The Freud Scenario:

The Freud Scenario Jean-Paul Sartre, 2013-03-12 In 1958 the US director John Huston asked Jean Paul Sartre to write a scenario for a film about Sigmund Freud Huston wanted Sartre to concentrate on the conflict ridden period of Freud's life when he abandoned hypnosis and invented psychoanalysis The Freud Scenario discovered in Sartre's papers after his death is the result a deft portrait of a man engaged in a personal and intellectual struggle that would prove a turning point in twentieth century thought Sartre did not regard this script as a diversion from his larger intellectual project Freud s preoccupations with female hysteria and the father relationship touched on major themes in his own work and Loser Wins The Family Idiot and Words some of Sartre's most celebrated publications are all in some way derived from his work for Huston Written for a Hollywood audience The Freud Scenario demonstrates that in addition to a towering intellect Sartre enjoyed a genuine popular touch Already widely acclaimed in France The Freud Scenario stands as a valuable testament to two of the most influential minds in modern history **The Freud Scenario** David Herman, 1987 **Endless Night** Janet Bergstrom, 1999-06-30 On film theory and psychoanalysis The Philosopher's Autobiography Shlomit C. Schuster, 2003-01-30 Throughout the ages philosophers have examined their own lives in an attempt both to find some meaning and to explain the roots of their philosophical perspectives This volume is an introduction to philosophical autobiography a rich but hitherto ignored literary genre that questions the self its social context and existence in general The author analyzes representative narratives from antiquity to postmodernity focusing in particular on three case studies the autobiographies of St Augustine Rousseau and Sartre Through the study of these exemplary texts philosophical reflection on the self emerges as a valid alternative to Freudian psychoanalysis and as a way of promoting self renewal and change

Psychoanalysis and Cinema Vicky Lebeau, 2019-07-25. Lebeau examines the long and uneven history of developments in modern art science and technology that brought pychoanalysis and the cinema together towards the end of the nineteenth century. She explores the subsequent encounters between the two the seductions of psychoanalysis and cinema as converging though distinct ways of talking about dream and desire image and illusion shock and sexuality

Beginning with Freud's encounter with the spectacle of hysteria on display in fin de si cle Paris this study offers a detailed reading of the texts and concepts which generated the field of psychoanalytic film theory John Huston as Adaptor Douglas McFarland, Wesley King, 2017-01-28 John Huston as Adaptor makes the case that adaptation is the salient element in Huston's identity as a filmmaker and that his early and deep attraction to the experience of reading informed his approach to film adaptation Thirty four of Huston's thirty seven films were adaptations of literary texts and they stand as serious interpretations of literary works that could only be made by an astute reader of literature Indeed Huston asserted that a film director should be above all else a reader and that reading itself should be the intellectual and emotional basis for filmmaking The seventeen essays in this volume not only address Huston as an adaptor but also offer an approach to adaptation studies that has been largely overlooked How an adaptor reads the works to which he is drawn and how his literary interpretations can be brought to the screen without relegating film to a subservient role are some of the issues addressed by the contributors An introductory chapter identifies Huston as the quintessential Hollywood adaptor and argues that his skill at adaptation is the mark of his authorial signature The chapters that follow focus on fifteen of Huston's most important films including The Maltese Falcon 1941 The Treasure of the Sierra Madre 1948 The African Queen 1951 The Night of the Iguana 1964 Under the Volcano 1984 and The Dead 1987 and are divided into three areas aesthetics and textuality history and social context and theory and psychoanalysis By offering a more comprehensive account of the centrality of adaptation to Huston s films John Huston as Adaptor offers a greater understanding of Huston as a filmmaker

Apprehending the Inaccessible Richard Askay, Jensen Farquhar, 2006-01-27 Throughout history philosophers have relentlessly pursued what may be called inaccessible domains This book explores how the traditions of existential phenomenology relate to Freudian psychoanalysis A clear succinct and systematic account of the philosophical presuppositions of psychoanalytic theory and practice this work offers a deeper and richer understanding and appreciation of Freudian thought as well as its antecedents and influences With its unique perspective on Freud s work Apprehending the Inaccessible puts readers in a better position to appreciate his contributions and evaluate the relationship between his and other philosophical world views The authors both of whom have extensive backgrounds in philosophy and psychology present balanced critical analyses of crucial developments in for example the evolution of the Freudian notion of the unconscious and the engagement of existential phenomenology with Freudian psychoanalysis Askay and Farquhar then consider often for the first time individual thinkers reflections on and interpretations of Freud ranging from the primary figures in existential phenomenology to the most prominent figures in the existential psychoanalytic movement Even as their work offers a new approach to Freudian thought it reasserts the importance of alternative views found in existential phenomenology as those views pertain to psychoanalysis and the question of apprehending the inaccessible Occultism and the Origins of Psychoanalysis Maria Pierri, 2022-11-30 Occultism and the Origins of Psychoanalysis traces the origins of key psychoanalytic

ideas back to their roots in hypnosis and the occult Maria Pierri follows Freud's early interest in thought transmission now known as telepathy Freud's private investigations led to discussions with other leading figures like Carl Jung and S ndor Ferenczi with whom he held a dialogue of the unconsciouses Freud's and Ferenczi's work assessed how fortune tellers could read the past from a client inspiring their investigations into countertransference the analytic relationship unconscious communication and mother infant relationality Both Freud and Ferenczi tried in different ways to come close to understanding the infant's occult link with the mother and their secret primal language their research on thought transference may be identified as a matrix of the developments of current psychoanalysis Pierri clearly links modern psychoanalytic practice with Freud's interests in the occult using primary sources some of which have never previously been published in English Occultism and the Origins of Psychoanalysis will be of great interest to psychoanalysts in practice and in training as well as academics and scholars of Freudian ideas psychoanalytic theory the history of psychology and the occult It is complemented by Sigmund Freud and The Forsyth Case Coincidences and Thought Transmission in Psychoanalysis

Scenarios of the Imaginary Josue V. Harari, 2019-06-30 From Proust to Beckett from Blanchot to Derrida from Freud to Lacan and from L vi Strauss to Ren Girard all of our theories of modernity have been predicated upon a nostalgia for the real In this lively and perceptive diagnosis of the malaise of contemporary theorists Josu Harari interprets the French Enlightenment in terms of the relationship between theory and the imaginary and explores the paradox by which theories that purport to describe the real lack any dimension of reality Through readings of texts by some of the progenitors of influential modem theories Harari explores the working strategies of the imaginary In particular he illuminates the founding moment an instant of personal crisis for the author during which a theory is infused by a fictional scenario Montesquieu s phantasm of the body resulting in his theory of government Rousseau's narcissistic delirium in Emile resulting in his theory of education the theory of psychoanalysis resulting from Freud's unconscious motives for choosing the Oedipal theory over the seduction theory of neurosis and the theory of structural anthropology generated by a psychodrama in Tristes Tropiques which Harari reads as a symptom of L vi Strauss s anguish when he is confronted with reality Two striking chapters on Sade at the center of the book reveal the operation of the theoretical imaginary in libertine discourse Scenarios of the Imaginary will find a wide audience among students and scholars of French literature particularly of the eighteenth century and of contemporary French thought and among comparativists literary theorists anthropologists and historians **Sartre and the Jewish Question** Jonathan Judaken, 2006-12-01 Examines the image of the Jew in Sartre's work to rethink not only his oeuvre but also the role of the intellectual in France and the politics and ethics of existentialism This book explores how French identity is defined through the abstraction and allegorization of the Jew Subterranean Politics and Freud's Legacy A. upon Sartre's work as well as her own experiences as a practicing therapist she shows that Sartre was a fellow traveler who appreciated Freud's psychoanalytic achievements but rebelled against the determinism of his metatheory. The mind Sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud's work suggested Sartre advocated an existentialist psychoanalysis based on human freedom and the self's ability to reshape its own meaning and value Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs By comparing Sartre with Freud and influential post Freudians like Melanie Klein Otto Kernber Margaret Mahler D W Winnicott Heinz Kohut Harry Stack Sullivan and Jacques Lacan she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory In the process she adds a new dimension to our understanding of Sartre and his place in twentieth century philosophy At the Existentialist Café Sarah Bakewell, 2016-03-01 Named one of the Ten Best Books of 2016 by the New York Times a spirited account of a major intellectual movement of the twentieth century and the revolutionary thinkers who came to shape it by the best selling author of How to Live Sarah Bakewell Paris 1933 three contemporaries meet over apricot cocktails at the Bec de Gaz bar on the rue Montparnasse They are the young Jean Paul Sartre Simone de Beauvoir and longtime friend Raymond Aron a fellow philosopher who raves to them about a new conceptual framework from Berlin called Phenomenology You see he says if you are a phenomenologist you can talk about this cocktail and make philosophy out of it It was this simple phrase that would ignite a movement inspiring Sartre to integrate Phenomenology into his own French humanistic sensibility thereby creating an entirely new philosophical approach inspired by themes of radical freedom authentic being and political activism This movement would sweep through the jazz clubs and caf s of the Left Bank before making its way across the world as Existentialism Featuring not only philosophers but also playwrights anthropologists convicts and revolutionaries At the Existentialist Caf follows the existentialists story from the first rebellious spark through the Second World War to its role in postwar liberation movements such as anti colonialism feminism and gay rights Interweaving biography and philosophy it is the epic account of passionate encounters fights love affairs mentorships rebellions and long partnerships and a vital investigation into what the existentialists have to offer us today at a moment when we are once again confronting the major questions of freedom global responsibility and human authenticity in a fractious and technology driven world InterMedia in South Asia Rajinder Dudrah, Sangita Gopal, Amit Rai, Anustup Basu, 2013-09-13 The emergence of new media today in South Asia has signalled an event the meaning of which remains obscure but whose reality is rapidly evolving along gradients of intensity and experience Contemporary media in and from South Asia have come to sense a new arrangement of value sensation and force new forms of becoming that might be usefully termed as media ecologies This evolution from nation based forms of communication Doordarshan All India Radio the national feudal romance to simultaneous global ones conform and mutate the structures of feeling of local national diasporic and transnational belonging This collection of original essays

Eshleman, Constance L. Mui, 2020-01-24 Jean Paul Sartre was one of the most important philosophers of the twentieth century His influence extends beyond academic philosophy to areas as diverse as anti colonial movements youth culture literary criticism and artistic developments around the world Beginning with an introduction and biography of Jean Paul Sartre by Matthew C Eshleman 42 chapters by a team of international contributors cover all the major aspects of Sartre's thought in the following key areas Sartre's philosophical and historical context Sartre and phenomenology Sartre existentialism and ontology Sartre and ethics Sartre and political theory Aesthetics literature and biography Sartre s engagements with other thinkers The Sartrean Mind is the most comprehensive collection on Sartre published to date It is essential reading for students and researchers in philosophy as well as for those in related disciplines where Sartre's work has continuing importance such as literature French studies and politics The Bounds of Reason Emilia Steuerman, 2003-05-20 The Bounds of Reason Habermas Lyotard Melanie Klein on Rationality is a highly original yet accessible study of the debate between modernity and postmodernity Emilia Steuerman clearly explains the modernity postmodernity dispute by examining the problem that has driven the whole debate whether the use of reason is an emancipatory or enslaving force Steuerman clearly sets out this debate by critically examining the arguments of two of its key proponents Jurgen Habermas and Jean Fran ois Lyotard She clearly explains Habermas defence of modernity and his attempt to salvage Enlightenment ideas of truth justice and freedom through the use of reason She contrasts this with Lyotard s postmodernism and his scepticism about the use of reason and its claims to universalism and objectivity Throughout Steuerman contrasts the Habermas Lyotard debate with important insights from psychoanalytic theory and shows how Habermas notions of intersubjectivity and a community of shared language users can be compared and contrasted with Melanie Klein's theory of object relations
