The Future of American Strategy David C. Hendrickson, 1987      *The Future of U.S. Strategy in the Balkans*, 2001

*American Strategy: Issues and Alternatives For the Quadrennial Defense Review* Steven Metz, 2022      *The Future of US Warfare* Scott N. Romaniuk, Francis Grice, 2017-03-31 This book provides an interdisciplinary analysis of the future of US warfare including its military practices and the domestic and global challenges it faces The need to undertake a comprehensive analysis about the future of warfare for the US is more pressing today than ever before New technologies and adversaries both old and new have the potential to revolutionize how wars are fought and it is imperative that policy makers military planners and scholars engage with the latest analyses regarding these new threats and weapon systems The primary aim of this book is to provide a clear and comprehensive depiction of the types of conflict that the United States is likely to become involved with in the future as well as the methods of warfare that it may employ within these struggles While a number of scholarly books have previously considered some of the potential features of US warfare in the future many of these writings are either outdated or have limited their focus to just one or two of the main types of warfare that may occur and omitted consideration of the others This book intends to remedy this deficiency in the literature The volume consists of thematic chapters which address the key issues relevant to the future of US warfare including cyber warfare asymmetric conflicts drone warfare and nuclear strategy Through the provision of a series of analyses by leading international academics the volume provides an important interdisciplinary examination of the different areas of warfare that the United States is expected to use or encounter in the future This book will be of great interest to students of US foreign policy military studies strategic studies and International Relations in general      The Future of U.S. Foreign Policy United States. Congress.

House. Committee on Foreign Affairs, 1993      **Iraq and the Evolution of American Strategy** Steven Metz, 2008 Today the U S military is more nimble mobile and focused on rapid responses against smaller powers than ever before One could argue that the Gulf War and the postwar standoff with Saddam Hussein hastened needed military transformation and strategic reassessments in the post Cold War era But the preoccupation with Iraq also mired the United States in the Middle East and led to a bloody occupation What will American strategy look like after U S troops leave Iraq Iraq and the Evolution of American Strategy examines the ways in which the Gulf War the WMD standoff the Iraq War and the ongoing occupation have driven broader changes in U S national security policy and military strategy Steven Metz answers three overarching questions 1 How did the conflict with Iraq drive and shape broader changes in national security and military strategy 2 Did policymakers and military leaders interpret the conflict correctly and make the most effective responses 3 What does this process tell us about the process of change in America s national security and military strategy and in the evolution of its strategic culture Metz concludes that the United States has a long standing continuing problem developing sound assumptions when the opponent operates within a different psychological and cultural framework He sees a pattern of

misjudgments about Saddam and Iraq based on Western cultural and historical bias and a pervasive faith in the superiority of America's worldview and institutions. This myopia contributed to America being caught off guard by Saddam's invasion of Kuwait in 1990, then underestimating his longevity and finally miscalculating the likelihood of a stable and democratic Iraq after he was toppled. With lessons for all readers concerned about America's role in the world, Dr Metz's important new work will especially appeal to scholars and students of strategy and international security studies as well as to military professionals and DOD civilians. With a foreword by Colin S Gray      **The Future** ,1993      American Strategy in Vietnam

Harry G Summers, 2012-04-19 A politico-military assessment of the Vietnam War analyzing the U.S. Army's strategic and tactical ideologies. Particularly relevant today, it stresses the futility of any military action without the full support of the people      **Averting Crisis: American Strategy, Military Spending and Collective Defence in the Indo-Pacific** Ashley Townshend, Brendan Thomas-Noone, Matilda Steward, 2019-08-19 America no longer enjoys military primacy in the Indo-Pacific and its capacity to uphold a favourable balance of power is increasingly uncertain. The combined effect of ongoing wars in the Middle East, budget austerity, underinvestment in advanced military capabilities and the scale of America's liberal order building agenda has left the US armed forces ill-prepared for great power competition in the Indo-Pacific. America's 2018 National Defense Strategy aims to address this crisis of strategic insolvency by tasking the Joint Force to prepare for one great power war rather than multiple smaller conflicts and urging the military to prioritise requirements for deterrence vis-à-vis China. Chinese counter-intervention systems have undermined America's ability to project power into the Indo-Pacific, raising the risk that China could use limited force to achieve a *fait accompli* victory before America can respond and challenging US security guarantees in the process. For America denying this kind of aggression places a premium on advanced military assets, enhanced posture arrangements, new operational concepts and other costly changes. While the Pentagon is trying to focus on these challenges, an outdated superpower mindset in the foreign policy establishment is likely to limit Washington's ability to scale back other global commitments or make the strategic trade-offs required to succeed in the Indo-Pacific. Over the next decade, the US defence budget is unlikely to meet the needs of the National Defense Strategy owing to a combination of political, fiscal and internal pressures. The US defence budget has been subjected to nearly a decade of delayed and unpredictable funding. Repeated failures by Congress to pass regular and sustained budgets have hindered the Pentagon's ability to effectively allocate resources and plan over the long term. Growing partisanship and ideological polarisation within and between both major parties in Congress will make consensus on federal spending priorities hard to achieve. Lawmakers are likely to continue reaching political compromises over America's national defence at the expense of its strategic objectives. America faces growing deficits and rising levels of public debt, and political action to rectify these challenges has so far been sluggish. If current trends persist, a shrinking portion of the federal budget will be available for defence, constraining budget top lines into the future. Above-inflation growth in key accounts within the defence

budget such as operations and maintenance will leave the Pentagon with fewer resources to grow the military and acquire new weapons systems Every year it becomes more expensive to maintain the same sized military America has an atrophying force that is not sufficiently ready equipped or postured for great power competition in the Indo Pacific a challenge it is working hard to address Twenty years of near continuous combat and budget instability has eroded the readiness of key elements in the US Air Force Navy Army and Marine Corps Military accidents have risen aging equipment is being used beyond its lifespan and training has been cut Some readiness levels across the Joint Force are improving but structural challenges remain Military platforms built in the 1980s are becoming harder and more costly to maintain while many systems designed for great power conflict were curtailed in the 2000s to make way for the force requirements of Middle Eastern wars leading to stretched capacity and overuse The military is beginning to field and experiment with next generation capabilities But the deferment or cancellation of new weapons programs over the last few decades has created a backlog of simultaneous modernisation priorities that will likely outstrip budget capacity Many US and allied operating bases in the Indo Pacific are exposed to possible Chinese missile attack and lack hardened infrastructure Forward deployed munitions and supplies are not set to wartime requirements and concerningly America s logistics capability has steeply declined New operational concepts and novel capabilities are being tested in the Indo Pacific with an eye towards denying and blunting Chinese aggression Some services like the Marine Corps plan extensive reforms away from counterinsurgency and towards sea control and denial A strategy of collective defence is fast becoming necessary as a way of offsetting shortfalls in America s regional military power and holding the line against rising Chinese strength To advance this approach Australia should Pursue capability aggregation and collective deterrence with capable regional allies and partners including the United States and Japan Reform US Australia alliance coordination mechanisms to focus on strengthening regional deterrence objectives Rebalance Australian defence resources from the Middle East to the Indo Pacific Establish new and expand existing high end military exercises with allies and partners to develop and demonstrate new operational concepts for Indo Pacific contingencies Acquire robust land based strike and denial capabilities Improve regional posture infrastructure and networked logistics including in northern Australia Increase stockpiles and create sovereign capabilities in the storage and production of precision munitions fuel and other materiel necessary for sustained high end conflict Establish an Indo Pacific Security Workshop to drive US allied joint operational concept development Advance joint experimental research and development projects aimed at improving the cost capability curve

*Refining American Strategy in Africa , The New US Strategy towards Asia* William T Tow, Douglas Stuart, 2014-12-17 Barack Obama s rebalancing or pivot strategy intended to demonstrate continued US commitment to the Asia Pacific region in a variety of military economic and diplomatic contexts was launched with much fanfare in 2011 Implicit in the new strategy is both a focus on China engagement with and containment of and a heavy reliance by the United States on its existing friends and allies in the region in order to implement

its strategy This book explores the impact of the new strategy on America's regional friends and allies It shows how these governments are working with Washington to advance and protect their distinct national interests while at the same time avoiding any direct confrontation with China It also addresses the reasons why many of these regional actors harbour concerns about the ability of the US to sustain the pivot strategy in the long run Overall the book illustrates the deep complexities of the United States exercise of power and influence in the region

**Streamlining U. S. Strategy for the Sequester Era** Nikolas Gvosdev, 2013-02-28 Whether the U S defense budget is cut through sequestration or more thoughtfully planned measures U S strategy and America's defense posture will be dramatically impacted over the coming decade by reduced spending on defense and national security Whether in rebalancing America's strategic focus to the Asia Pacific region realigning the force structure of the armed forces especially the U S Army pursuing counterterrorism and other security priorities and seeking contributions from allies and partners American policymakers can no longer ignore cost and budgetary constraints when it comes to shaping U S strategy and rightsizing America's global security role

Recalibrating U.S. Strategy toward Russia Kathleen H. Hicks, Lisa Sawyer Samp, 2017-04-12 These are turbulent times for American foreign policy Nowhere are the challenges facing the United States more evident than in U S policy toward Russia Drawing on scholars across several disciplines and perspectives CSIS conducted a year long study that sought to achieve two goals First to provide policymakers with a clearer understanding of Russia's strategic motivations and objectives along with the tools it uses to advance its goals Second to lay out a comprehensive strategy to secure U S and transatlantic interests in the face of the complex Russia challenge set

A US Strategy for the Asia-Pacific Douglas T. Stuart, William T. Tow, 2013-09-13 First Published in 2005 This is Adelphi Paper 299 and discusses a strategy for the United States of America for the continued stability of the Asia Pacific region Looking at ways in which the US dominated system of Asia Pacific security that evolved during the Cold War must be fundamentally transformed to determine its security in the future

U.S. Strategy for Pakistan and Afghanistan Richard Lee Armitage, Samuel R. Berger, Daniel Seth Markey, 2010 The Council on Foreign Relations sponsors Independent Task Forces to assess issues of current and critical importance to U S foreign policy and provide policymakers with concrete judgments and recommendations Diverse in backgrounds and perspectives Task Force members aim to reach a meaningful consensus on policy through private and non partisan deliberations Once launched Task Forces are independent of CFR and solely responsible for the content of their reports Task Force members are asked to join a consensus signifying that they endorse the general policy thrust and judgments reached by the group though not necessarily every finding and recommendation Each Task Force member also has the option of putting forward an additional or a dissenting view Members affiliations are listed for identification purposes only and do not imply institutional

endorsement Task Force observers participate in discussions but are not asked to join the consensus Book Jacket

**The Russian View of U.S. Strategy** Jonathan Samuel Lockwood, 2017-09-04 Soviet perceptions of U S strategy remained remarkably consistent from the post Stalin period through the collapse of communism in Eastern Europe and the Soviet Union itself The consistency of the Soviet tendency to engage in the mirror image fallacy in their analyses of U S doctrine and strategic intentions has profound implications for the future relationship of the U S and the now independent republics This authoritative volume analyzes the Soviet Russian perspectives of U S strategic evolution from the declaration of the massive retaliation doctrine of 1954 through the Soviet collapse of 1991 The Soviets considered the growth of their strategic nuclear arsenal as the main factor giving them political leverage over U S foreign policy and predicted that a defense policy based on strategic defense would be the most effective deterrent from a Soviet perspective Now the Russian military and political leadership places a high value on strategic nuclear forces in terms of political leverage and prestige Building upon a wide variety of international sources the Lockwoods offer a penetrating assessment of how the present Russian perspective will affect political relationships not only with the U S and the West but also among the independent republics This factor will become ever more critical as they vie for decentralized versus unified control of what was the Soviet nuclear arsenal under the shadow of the collapsing economies The authors also introduce a new theory concerning the future impact of ballistic missile defense on operational warfare in light of the U S experience in Operation Desert Storm The Russian View of U S Strategy provides a comprehensive historical context and an up to date appraisal of an uncertain and potentially volatile development in U S Russian relations It will be of interest to historians policymakers and military analysts

**NATO Expansion and US Strategy in Asia** H. Gardner, 2013-11-12 Surmounting the Global Crisis critiques the impact of NATO enlargement and the US pivot to Asia on both the Russia and China and examines how these dual US backed policies may influence key countries in the Euro Atlantic wider Middle East and Indo Pacific regions in general

**Future Survey Annual 1988-1989** Michael Marien, Lane Jennings, 1990-01-01 BMW Z cars have carved a huge reputation for themselves in a very short time From the revolutionary and innovative Z1 of the late 1980s to the beautiful and exclusive Z8 of more recent times via the popular Z3 and its controversial replacement the Z4 the family has made BMW s name in the increasingly competitive sports car market
