Using Key Passages to Understand Literature, Theory and Criticism Barry Laga, 2018-09-21. Using Key Passages to Understand Literature, Theory and Criticism is a completely fresh and innovative approach to teaching and learning literary theory, using short passages of theory to make sense of literary and cultural texts. It focuses on the key concepts that help readers understand literature and cultural events in new and provocative ways. Covering a wide variety of iconic and contemporary theorists, the book offers a broad chronological and global overview, including thirty passages from theorists such as Viktor Shklovsky, Roland Barthes, Judith Butler, Diana Fuss, Jean Baudrillard, Kwame Anthony Appiah, Michel Foucault, Monique Wittig, and Eve Sedgwick. Built on the premise that scholars use theory pragmatically, Using Key Passages to Understand Literature, Theory and Criticism identifies problems, puzzles, and questions readers may encounter when they read a story, watch a film, or look at artwork. It explains in detail thirty concepts that help readers make sense of these works and invites students to apply the concepts to a range of writing and research projects. The textbook concludes by helping students read theory with an eye on finding productive passages and writing their own theory, chapter signaling a shift from student as critic to student as theorist. Used as a main text in introductory theory courses or as a supplement to any literature, film, theater, or art course, this book helps students read closely and think critically.

The Moral Economies of American Authorship Susan M. Ryan (Ph. D.), 2016. The Moral Economies of American Authorship argues that the moral character of authors became a kind of literary property within mid-nineteenth-century America's expanding print marketplace, shaping the construction, promotion, and reception of texts as well as of literary reputations. Using a wide range of printed materials—prefaces, dedications, and other paratexts as well as book reviews, advertisements, and editorials that appeared in the era's magazines and newspapers—The Moral Economies of American Authorship recovers and analyzes the circulation of authors' moral currency, attending not only to the marketing of apparently ironclad status but also to the period's not infrequent author scandals and ensuing attempts at recuperation. These preoccupations prove to be more than a historical curiosity; they prefigure the complex, if often disavowed, interdependence of authorial character and literary value in contemporary scholarship and pedagogy. Combining broad investigations into the marketing and reception of books with case studies that analyze the construction and repair of particular authors' reputations—e.g., James Fenimore Cooper, Mary Prince, Elizabeth Keckley, Frederick Douglass, Harriet

Beecher Stowe and E D E N Southworth the book constructs a genealogy of the field s investments in and uses of authorial character In the nineteenth century s deployment of moral character as a signal element in the marketing reception and canonization of books and authors we see how biography both vexed and created literary status adumbrating our own preoccupations while demonstrating how malleable and how recuperable moral authority could be

**The Cambridge History of African American Literature** Maryemma Graham, Jerry W. Ward, Jr, 2011-02-03 The first major twenty first century history of four hundred years of black writing The Cambridge History of African American Literature presents a comprehensive overview of the literary traditions oral and print of African descended peoples in the United States Expert contributors drawn from the United States and beyond emphasise the dual nature of each text discussed as a work of art created by an individual and as a response to unfolding events in American cultural political and social history Unprecedented in scope sophistication and accessibility the volume draws together current scholarship in the field It also looks ahead to suggest new approaches new areas of study and as yet undervalued writers and works The Cambridge History of African American Literature is a major achievement both as a work of reference and as a compelling narrative and will remain essential reading for scholars and students in years to come

**The Claims of Experience** Nolan Bennett, 2019-08-21 Why have so many figures throughout American history proclaimed their life stories when confronted by great political problems The Claims of Experience provides a new theory for what makes autobiography political throughout the history of the United States and today Across five chapters Nolan Bennett examines the democratic challenges that encouraged a diverse cast of figures to bear their stories Benjamin Franklin amid the revolutionary era Frederick Douglass in the antebellum and abolitionist movements Henry Adams in the Gilded Age and its anxieties of industrial change Emma Goldman among the first Red Scare and state opposition to radical speech and Whittaker Chambers amid the second Red Scare that initiated the anticommunist turn of modern conservatism These historical figures made what Bennett calls a claim of experience By proclaiming their life stories these authors took back authority over their experiences from prevailing political powers and called to new community among their audiences Their claims sought to restore to readers the power to remake and make meaning of their own lives Whereas political theorists and activists have often seen autobiography to be too individualist or a mere documentary source of evidence this theory reveals the democratic power that life narratives have offered those on the margins and in the mainstream If they are successful claims of experience summon new popular authority to surpass what their authors see as

the injustices of prevailing American institutions and identity Bennett shows through historical study and theorization how this renewed appreciation for the politics of life writing elevates these authors distinct democratic visions while drawing common themes across them This book offers both a method for understanding the politics of life narrative and a call to anticipate claims of experience as they appear today      **Encyclopedia of Life Writing** Margaretta Jolly,2013-12-04 First published in 2001 Routledge is an imprint of Taylor Francis an informa company

Reading the Canon Philipp Löffler,2017-03-02 Reading the Canon explores the relation between the production of literary value and the problem of periodization tracing how literary tastes particular reader communities and sites of literary learning shape the organization of literature in historical perspective Rather than suggesting a political critique of the canon this book shows that the production of literary relevance and its tacit hierarchies of value are necessary consequences of how reading and writing are organized as social practices within different fields of literary activity Reading the Canon offers a comprehensive theoretical account of the conundrums still defining contemporary debates about literary value the book also features a series of historically inflected author studies from classics such as Shakespeare and Thomas Pynchon to less likely figures such as John Neal and Owen Johnson that illustrate how the idea of literary relevance has been appropriated throughout history and across a variety of national and transnational literary institutions

**To Set This World Right** Sandra Harbert Petrulionis,2018-07-05 In the decade before the Civil War Concord Massachusetts was a center of abolitionist sentiment and activism To Set this World Right is the first book to recover and examine the voices events and influence of the antebellum antislavery movement in Concord In addressing fundamental questions about the origin and nature of radical abolitionism in this most American of towns Sandra Harbert Petrulionis frames the antislavery ideology of Henry Thoreau and Ralph Waldo Emerson two of Concord s most famous residents as a product of family and community

activism and presents the civic context in which their outspoken abolitionism evolved In this historic locale radical abolitionism crossed racial class and gender lines as a confederation of neighbors fomented a radical consciousness and Petrulionis documents how the Thoreaus Emersons and Alcotts worked in tandem with others in their community including a slaveowner s daughter and a former slave Additionally she examines the basis on which Henry Thoreau who cherished nothing more than solitary tramps through his beloved woods and bogs has achieved lasting fame as a militant abolitionist This book marshals rich archival evidence of the diverse tactics exploited by a small coterie of committed activists largely women who provoked their famous neighbors to action In Concord the fugitive slave Shadrach Minkins was clothed and fed as he made his way to freedom In Concord the adolescent daughters of John Brown attended school and recovered from their emotional distress after their father s notorious public hanging Although most residents of the town maintained a practiced detachment from the plight of the enslaved women and men whose sole objective was the moral urgency of abolishing slavery at last prevailed on the philosophers of self culture to accept the responsibility of their reputations Asian Americans and the Spirit of Racial Capitalism Jonathan Tran,2022 Any serious consideration of Asian American life forces us to reframe the way we talk about racism and antiracism There are two contemporary approaches to antiracist theory and practice The first emphasizes racial identity to the exclusion of political economy making racialized life in America illegible This approach s prevalence in the academy and beyond now rises to the level of established doctrine The second approach views racial identity as the function of a particular political economy what is called racial capitalism and therefore analytically subordinates racial identity to political economy Jonathan Tran develops arguments in favor of this second approach He does so by means of an extended analysis of two case studies a Chinese migrant settlement in the Mississippi Delta 1868 1969 and the Redeemer Community Church in the Bayview Hunters Point section of San Francisco 1969 present While his analysis is focused on particular groups and persons he uses it to examine more broadly racial capitalism s processes and commitments at the sites of their structural and systemic unfolding In pursuing a research agenda that pushes beyond the narrow confines of racial identity Tran reaches back to trusted modes of analysis that have been obscured by the prevailing antiracist orthodoxy and proposes reframing antiracism in terms of a theologically salient account of political economy *First Pure, Then Peaceable* Margaret Aymer,Margaret P.
