Is Democracy a Lost Cause? Alfio Mastropaolo,2024-08-22 Is Democracy a Lost Cause explores the current debate on democracy It starts by discussing the meaning of democracy and how the understanding of this important political concept has either broadened or contracted depending on changing political circumstances Mastropaolo then poses the question of what it means for democracy to be the government of the people He deals with the way in which democratic government has been affected by changes in the fabric of society by the evolution of democratic theory itself and by the transformations affecting the state and political parties Political class and citizens attitudes towards democratic politics increasingly characterised by resentment and often taking the form of an anti politics are analysed in the concluding chapters The World We Want Robert B. Loudon,2010-03-16 The World We Want compares the future world that Enlightenment intellectuals had hoped for with our own world at present In what respects do the two worlds differ and why are they so different To what extent is and isn't our world the world they wanted and to what extent do we today still want their world Unlike previous philosophical critiques and defenses of the Enlightenment the present study focuses extensively on the relevant historical and empirical record first by examining carefully what kind of future Enlightenment intellectuals actually hoped for second by tracking the different legacies of their central ideals over the past two centuries But in addition to documenting the significant gap that still exists between Enlightenment ideals and current realities the author also attempts to show why the ideals of the Enlightenment still elude us What does our own experience tell us about the appropriateness of these ideals Which Enlightenment ideals do not fit with human nature Why is meaningful support for these ideals particularly within the US so weak at present Which of the means that Enlightenment intellectuals advocated for realizing their ideals are inefficacious Which of their ideals have devolved into distorted versions of themselves when attempts have been made to realize them How and why after more than two centuries have we still failed to realize the most significant Enlightenment

ideals In short what is dead and what is living in these ideals

The Friendly Liquidation of the Past Donna Lee Van Cott, 2012-02-15 Constitutional reform has been one of the most significant aspects of democratization in late twentieth century Latin America In *The Friendly Liquidation of the Past* one of the first texts to examine this issue comprehensively Van Cott focuses on the efforts of Bolivia and Colombia to incorporate ethnic rights into their fragile democracies In the 1990s political leaders and social movements in Bolivia and Colombia expressed dissatisfaction with the quality of democracy its exclusionary nature the distance and illegitimacy of the state and the empty promise of citizenship The highly symbolic act of constitution making elevated a public struggle for rights to the level of a discussion on the meaning of democracy and the nature of the state Based on interviews with more than 100 participants in the reforms Van Cott demonstrates how issues promoted by social movements recognizing ethnic diversity expanding political participation and improving representation and creating spheres of cultural and territorial autonomy were placed on the constitutional reform agenda and transformed through strategic interaction with political power brokers into the nation's highest law The analysis follows each reform through five years of implementation to assess the early results of what Van Cott suggests is an emerging regional model of multicultural constitutionalism *The Friendly Liquidation of the Past* fills an important gap in the study of ethnic politics and constitutional reform in the Andes linking the literature on institutions and political reform to work in political theory on participatory democracy and multiculturalism

Max Weber's Theory of the Modern State A. Anter, 2014-02-19 Andreas Anter reconstructs Max Weber's theory of the modern state showing its significance to contemporary political science He reveals the ambivalence of Weber's political thought the oscillation between an statist position mainly oriented to the reason of state and an individualistic one focussed on the freedom of individuals

The Antiegalitarian Mutation Nadia Urbinati, Arturo Zampaglione, 2016-08-23 The twin crises of immigration and mass migration brought new urgency to the balance of power between progressive humanitarian groups and their populist opponents In the United States and many European countries the outcome of this struggle is uncertain with a high chance that the public will elect more politicians who support an agenda of nativism and privatization

The Antiegalitarian Mutation makes a forceful case that those seeking to limit citizenship and participation political or otherwise have co-opted democracy. Political and legal institutions are failing to temper the interests of people with economic power against the needs of the many, leading to an unsustainable rise in income inequality and a new oligarchy rapidly assuming broad social control. For Nadia Urbinati and Arturo Zampaglione, this insupportable state of affairs is not an inevitable outcome of robust capitalism but rather the result of an ideological war waged against social democracy by the neoliberal governments of Reagan, Thatcher, and others. These giants of free market fundamentalism secured power through legitimate political means, and only by taking back our political institutions can we remedy the social ills that threaten to unmake our world. That, according to *The Antiegalitarian Mutation*, is democracy's challenge and its ongoing promise. *The Tyranny of the Moderns* Nadia Urbinati, 2015-01-01

In a well-reasoned and thought-provoking polemic, respected political theorist Nadia Urbinati explores a profound shift in the ideology of individualism from the ethical nineteenth-century standard in which each person cooperates with others as equals for the betterment of their lives and the community to the contemporary "I don't give a damn" maxim. Identifying this tyranny of the moderns as the most radical risk that modern democracy currently faces, the author examines the critical necessity of reestablishing the role of the individual citizen as a free and equal agent of democratic society. **Black Student Politics, Higher Education and Apartheid** Saleem Badat, 1999

Black Student Politics: Higher Education and Apartheid examines two black national student political organisations: the South African National Students Congress (SANSCO) and the South African Students Organisation (SASO), popularly associated with Black Consciousness. It analyses the ideologies, politics, and organisation of SASO and SANSCO and their intellectual, political, and social determinants. It also analyses their role in the educational, political, and social spheres and the factors that shaped their activities. Finally, it assesses their contributions to the popular struggle against apartheid education as well as against race, class, and gender oppression. *Black Student Politics* Saleem Badat, 2002. Humer, Claire Seungeun Lee, Veronika Nagy, 2024-09-16

Covering a wide range of different online platforms, including social media sites and chatrooms, this volume is a comprehensive exploration of the current state of sociological and criminological scholarship focused on online deviance. Understanding deviance broadly, the handbook acknowledges both an objective, normative approach and a subjective, reactivist approach to the topic, putting into sharp relief the distinctions between cybercrime and online deviance on the one hand and wider concerns of online communities related to online deviance on the other. Divided into five sections, the first section is devoted primarily to scholarship about the theories and methods foundational to exploring online deviance. The second section, Gender, Sex, and Sexuality, presents empirical research on expressions of gender, sex, and sexuality in online spaces considered deviant. The third section, Violence and Aggression, highlights scholarship on types of violent communications such as hate speech and

cyberstalking The fourth section Communities and Culture describes empirical research on online communities and networks that can be described as deviant by wider society Lastly the fifth section Regional Perspectives highlights research in which a terrestrial location is impactful to the online phenomena studied Providing a window into future scholarship over the next several years and acknowledging the ephemeral nature of research on digital technology The Routledge International Handbook on Online Deviance is essential reading for students and scholars of Criminology and Sociology focused on deviant online behaviour It will also appeal to those working in related areas within Internet Digital Studies Media Communication Studies Psychology and Cybersecurity
