Japan This book systematically explores the complex dynamics that shape contemporary Japanese Chinese relations In particular it analyses the so called revival of nationalism in post Cold War Japan its causality in redefining Japan s external policy orientations and its impact on the atmosphere of the bilateral relationship Further by adopting a neoclassical realist model of state behaviour and preferences Lai Yew Meng examines two highly visible bilateral case studies the Japanese Chinese debacle over prime ministerial visits to Yasukuni Shrine and the multi dimensional dispute in the East China Sea which comprises the Senkaku Diaoyudao territorial row alleged Chinese maritime incursions and bilateral competition for energy resources Through these examples this book explores whether nationalism really matters when and under what circumstances nationalism becomes most salient and the extent to which the emotional dimensions of nationalism manifest most profoundly in Japanese state elites policy decision making This timely book will be of great interest to students and scholars of both Japanese and Chinese politics as well as those interested in international relations nationalism foreign policy and security studies more broadly

The State, Identity, and the National Question in China and Japan Germaine A. Hoston, 2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with

the Western democratic model Greater China and Japan Robert Taylor,2013-02-01 Contemporary relations between Greater China and Japan have been conditioned both by differing responses to the impact of Western colonialism during the mid nineteenth century and the legacy of the Cold War There are mutual suspicions the Chinese fear of a Japanese military revival and the Japanese concern over increasing Chinese economic competition and territorial ambitions Robert Taylor recognises the mistrust in Sino Japanese relations but also sees shared advantages in this traditionally adversarial relationship The Chinese are currently modelling their economic strategy on Japan s developmental experience even though China s policies and institutions have distinctive features and differing agendas The study also examines the growing momentum towards sub regional integration rivalry between Greater China and Japan is giving way to competition between regional economic blocks and corporate entities Greater China and Japan explores the ambiguous relationship between the two countries and states that its development is crucial to the future of the region in the twenty first century **Jap-rus**
