

The Flora Homoeopathica

This book presents illustrations and descriptions of 66 medicinal plants used as homeopathic remedies. The aim of this book is to give a rational answer to opponents of the homeopathic system of medicine who believe that medicinal plants used for preparing homeopathic remedies were different from those which were used in old school and are of highly poisonous nature and therefore deleterious to the humans. Both a botany book and a materia medica, it has information about the symptomatology of poisonings and records of cases where the plant was used. The book contains magnificent hand coloured illustrations.
