**Willard Sterne Randall**

## **The Founders:**

The Founders Unmasked Jennifer Sabin, 2022-02-15 Its power to spark important conversations should not be underestimated Booklist A powerful series that fills in the cracks and illuminates the shadows of the past Sherri L Smith award winning author of *Flygirl* Jennifer Sabin does a concise coherent job of breaking down complicated material an important title for students and an immensely useful resource for educators School Library Connection With material presented chronologically and in straightforward language with text embedded glossaries brief profiles of key players numerous quotes and sidebars and fresh details that help readers grasp nuances and understand consequences the conversation tone is inviting and encourages thoughtful reflection Booklist Introducing a new nonfiction series for the next generation of activists uncovering the hidden history of The United States through an anti racist lens The true story of the men and women surrounding the founding of America In the summer of 1776 when Thomas Jefferson arrived in Philadelphia to sign the Declaration of Independence declaring that all men are created equal he wasn't alone With him was Robert Hemings just one of the many Black people Jefferson enslaved But who was Robert Hemings Discover his story and the true history of those who really helped build America Featuring riveting interviews with historians including Margaret Kimberley author of *Prejudential Black America* and the Presidents **The Founders and the Classics** Carl J. Richard, 1995-08-11 The influence of Greek and Roman authors on our American forefathers finally becomes clear in this fascinating book the first comprehensive study of the founders classical reading *The Founders* David M. Crane, Leila N. Satat, Michael P. Scharf, 2018-03-15 Focuses on the four individuals who created the world's first international tribunals and how they sought justice for millions of victims **The Founders** Jimmy Soni, 2022-02-22 NAMED A BEST BOOK OF 2022 BY THE NEW YORKER National Bestseller New York Times Editors Choice Financial Times Books to Read in 2022 A SABEW BEST IN BUSINESS BOOK AWARDS FINALIST A gripping account of PayPal's origins and a vivid portrait of the geeks and contrarians who made its meteoric rise possible The Wall Street Journal including Elon Musk Amy Rowe Klement Peter Thiel Julie Anderson Max Levchin Reid Hoffman and many others whose stories have never been shared Today PayPal's founders and earliest employees are considered the technology industry's most powerful network Since leaving PayPal they have formed funded and advised the leading companies of our era including Tesla Facebook YouTube SpaceX Yelp Palantir and LinkedIn among many others As a group they have driven twenty first century innovation and entrepreneurship Their names stir passions they're as controversial as they are admired Yet for all their influence the story of where they first started has gone largely untold Before igniting the commercial space race or jumpstarting social media's rise they were the unknown creators of a scrappy online payments start up called PayPal In building what became one of the world's foremost companies they faced bruising competition internal strife the emergence of widespread online fraud and the devastating dot com bust of the 2000s Their success was anything but certain

In *The Founders: The Story of PayPal and the Entrepreneurs Who Shaped Silicon Valley*, award-winning author and biographer Jimmy Soni explores PayPal's turbulent early days. With hundreds of interviews and unprecedented access to thousands of pages of internal material, he shows how the seeds of so much of what shapes our world today—fast scaling, digital start-ups, cashless currency, concepts, mobile money transfer—were planted two decades ago. He also reveals the stories of countless individuals who were left out of the front-page features and banner headlines but who were central to PayPal's success. Described as an intensely magnetic chronicle, *The New York Times* and engrossing *Business Insider*, *The Founders* is a story of iteration and inventiveness, the products of which have cast a long and powerful shadow over modern life. This narrative illustrates how this rare assemblage of talent came to work together and how their collaboration changed our world forever.

**The Founders of Child Neurology** Stephen Ashwal, 1990

**Beyond the Founders** Jeffrey L. Pasley, Andrew Whitmore, Robertson, David Waldstreicher, 2004

In pursuit of a more sophisticated and inclusive American history, the contributors to *Beyond the Founders* propose new directions for the study of the political history of the republic before 1830. In ways formal and informal, symbolic and tactile.

The Founders and Editors of the Barye Bronzes J. G. Reinis, Antoine-Louis Barye, 2007

*The Founders and the Idea of a National University* George Thomas, 2015

Constituting the American Mind is about early efforts to establish a national university and what those efforts say about the nature and logic of American Constitutionalism. This book offers the first in-depth study of the efforts to establish a national university from a constitutional perspective. While mostly noted in passing, the national university was put forward by every president from Washington to John Quincy Adams as a necessary supplement to the formal institutions of government; it would help constitute the American mind in a manner that carried forward the ideas the constitution rested on, including, for example, the separation of the civic from the theological.

Legacy of the Founders Nicki Verploegen, 2012-08-30

In this helpful and insightful book, Nicki Verploegen delves into the two thousand years of history of the Catholic Church in order to unfold the development of spiritualities in Christianity. Verploegen explores how four distinct types of Christian spirituality evolved and rose to prominence in its religious, social, and political environments: monasticism, mendicancy, apostolic ministry, and missionary life. All of them became schools of spiritual formation which gave rise to the development of numerous religious communities. This book is also an exploration of thirteen of these distinct communities and introduces the reader to the spiritual men and women who initiated the religious movements and founded them.

**Fighting Over the Founders** Andrew M. Schocket, 2017-02

Explores how politicians, screenwriters, activists, biographers, jurists, museum professionals, and reenactors portray the American Revolution. The American Revolution is all around us. It is pictured as big as billboards and as small as postage stamps, evoked in political campaigns and car advertising campaigns, relived in museums and revised in computer games. As the nation's founding moment, the American Revolution serves as a source of powerful founding myths and remains the most accessible and most contested event in US history; more than any other, it stands as a proxy for how

Americans perceive the nation's aspirations Americans increased fascination with the Revolution over the past two decades represents more than interest in the past It's also a site to work out the present and the future What are we using the Revolution to debate In *Fighting over the Founders* Andrew M Schocket explores how politicians screenwriters activists biographers jurists museum professionals and reenactors portray the American Revolution Identifying competing essentialist and organicist interpretations of the American Revolution Schocket shows how today's memories of the American Revolution reveal Americans conflicted ideas about class about race and about gender as well as the nature of history itself *Fighting over the Founders* plumbs our views of the past and the present and illuminates our ideas of what United States means to its citizens in the new millennium *The Founders at Home: The Building of America, 1735-1817* Myron Magnet, 2013-11-11

Why the American Revolution of all the great revolutions was the only enduring success Through the Founders' own voices and in the homes they designed and built to embody the ideal of domestic happiness they fought to achieve we come to understand why the American Revolution of all great revolutions was the only enduring success The Founders were vivid energetic men with sophisticated worldviews and this magnificent reckoning of their successes draws liberally from their own eloquent writings on their actions and well considered intentions Richly illustrated with America's historical and architectural treasures this volume also considers the houses the Founders built with such care and money to reflect their vision for the fledgling nation That so many great thinkers Washington Madison Hamilton Jefferson John Jay the Lees of Stratford Hall and polemicist William Livingston came together to accomplish what rightly seemed to them almost a miracle is a standing historical mystery best understood by pondering the men themselves and their profound and world changing ideas Through impressive research and an intimate understanding of these iconic patriots award winning author Myron Magnet offers fresh insight into why the American experiment resulted in over two centuries of unexampled freedom and prosperity *The Founders* Dennis B. Fradin, 2005 *LIVES OF THE FOUNDERS, AUGMENTORS, AND OTHER BENEFACTORS, OF THE BRITISH MUSEUM* EDWARD EDWARDS, 1869 *The Founders on God and Government* Daniel L. Dreisbach, Mark D. Hall, Jeffrey H. Morrison, 2004-10-08

In *God We Trust* The separation of church and state is a widely contested topic in the American political arena Whether for or against debaters frequently base their arguments in the Constitution and the principles of the American founding However Americans' perception of the founding has narrowed greatly over the years focusing on a handful of eminent statesmen By exploring the work of nine founding fathers including often overlooked figures like John Carroll and George Mason *The Founders on God and Government* provides a more complete picture of America's origins The contributors all noted scholars examine the lives of individual founders and investigate the relationship between their religious beliefs and political thought Bringing together original documents and analytical essays this book is an excellent addition to the library of literature on the founding and sheds new light on religion's contributions to American civic culture **Faith and the Founders of the American Republic** Daniel L. Dreisbach, Mark

David Hall, 2014-03-18 The role of religion in the founding of America has long been a hotly debated question Some historians have regarded the views of a few famous founders such as Benjamin Franklin Thomas Jefferson James Madison and Thomas Paine as evidence that the founders were deists who advocated the strict separation of church and state Popular Christian polemicists on the other hand have attempted to show that virtually all of the founders were pious Christians in favor of public support for religion As the essays in this volume demonstrate a diverse array of religious traditions informed the political culture of the American founding Faith and the Founders of the American Republic includes studies both of minority faiths such as Islam and Judaism and of major traditions like Calvinism It also includes nuanced analysis of specific founders Quaker fellow traveler John Dickinson prominent Baptists Isaac Backus and John Leland and Theistic Rationalist Gouverneur Morris among others with attention to their personal histories faiths constitutional philosophies and views on the relationship between religion and the state This volume will be a crucial resource for anyone interested in the place of faith in the founding of the American constitutional republic from political religious historical and legal perspectives *The Founders' Fortunes* Willard Sterne Randall, 2025-01-14 An illuminating financial history of the Founding Fathers revealing how their personal finances shaped the Constitution and the new nation In 1776 upon the signing of the Declaration of Independence the Founding Fathers concluded America's most consequential document with a curious note pledging our lives our fortunes and our sacred honor Lives and honor did indeed hang in the balance yet just what were their fortunes How much did the Founders stand to gain or lose through independence And what lingering consequences did their respective financial stakes have on liberty justice and the fate of the fledgling United States of America In this landmark account historian Willard Sterne Randall investigates the private financial affairs of the Founders illuminating like never before how and why the Revolution came about *The Founders' Fortunes* uncovers how these leaders waged war crafted a constitution and forged a new nation influenced in part by their own financial interests In an era where these very issues have become daily national questions the result is a remarkable and insightful new understanding of our nation's bedrock values *The Founder's Mentality* Chris Zook, James Allen, 2016-05-17 A Washington Post Bestseller Three Principles for Managing and Avoiding the Problems of Growth Why is profitable growth so hard to achieve and sustain Most executives manage their companies as if the solution to that problem lies in the external environment find an attractive market formulate the right strategy win new customers But when Bain Company's Chris Zook and James Allen authors of the bestselling *Profit from the Core* researched this question they found that when companies fail to achieve their growth targets 90 percent of the time the root causes are internal not external increasing distance from the front lines loss of accountability proliferating processes and bureaucracy to name only a few What's more companies experience a set of predictable internal crises at predictable stages as they grow Even for healthy companies these crises if not managed properly stifle the ability to grow further and can actively lead to decline The key insight from Zook and Allen's research is that managing these choke points requires a founder's mentality

behaviors typically embodied by a bold ambitious founder to restore speed focus and connection to customers An insurgent s clear mission and purpose An unambiguous owner mindset A relentless obsession with the front line Based on the authors decade long study of companies in more than forty countries The Founder s Mentality demonstrates the strong relationship between these three traits in companies of all kinds not just start ups and their ability to sustain performance Through rich analysis and inspiring examples this book shows how any leader not only a founder can instill and leverage a founder s mentality throughout their organization and find lasting profitable growth *In Defense of the Founders Republic* Lonce H. Bailey,Jerome M. Mileur,2015-03-12 Who were the Progressive reformers arguing with The answer might surprise you Drawing together a veritable powerhouse of scholars from across the political spectrum In Defense of the Founders Republic examines the historical roots of these critics as well as their potential contribution to current debates about government and role of politics and institutions in our constitutional republic Profiles and debates across a variety of progressive era dissenters including politicians community activists political scientists and socialists create a more complete picture of the national conversation and the development of this monumental American political era With clear contemporary relevance In Defense of the Founders Republic is required reading for anyone interested in the complete progressive debate **The Founders** Charles Knowles Bolton,1926 *Entrepreneurship in Family Business* Henry X Shi,2014-02-20 This book presents an excellent analysis of how a family business is different from other forms of organization and especially its peculiarities in relation to entrepreneurship Focusing on small and medium sized second generation Chinese family businesses this book provides an in depth analysis on the relationship between the firms family attributes or familiness as conceptualized in this book and entrepreneurial processes which leads to different outcomes Eight cases from China are presented in this book and a dual level approach is proposed for research on entrepreneurship in family businesses emphasising both firm processes and the role of individual owner managers Readers will also find several useful policy and practice oriented perspectives in this book

## **The Founders** Book Review: Unveiling the Power of Words
