The Future Of Transatlantic Relations Wilton Park Papers:

The Future of Transatlantic Relations Richard Latter, 1993 The construction of a cooperative and peaceful new world order to replace the armed confrontation of the Cold War is in jeopardy Although the possibility of a major military confrontation between East and West is now remote threats to international order remain In the short term the main problem for Western security is the risk of inter ethnic tension in Eastern Europe generating widespread violence and disruption This report notes that the lack of West European consensus is reflected both in its response to the crisis in the East and in the faltering progress towards European Union exemplified by divisions over the Maastricht Treaty *The Policies and Power of Public Diplomacy* Nick Hopkinson, 2025-04-16 This volume examines the higher level discussions convened at Wilton Park the UK's Foreign Commonwealth and Development Office's policy forum since its inception in 1946 Originally a re education camp after World War II in the principles and practice of democracy Wilton Park has evolved into a first class international policy forum and UK soft power asset working in more than 50 countries Over the decades senior decision makers and opinion formers from around the world have advanced and shaped thinking and policies on global issues including building post war Germany transatlantic security East West relations the transition from apartheid in South Africa the UK's relations with Europe European integration trade human rights climate change sustainable development and health With unique archival access this book comprehensively details the discussions which have helped shape post war Europe and international policymaking particularly in the UK US and wider Europe *The Policies and Power of Public Diplomacy* will be of interest to anyone interested in international relations and is essential reading for academics diplomats decision makers and students from around the world *British Reports, Translations and Theses* British Library. HMSO Monthly Catalogue Great Britain. Her Majesty's Stationery Office, 1993 *The Future World Trade Organisation Agenda* Nicholas Hopkinson, 1995 Dated July 1995 Report based on Wilton Park Conference 435 20 24 March 1995 consolidating multilateral trade and the future World Trade Organisation WTO agenda *Russia, Its Neighbours and the Future of European Security* Richard Latter, 1995 The Russian Federation remains fragile economically and politically unstable the maintenance of democracy is by no means assured Divisions inherited from the former Soviet system have been exacerbated considerably during a process of political and economic change Western policy has been to encourage democracy and economic reform not least because of fears of possible disintegration of the Russian state with negative consequences for international stability Yet western states are critical of Russian use of force in the Near Abroad and reject outright Russian opposition to an increased role for western institutions in central Europe **Trading Blocs and the Future GATT Agenda** Nicholas Hopkinson, 1993 There is optimism that the Uruguay Round will be completed but the real question is the quality of the final agreement Outstanding business from the Round which brings together all the distinct strands of world trade for the first time and new policy aspects such as the environment competition and labour will be

among the main agenda items for a future Round Nevertheless the highest priority in multilateral trade relations today is to complete the current Round **European Access**, 1996 **Business and Security** Alyson J. K. Bailes, Isabel Frommelt, 2004 Bringing together a variety of experts in business government and international organizations this is a major new evaluation of the growing interdependence of the private and public sectors in tackling present day security challenges

European Security and Defence Richard Latter, 1995 As the century draws to a close this report argues that there is a need to maintain close transatlantic security ties and to expand these to include the security interests of Eastern Europe including Russia in a stable and co operative European security system It concludes that there are grounds for optimism Despite evident introspection in the West and economic and social disruption in Eastern Europe a strong spirit of co operation is being nurtured which is increasingly evident in the areas of trade arms control and co operation on regional crises

Uncertain Europe Martin Smith, Graham Timmins, 2002-04-12 This timely book considers the topical issue of the enlargement processes of the European Union and NATO This book is an essential resource for those academics interested in the development of the European Union

European Security Governance Charlotte Wagnsson, James Sperling, Jan Hallenberg, 2009-05-11 This book focuses on the problems of and prospects for strengthening the global system of security governance in a manner consistent with the aspirations and practices of the EU The EU approach to security governance has been successful in its immediate neighbourhood it has successfully exported its preferred norms and principles to applicant countries thereby pacifying its immediate neighbourhood and making all of Europe more secure The EU governance orientation ultimately seeks to enlarge the European security community and expand the geopolitical area within which armed conflicts are inconceivable and where state and private actors converge around a set of norms and rules of behaviour and engagement The EU s success along its immediate boundaries has not yet been replicated on a global scale it remains an open question whether the EU system of governance can be exported globally owing to different normative structures for example a tolerance of armed conflict or non democratic governance internally great power competition such as US China or ongoing processes of securitization that has made it difficult to find a commonly accepted definition of security Moreover the EU system of security governance clashes with the continuing unwillingness of other major powers to cede or pool sovereignty as well as varying preferences for unilateral as opposed to multilateral forms of statecraft This edited volume addresses both the practical and political aspects of security governance and the barriers to the globalization of the EU system of security governance particularly in the multipolar post Cold War era This book will be of great interest to students of security governance EU politics European Security and IR in general James Sperling is Professor of Political
