Interactive Healthcare 97 Conference Presentation Summaries Scott Alan Stewart, 1997-08-01 Contains 33 presentations from the 1997 Interactive Healthcare Conference Topics include an introduction to the Internet design development and evaluation of multimedia programs developing markets funding sources and real world applications The Practical Library Manager Ruth C Carter, Bruce E Massis, 2013-04-15 Examine the nuts and bolts of successful management in today's rapidly evolving libraries This book is an essential primer for new library managers and directors In addition to providing an overview of the practical aspects of management it is a vital reference tool for managing your library and its staff The Practical Library Manager's informative text and comprehensive bibliographies of print and electronic resources can guide you to solutions to the issues that every fledgling library manager must deal with upon appointment While there are many publications on library management The Practical Library Manager is one of very few to focus on the practical issues of staffing and the importance of continuous staff training Also unlike other books on the subject this book features a chapter that points you to relevant management texts originally written for the corporate world rather than the library profession The Practical Library Manager is the perfect single source to help you understand the challenges of staffing your library and training your staff explore new technology's impact on library workers and evaluate training programs to help them keep up ensure that your staff has the core competencies they'll need in the current climate build a virtual library decide whether your library should join a consortium and much more In the words of the author Today the most successful libraries in the country are those addressing the needs of both external and internal customers However it takes more than technology to change the working relationship between the institution and its customer The guiding force for change must include a strong and respectful relationship between the library manager and staff Much of what is written in this book can assist the fledgling manager in creating an environment of trust teamwork and respect *Writing Grant Proposals That Win* Phale D. Hale, 1999-10 This bestseller keeps getting better The author gives you step by step instructions and clear examples of how to write winning grant proposals **Rural Health Services Funding**, 1997 **American Foundations** Helmut K. Anheier, David C. Hammack, 2010-09-01 Foundations play an essential part in the philanthropic activity that defines so much of American life No other nation provides its foundations with so much autonomy and freedom of action as does the United States Liberated both from the daily discipline of the market and from direct control by government American foundations understandably attract great attention As David Hammack and Helmut Anheier note in this volume Americans have criticized foundations for their alleged conservatism liberalism elitism radicalism devotion to religious tradition hostility to religion in short for commitments to causes whose significance can be measured in part by the controversies they provoke Americans have also criticized foundations for ineffectiveness and even foolishness Their size alone conveys some sense of the significance of American foundations whose assets amounted to over 530 billion in 2008 despite a dramatic decline of almost

22 percent in the previous year And in 2008 foundation grants totaled over 45 billion But what roles have foundations actually played over time and what distinctive roles do they fill today How have they shaped American society how much difference do they make What roles are foundations likely to play in the future This comprehensive volume the product of a three year project supported by the Aspen Institute's program on the Nonprofit Sector and Philanthropy provides the most thorough effort ever to assess the impact and significance of the nation's large foundations In it leading researchers explore how foundations have shaped or failed to shape each of the key fields of foundation work American Foundations takes the reader on a wide ranging tour evaluating foundation efforts in education scientific and medical research health care social welfare international relations arts and culture religion and social change

Statistical Abstract of the United States, 1999 **Exporting Press Freedom** Craig LaMay, 2017-07-12 International media assistance is a small but important form of international democracy promotion aid Media assistance boomed after the 1989 transitions in Central Europe but now flows to virtually all regions of the world Today the media assistance industry is focused on the problem of sustainability How are free and independent public affairs media supposed to maintain their editorial mission while facing hostile political systems or the demands of the consumer marketplace Many media in developing countries have been or are grant dependent When grants are exhausted or withdrawn media that were funded to further democratic consolidation typically wither and die Some become mere grant chasers Others abandon public service to the demands of market competition or political patronage As a result governmental and non governmental grant makers now emphasize the need for sustainability in considering grants in the media sector Many grant recipients have grown frustrated sometimes bitter and have sought to take a much more active role in the way assistance programs are put together Just how is sustainability to be achieved while also ensuring a public service editorial mission Exporting Press Freedom examines the history and practice of media assistance and argues that the dilemma of media independence and sustainability is best understood as an economic problem rather than one of poor editorial standards or lack of will It includes profiles of news and public affairs media in developing and democratizing countries and also of two non governmental organizations that have pioneered the use of low interest loans in media assistance These profiles exemplify strategic and entrepreneurial approaches to developing and

supporting public service media Such approaches may be of use not only in the developing world but in the consolidated Western democracies as well where concern has grown about poor journalistic performance and its consequences f

The Research Funding Guidebook Joanne B. Ries, Carl G. Leukefeld, 1998 Although the landscape of research funding is continually changing over the past several years one feature has remained consistent people who are young in their careers are expected to take on not only the responsibility of applying for external funding but are also required to get it manage it and renew it in order to keep their research programs projects and careers viable The Research Funding Guidebook begins at the point many grant seekers can identify with rejection Part I emphasizes how to resubmit unfunded applications to make them more competitive The material contained in this section is invaluable especially since funding sources are now limiting the number of times the same application can be resubmitted Part II goes on to highlight the practical issues of a project after funding has been obtained Here the authors provide a map of the people and places that must become part of a researcher's daily and weekly routine The guidance provided in this part of the book includes a checklist that can be used to aid the newly funded investigator's progress Time management an essential but often overlooked feature of research funding is also dealt with in this section The subjects of other sections of this volume include the small business aspects of maintaining funding for a project and the process of targeting continued funding by determining the next fundable step of a project This is a hands on guide that will never be far from the reach of those using it Topics like what to include in a project proposal tips for competitive writing and how to select funding sources are easily accessed In addition helpful checklists and samples are provided along the way These practical features and the comprehensive up to date information presented make The Research Funding Guidebook an indispensable reference for new and experienced investigators alike Anyone interested in research funding in any academic discipline will find this book useful *Fundraising Basics* Barbara L. Ciconte, Jeanne G. Jacob, 2005 This primer helps new fund raisers learn the basics from the vocabulary of fund raising to the nuances of major trends affecting nonprofit fundraising today With up to date case studies and real life examples this practical guide will provide an overview of the field and give development staff managers

and directors a platform from which to operate their fund raising programs This guide is a musthave for anyone new to the fund raising arena *Effective Fund-Raising Management* Kathleen S. Kelly, 2012-12-06 In a ground breaking departure from existing works almost all of which are how to manuals based on anecdotal evidence this is the first academic textbook on fund raising By integrating practical knowledge with social science theory and research it presents a comprehensive approach to the function from its legal and ethical principles to the managerial process by which gifts are raised Territory previously uncharted in the literature is explored such as the historical and organizational contexts of contemporary practice Explanations of programs techniques and publics introduce a new system for understanding fund raising s major concepts Unlike efforts in established fields most of the material represents original scholarship undertaken to produce a first time text The book s main purpose is to teach students about fund raising a high demand high paying occupation that will continue to expand into the 21st century as the need for trained practitioners exceeds the supply During the last decade fund raising education moved into the formal classroom and away from an apprenticeship tradition of senior practitioners mentoring newcomers Yet until now there has not been a textbook to support this evolving professionalism Faculty have been reluctant to define fund raising as an academic subject in the absence of a theory based teaching resource and courses usually have been assigned to part time instructors hired from the practice This textbook addresses the void It is designed for graduate and upper level undergraduate courses dealing with fund raising as a primary or secondary subject Among its features each chapter points out research gaps and opportunities such as problems and theories for master s theses and doctoral dissertations and ends with a list of suggested readings The text is appropriate for the diverse academic areas in which fund raising nonprofit management and philanthropy are taught including public administration management arts and humanities education social work economics and sociology Because of its public relations orientation it is particularly suited for courses offered in that discipline Additional audiences are practitioners enrolled in professional development programs CEOs trustees and others interested in self study and scholars who need serious literature on the subject **The State of Nonprofit America** Lester M. Salamon, 2004-05-13 A Brookings Institution Press and the Aspen Institute publication The thousands of organizations that comprise America s private nonprofit sector represent a national treasure Yet serious pressures are altering the playing field on which nonprofits operate and many are responding in ways that may undermine their popular support Despite the significance of these developments little has been done to analyze and interpret them in a clear and understandable way Lester M Salamon a leading authority on the nonprofit sector has joined forces with more than a dozen other experts and the Aspen Institute to produce this volume an integrated authoritative assessment of the state of nonprofit America and the key trends affecting its evolution The book is organized into three sections The first summarizes critical trends and issues the second examines each of the sector s major subsectors e g health education social services arts and culture international assistance advocacy the third focuses on major cross cutting trends and issues commercialization

changing government policy accountability and demographic and technological imperatives The Resilient Sector will be updated every two years It provides a basic sourcebook for sector leaders the press public officials and citizens concerned about the future of America's nonprofit sector and eager to understand the forces affecting it **Effectively Managing Human Service Organizations** Ralph Brody, 2005 Now in its Third Edition Effectively Managing Human Service Organizations continues to provide invaluable advice for achieving managerial success Ralph Brody dissects and diagnoses common workplace dilemmas arming practicing managers with the skills to implement positive changes in their organizations While retaining much of the valuable information from the previous editions the Third Edition adds up to date information and ideas to chapters on developing leadership planning strategically solving organizational problems addressing challenging employee situations monitoring financial statements improving internal and external communications and obtaining funding from private foundations Easy to read the book contains hundreds of real life examples and specific guidance in developing skills necessary to manage large and small organizations Counselor's Connection, 1998
