International Law Situated Outi Korhonene, 2021-10-25 International Law Situated is the first study in the series of International Law Monographs by the Erik Castrén Institute of International Law and Human Rights It is an analysis of both theoretical ambition and practical relevance examining the existential and professional situation of the international lawyer from a range of different perspectives How do international lawyers think about cultural difference and similarity What is the role of historical facts in international law and practice How do lawyers construe notions such as community or humanity what role is played therein by normative ideas about similarity and difference or of the good life What kinds of ethical considerations are implicit in international law and how should practitioners think about them This book provides a general framework for responding to these questions and shows their impact and relevance through doctrinal and case contexts It argues for an emphasis on the individual jurist and her situation as an adviser an advocate an analyst and a decision maker

Simpson,2017-10-05 This title was first published in 2002 The purpose if this volume is to provide a map of some of the great theoretical debates within the discipline of international law The essays included are structured as dialogues between international legal theorists on concrete subjects such as democracy gender compliance sovereignty and justice They represent the most interesting theoretical work undertaken in international law *Hedley Bull On International Society* NA

NA,2019-06-12 Hedley Bull was one of the most important figures in the academic study of international relations Although his work ranged widely one simple but powerful idea constantly recurs that sovereign states form among themselves a society and that this society must be understood on its own terms The end of the Cold War and developments within international relations theory have once again thrown the social dimension of world politics into sharp relief Although many have read Hedley Bull s *The Anarchical Society* few are familiar with the breadth and range of his writing This collection brings together Bull s most important work on international society illustrating the richness and analytical rigour of his thought and its evolution over time The volume includes a comprehensive introduction which examines Bull s conception of international society its relationship to contemporary theories of world politics and its continued relevance to our understanding of the post Cold War world *Identity and Diversity on the International Bench* Freya Baetens,2020-12-10

International courts and tribunals hold the power to decide on questions involving sovereignty over territory grave human rights violations international crimes or millions of euros worth of economic interests Judges and arbitrators are the faces and arguably the drivers of international adjudication Yet certain groups tend to be overrepresented on international benches while others remain underrepresented Although international courts and tribunals differ in their institutional make up and functions they all rely in essence on the judgement of a group of individuals each with their own background and experience Even if adjudicators identity is not the only and may not be the decisive influence on their decision making the relative lack of diversity has an effect on the judicial process and its outcomes which in turn entails broader implications for the legitimacy of international law This book analyses the implications of identity and diversity across numerous international adjudicatory bodies focusing on a wide range of factors Lack of diversity within the judiciary has been identified as a legitimacy concern in domestic settings and the last few years have seen increasing attention to this question at the international level as well making the book both timely and topical *Northern Europe and the Future of the EU* Helge Hoibraaten,Jochen

Hille,2012-01-01 HauptbeschreibungThe current relationship between the Nordic countries and the European Union appears complex and confusing Although Denmark in 1973 and Sweden and Finland in 1995 joined the European Union the entry of Norway into the Union was rejected in the plebiscites of 1972 and 1994 Furthermore Nordic EU members enjoy permanent exceptions to their integration into the EU Denmark and Sweden like the U K have declined to become part of the monetary union Finland is essentially the only Nordic country that entered the EU without substantial exceptions A membership bid from Iceland was unthinkable after the financial crisis which is not the topic of this book Iceland applied for membership in 2010 and has been in discussions with the European Commission ever since In other words the European Union divides Nordic societies which has resulted in a series of national exceptions to the integration process Taken together these exceptions have created an integration process whose overall geometry is contradictory and paradoxical Considering this melange this book will discuss the actual state of Nordic integration into the EU from many different perspectives and illuminate future developments in the field of integration Where is the North relative to Europe today How can the geometry of Northern Europe's integration developed over a long time be characterised What are the challenges that threaten further development of Nordic European relationships *Recueil Des Cours/Collected Courses, Volume 285 (2000)* Academie de Droit International de la Haye,2001-08-01 The Academy is an institution for the study and teaching of public and private international law and related subjects Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law This volume contains International Law and International Relations by A M SLAUGHTER Director Graduate and International Legal Studies Harvard Law School L Etat insulaire by L LUCCHINI Professeur a l Institut oceanographique de Paris To access the abstract texts for this volume please click here

Climate Justice T. Thorp,2014-08-28 In this ground breaking work Teresa Thorp tackles the causes and effects of climate injustice by methodically mapping out an approach by which to reach a negotiated consensus with legal force to protect present and future generations Using the law and policy of climate change as a vehicle for illustrating how to shape our future she comprehensively overturns the widely held contemporary view of climate justice as inconstant charitable acts relative systemic notions and static concepts isolated from the common good and a congruent rule of law Responding to the adverse impacts of climate change heat waves extended drought severe flooding and desertification which represent an urgent and potentially irreversible threat to human societies and the planet requires a new and cohesive way of thinking about global policy and the law The mission of guaranteeing and realising human dignity human security and human rights is multi fold Looking through the lens of kaleidoscopic normativity an extensible language anchored in common juridical elements should facilitate how norms enter the socio legal frame and interact within it Users need to be able

to display and interpret the congruent legal norm in order to obey and apply it Galvanising this process by constitutionalising first principles and consequential norms is vital for attaining fraternity between nations and among all people Climate Justice A Voice for the Future is an essential read for scholars practitioners and all those genuinely interested in reaching consensus on a post 2015 global climate accord a unified development agenda and a cohesive pact for disaster risk reduction
