**The Future of Democracy in Africa** Kwame A. Insaadoo, 2023-08-23 Can Democracy survive in Africa and if it does what will be the future of democracy in Africa in a world that is increasingly characterized by a wave of authoritarianism spearheaded by Vladimir Putin s Russia Xi Jinping s China and their minions That Russia is the citadel of authoritarianism is evidenced by Russia s unprovoked brutal attack on the independent sovereign nation of Ukraine with an ostensible motive of depriving the citizens of Ukraine of their democratic rights and imposing dictatorship on the good people of Ukraine If democracy freedom and liberty is to survive in any part of Africa then all African nations should unanimously join the free nations to vehemently condemn Vladimir Putin s unprovoked brutal invasion of Ukraine and the carnage it has wrought on the innocent children women and men of the nation Furthermore freedom loving African nations must simultaneously send an unambiguous message to Xi Jinping the Communist

leader of China to desist from imposing autocracy on the peace loving democratic society of Taiwan For many years African nations have been impoverished and oppressed by puppet regimes in Africa imposed from outside the continent who did and continue to do the bidding of their foreign masters African leaders know or must know that Vladimir Putin s invasion of Ukraine is to play a similar high stakes game of installing a puppet regime that Moscow can easily manipulate to the detriment of the vast majority of Ukrainians Putin is pursuing a similar pernicious policy in Africa to install puppet regimes and extend his autocratic values in Central Africa Mali Burkina Faso Sudan Eritrea Equatorial Guinea Angola and others The future of democracy in Africa hinges in part on Putin exploiting the so called Russia Africa Summit to circumvent Africa s march to consolidate democracy and freedom on the continent Africa s freedom lovers should seek to pressure Vladimir Putin to unilaterally abandon his brutal and merciless invasion of an unprovoked sovereign state of Ukraine or else should refuse to be a party to the so called Russia Africa Summit *House documents* ,1895 Convict Criminology for the Future Jeffrey Ian Ross,Francesca Vianello,2020-11-10 Bringing together a variety of diverse international contributors from the Convict Criminology community Convict Criminology for the Future surveys the historical roots of Convict Criminology the current challenges experienced by formerly incarcerated people and future directions for the field Over the past two decades research has been conducted in the field of Convict Criminology recognizing that the convict voice has long been ignored or marginalized in academia criminal justice practice and public policy debates This edited volume provides a much needed update on the state of the field and how it has evolved Seven primary themes are examined Historical underpinnings of Convict Criminology Adaptations to prison life Longstanding challenges for prisoners and formerly incarcerated people Post secondary education behind bars The expansion of Convict Criminology beyond North America Conducting scholarly research in carceral settings Future directions in Convict Criminology A global line up of contributors from the fields of Criminology Criminal Justice Law Political Science and Sociology comprehensively tackle each topic reviewing causes reactions and solutions to challenges The volume also includes a chronology of significant events in the history of Convict Criminology Integrating current events with research using a variety of methods in scholarly analysis Convict Criminology for the Future is invaluable reading for students and scholars of corrections criminology criminal justice law and sociology

**The Future of Punishment** Thomas Nadelhoffer,2013-04-25 The twelve essays in this volume aim at providing philosophers neuroscientists psychologists and legal theorists with an opportunity to examine the cluster of related issues that will need to be addressed as scholars struggle to come to grips with the picture of human agency being pieced together by researchers in the biosciences *The Politics of Prison Crowding* Simone Santorso,2023-02-14 The Politics of Prison Crowding investigates recent transformations in Italy s penal system to make the key analytical observation that conditions of overcrowding have become the new normal under which the modern prison system continues to operate and deliver punishment Engaging with the politics of crowding thus entails a direct and pertinent engagement with the modern state s

politics of criminal justice and social control Worldwide over the last decades a growing number of jurisdictions have prison systems operating above or to the limit of their capacity yet little attention has been paid to these elements in the analysis of prison politics and day to day functions By exploring the crowding issue this book offers an original and interesting insight into the politics and dynamics characterising contemporary prison systems The hypothesis of this book is that the politics of prison crowding have become the template for the daily administration of the prison system which incorporates not just policy and rules but day to day functions and practices regulating life behind bars Through interviews in modern Italian prisons the book brings to light a radical redefinition of a carceral system that harshens the delivery of punishment while justifying this exacerbation of pain by adding new bureaucratic logic to the administration of the penal system within a narrative of compliance to human rights standards By shedding new light on prison politics to open new critical perspectives and research paths *The Politics of Prison Crowding* offers a fundamental tool to scholars students and all professional policymakers and practitioners dealing with prison policies and the politics of justice

### **The Scale of Imprisonment**

Franklin E. Zimring, Gordon J. Hawkins, Gordon Hawkins, 1993-09 Two of the nation's foremost criminal justice scholars present a comprehensive assessment of the factors behind the growth and subsequent overcrowding of American prisons By critiquing the existing scholarship on prison scale from sociology and history to correctional forecasting and economics they both reveal that explicit policy changes have had little influence on the increases in imprisonment in recent years and analyze whether it is possible to place limits effectively on prison population *The Scale of Imprisonment* has an exceptionally well designed literature review of interest to public policy criminal justice and public law scholars Its careful review analysis and critique of research is stimulating and inventive *American Political Science Review* The authors frame our thoughts about the soaring use of imprisonment and stimulate our thinking about the best way we as criminologists can conduct rational analysis and provide meaningful advice Susan Guarino Ghezzi *Journal of Quantitative Criminology* Zimring and Hawkins bring a long tradition of excellent criminological scholarship to the seemingly intractable problems of prisons prison overcrowding and the need for alternative forms of punishment J C Watkins Jr *Choice*

*Connecting Expertise Multidisciplinary Development For The Future* Seven Publicações, *The Future of Correctional Rehabilitation* Ronen Ziv, 2017-08-23 In the aftermath of Martinson's 1974 'nothing works' doctrine scholars have made a concerted effort to develop an evidence based corrections theory and practice to show what works to change offenders Perhaps the most important contribution to this effort was made by a group of Canadian psychologists most notably Donald Andrews James Bonta and Paul Gendreau who developed a treatment paradigm called the Risk Need Responsivity RNR model which became the dominant theory of correctional treatment This approach was more recently challenged by a perspective developed by Tony Ward Shadd Maruna and others called the Good Lives Model GLM Based in part on desistance research and positive psychology this model proposes to rehabilitate offenders by building on the strengths offenders possess GLM proponents see the RNR model as a deficit model

that fixes dynamic risk factors rather than identifying what offenders value most and using these positive factors to pull them out of crime Through a detailed examination of both models theoretical and correctional frameworks The Future of Correctional Rehabilitation Moving Beyond the RNR Model and Good Lives Model Debate probes the extent to which the models offer incompatible or compatible approaches to offender treatment and suggests how to integrate the RNR and GLM approaches to build a new and hopefully more effective vision for offender treatment A foreword by renowned criminologist Francis T Cullen helps put the material into context This book will be of much interest to scholars and students studying correctional rehabilitation as well as practitioners working with offenders **Future Survey Annual 1992** Michael

Marien,1993-01-30 The Insidious Momentum of American Mass Incarceration Franklin E. Zimring,2020-09-03 The phenomenal growth of penal confinement in the United States in the last quarter of the twentieth century is still a public policy mystery While there is unanimous condemnation of the practice there is no consensus on the causes nor any persuasive analysis of what is likely to happen in the coming decades In The Insidious Momentum of American Mass Incarceration Franklin E Zimring seeks a comprehensive understanding of when how and why the United States became the world leader in incarceration to further determine how the use of confinement can realistically be reduced To do this Zimring first profiles the growth of imprisonment after 1970 emphasizing the important roles of both the federal system and the distribution of power and fiscal responsibility among the levels of government in American states He also examines the changes in law enforcement prosecution and criminal sentencing that ignited the 400% increase in rates of imprisonment in the single generation after 1975 Finally Zimring then proposes a range of strategies that can reduce prison population and promote rational policies of criminal punishment Arguing that the most powerful enemy to reducing excess incarceration is simply the mundane features of state and local government such as elections of prosecutors and state support for prison budgets this book challenges the conventional ways we consider the issue of mass incarceration in the United States and how we can combat the rising numbers Parental Imprisonment and Children's Rights Fiona Donson,Aisling Parkes,2021-03-30

This book brings together internationally renowned academics and professionals from a variety of disciplines who in a variety of ways seek to understand the legal conceptual and practical consequences of parental imprisonment through a children's rights lens Children whose parents have been incarcerated are often referred to as invisible victims of crime and the penal system It is well accepted that the imprisonment of a parent even for a short period of time not only negatively affects the lives of children but it can also result in a gross violation of their fundamental human rights such as the right of access to their parent and the right to have an input into decision making processes affecting them the outcomes of which will without doubt affect the life of the child concerned This collection foregrounds the voice of these children as it explores transdisciplinary boundaries and examines the practice and development of the rights of both children and their families within the wider dynamic of criminal justice and penology practice The text is divided into three parts which are dedicated to

1 hearing the voices of children with parents in prison 2 understanding to what extent children s rights informs prison policy and 3 demonstrating how law in the form of children s rights can help frame both court sentencing and prison practice in a way that minimises the harm that contact with the prison system can cause The research drawn upon in this book has been conducted in a number of European countries and demonstrates both good and bad practice as far as the implementation of children s rights is concerned in the context of parental incarceration An accessible and compelling read this book will appeal to students and scholars of law children s rights criminology sociology social work psychology penology and all those interested in and working towards protecting the rights of children who have a parent in prison      **The Future of the**
