The Frightened Hare:

The Frightened Hare Franklin Russell, Fredric Sweney, 1965 A year in the life of a hare illustrating all the threats to his survival that he must be prepared to avoid **Protecting Nature with Buddha's Wisdom** S. N. Seo, 2024-07-05

Illustrating an insightful contrast between modern scientific and economic approaches and the Buddhist viewpoint this book examines key environmental issues such as species protection pollution natural resource use and global climate change Through a comprehensive explanation of the pertinent Buddhist philosophy and eleven Buddhist instruments it unpacks the rich intellectual resources relating to modern environmental and nature studies that have been treasured in the Buddhist Canons and commentaries for thousands of years This book provides a rare opportunity to reflect on the ongoing climate crisis using a time tested thought system **Heera Watson and the Rise of the Dark King** Kam Verdee, 2016-12-21

Heera Watson is like any ordinary fifteen year old girl not Torn between the British way of life and her Indian heritage she s the target of catty comments at school in Birmingham from Laura Foster the It girl at St Claire s and her gang Heera is constantly pressured at school to look and dress in certain ways but all she has ever wanted is to be herself Her journey to becoming the person she really wants to be starts when she finds three sacred crystals in a safe at home This discovery puts thousands of lives in danger and catapults Heera into a mind blowing quest through the magical kingdom of Fallowmere There forging new friendships with people and creatures she never imagined could exist Heera bravely confronts deadly challenges to save her loved ones from the devious Dark King who will stop at nothing to carry out his evil schemes Heera Watson and the Rise of the Dark King is a wonderfully imaginative tale of courage friendship battle and what it means to face your true destiny **"Murphy"** Ernest Gambier-Parry, 1912 **The Way of the Hare** Marianne Taylor, 2017-06-15

An exploration of the relationship between humans and the charismatic and elusive hare To the people of rural Britain hares are deeply beloved perhaps above all other animals They thrive in abundance in imagery but can be maddeningly elusive in reality In our stories ancient and modern they are magical uncanny and illogical beings which commune with the moon vanish at will and lose their minds when spring arrives Yet despite the breadth and depth of its legends the brown hare of the lowlands is a relative newcomer to our islands and our real ancient hare is the mountain hare of the most unforgiving high mountainsides Hares of myth have godly powers but real earthbound hares walk a dangerous line they are small animals with many predators but have no burrow or tunnel to shelter them from danger They survive by a combination of two skills honed to unimaginable extremes hiding in plain sight and running faster than anything and anyone The need to excel as hiders and runners ultimately directs every aspect of hare biology and behaviour as well as inspiring our own wild ideas about hare kind This book explores hares as they are and as we imagine them and the long and often bloody history of our association with these enigmatic animals Elegant studies of molecular biology and biomechanical physics help us understand how hares are put together while centuries of game estate records reveal how humans have commodified and exploited them But it is

ultimately the moments spent in the company of wild hares that allow us to bring together myth and reality to celebrate the magic of the living animal Under the dog-star, by Austin Clare Austin Clare, Wilhelmina Martha James, 1895

guide from a beloved meditation teacher The mind can be a potent tool used to guide extraordinary achievements inspire good works and incline your spiritual path toward peace and awakening But the mind can also produce thoughts that lead to suffering For many people thoughts run rampant and seem to oppress or control their lives Even the Buddha tells us that before his enlightenment he sometimes found his mind preoccupied by thoughts connected with sensual desire ill will and harm But he figured out how to respond to thoughts skillfully and developed a step by step approach to calm the restless mind Now Insight Meditation teacher Shaila Catherine offers an accessible approach to training the mind that is guided by the Buddha's pragmatic instructions on removing distracting thoughts Drawing on two scriptures in the Middle Length Discourses of the Buddha Shaila shows you how to overcome habitual modes of thinking develop deeper concentration and discover the insights into emptiness that are vital for a liberating spiritual path Following the Buddha's pragmatic approach Shaila guides you through five steps for overcoming distraction and focusing the mind

- 1 Replace unwholesome thoughts with wholesome thoughts For example if you find yourself thinking thoughts of ill will toward a person try thinking instead of their good qualities as an antidote
- 2 Examine the dangers of distracting thoughts Weigh the costs of allowing thoughts of ill will lust greed and so forth to obsess your mind The costs of dwelling on distracting thoughts nearly always outweigh any supposed benefits
- 3 Avoid it ignore it forget it Develop the skill to turn your attention away from habitual distractions Remove the fuel and let the fires of distraction die out
- 4 Investigate the causes of distraction By understanding the conditions that perpetuate habitual thoughts you can learn to free yourself from those patterns
- 5 Apply determination and resolve Supported by wisdom you can make a firm decision to stop dwelling on patterns of thought that are not supporting your deepest values and goals in life

Each chapter includes exercises and reflections to help you cultivate the five steps to deeper concentration You'll learn about your mind and develop your ability to direct your attention more skillfully in meditation and daily activities And ultimately you'll discover for yourself how these five steps boil down to one key realization In the moment you recognize that a thought is just a thought you will find yourself on the path to a life of remarkable freedom
