E. A. Gasc** Ferdinand E A. Gasc, 1869 *Cultural Encounters in Translated Children's Literature* Helen Frank, 2014-04-08 Cultural Encounters in Translated Children's Literature offers a detailed and innovative model of analysis for examining the complexities of translating children's literature and sheds light on the interpretive choices at work in moving texts from one culture to another The core of the study addresses the issue of how images of a nation locale or country are constructed in translated children's literature with the translation of Australian children's fiction into French serving as a case study Issues examined include the selection of books for translation the relationship between children's books and the national and international publishing industry the packaging of translations and the importance of titles blurbs and covers the linguistic and stylistic features specific to translating for children intertextual references the function of the translation in the target culture didactic and pedagogical aims euphemistic language and explicitation and literariness in translated texts The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback the antipodes the exotic the wild the unknown the void the end of the world the young and innocent nation and the Far West Contemporary signifiers that construct Australia as urban multicultural Aboriginal worldly and inharmonious are seriously under represented The study also shows that French translations are conventional conservative and didactic showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu especially through translated children's literature *1000 Years of Annoying the French* Stephen Clarke, 2012-03-20 The author of *A Year in the Merde* and *Talk to the Snail* offers a highly biased and hilarious view of French history in this international bestseller Things have been just a little awkward between Britain and France ever since the Norman invasion in

1066 Fortunately after years of humorously chronicling the vast cultural gap between the two countries author Stephen Clarke is perfectly positioned to investigate the historical origins of their occasionally hostile and perpetually entertaining pas de deux Clarke sets the record straight documenting how French braggarts and cheats have stolen credit rightfully due their neighbors across the Channel while blaming their own numerous gaffes and failures on those same innocent Brits for the past thousand years Deeply researched and written with the same sly wit that made *A Year in the Merde* a comic hit this lighthearted trip through the past millennium debunks the notion that the Battle of Hastings was a French victory William the Conqueror was really a Norman who hated the French and pooh poohs French outrage over Britain's murder of Joan of Arc it was the French who executed her for wearing trousers He also takes the air out of overblown Gallic claims challenging the provenance of everything from champagne to the guillotine to prove that the French would be nowhere without British ingenuity Brits and Anglophiles of every national origin will devour Clarke's decidedly biased accounts of British triumph and French ignominy But *1000 Years of Annoying the French* will also draw chuckles from good humored Francophiles as well as anyone who's ever encountered a snooty Parisian waiter or found themselves driving on the Boulevard Périphérique during August The Daily Mail A bestseller in Britain this is an entertaining look at history that fans of Sarah Vowell are sure to enjoy from the author the San Francisco Chronicle has called the anti-Mayle acerbic insulting un-PC and mostly hilarious

The Lost Children Tara Zahra, 2011-09-09 This impressive study charts the history of post WWII humanitarian relief demonstrating how the institutions of the family became politicized Library Journal During the Second World War an unprecedented number of families were torn apart As the Nazi empire crumbled millions roamed the continent in search of their loved ones The Lost Children tells the story of these families We see how the reconstruction of families quickly became synonymous with the survival of European civilization itself Based on original research in German French Czech Polish and American archives The Lost Children is a heartbreaking and mesmerizing story It brings together the histories of eastern and western Europe and traces the efforts of everyone from Jewish Holocaust survivors to German refugees from Communist officials to American social workers to rebuild the lives of displaced children It reveals that many seemingly timeless ideals of the family were actually conceived in the concentration camps orphanages and refugee camps of the Second World War and shows how the process of reconstruction shaped Cold War ideologies and ideas about childhood and national identity This riveting tale of families destroyed by war reverberates in the lost children of today's wars and in the compelling issues of international adoption human rights and humanitarianism and refugee policies Fascinating New Republic A superb book A wide ranging exceptionally well researched study Tablet Magazine Zahra's work is insightful in considering what treatment of lost children can tell us about broader developments in the post war period both in terms of how nations interacted with each other and how psychologists understood the impact of war on children Times Higher Education
