Herzog weaves the book around case studies of Madrid and Barcelona Spain Mexico City and Quer taro Mexico and the Tijuana San Diego border metropolis He examines how each of these urban areas was formed and grew through time with attention to the design lessons of key public spaces The book offers original and incisive discussions that challenge current urban thinking about politics and public space globalization and the future of privatized communities from gated suburbs to cyberspace Herzog argues that well designed human scaled city centers are still vitally necessary for maintaining community and civic life Applicable to urban renewal projects around the globe Herzog s book will be important reading for planners architects designers and all citizens interested in creating more livable cities
